British Mail Steamers to South America, 1851–1965 Dr Robert E Forrester,2014-05-28 During the nineteenth century the British government and the Admiralty provided large subsidies to commercial companies to run international mail services. Concentrating on the service between Britain and South America, this book explores the economic, maritime and political aspects of the Royal Mail Lines company, which held contracts between 1851 and 1965, and reveals the impacts that a long-distance mail service had upon travel, trade, commerce and the changing patterns of global information exchange.

Male Suicide and Masculinity in 19th-century Britain Lyndsay Galpin,2022-04-07 This book shows how interpretations of suicidal motives were guided by gendered expectations of behaviour, and that these expectations were constructed to create meaning and understanding for family, friends and witnesses. Providing an insight into how people of this era understood suicidal behaviour and motives, it challenges the assertion that suicide was seen as a distinctly feminine act, and that men who took their own lives were feminized as a result. Instead, it shows that masculinity was understood in a more nuanced way than gender binaries allow, and that a man's masculinity was measured against other men. Focusing on four common narrative types; the love-suicide, the unemployed suicide, the suicide of the fraudster or speculator, and the suicide of the dishonoured soldier, it provides historical context to modern discussions about the crisis of masculinity and rising male suicide rates. It reveals that narratives around male suicides are

not so different today as they were then, and that our modern model of masculinity can be traced back to the 19th century.

The American Congress Steven S. Smith,Jason M. Roberts,Ryan J. Vander Wielen,2015-07-22 The ninth edition of this respected textbook provides a fresh perspective and a crisp introduction to congressional politics. Informed by the authors' Capitol Hill experience and scholarship, the new edition reflects changes resulting from the November 2014 elections and such developments as (a) a new majority party in the Senate, (b) new campaign spending numbers and election outcomes, rules, committees, leaders, and budget developments, and (c) recent political science literature that provides new perspectives on the institution. The text emphasizes the importance of a strong legislature and has discussion questions and further reading. Alongside clear explanations of congressional rules and the law-making process, there are examples from contemporary events and debates that highlight Congress as a group of politicians as well as a law-making body. These recent developments are presented within the context of congressional political history.

Toronto Neighbourhoods 7-Book Bundle Mark Osbaldeston,F.R. (Hamish) Berchem,Frederick H. Armstrong,Scott Kennedy,Jane Pitfield,2014-03-14

The Toronto Neighbourhoods bundle presents a collection of titles that provide fascinating insight into the history and development of Canada's largest and most diverse city. Beginning with histories of Canada's longest street and the early days of what was once called York (The Yonge Street Story, 1793-1860; A City in the Making; Opportunity Road), the titles in the bundle go on to examine the development of particular unique neighbourhoods that help give the city its character (Willowdale, Leaside). Finally, Mark Osbaldeston's acclaimed, award-winning Unbuilt Toronto and Unbuilt Toronto 2 go beyond history and into the arena of speculation as the author details ambitious and possibly city-changing plans that never came to fruition. For lovers of Toronto, this collection is a bonanza of insights and facts. Includes A City in the Making Leaside Opportunity Road Unbuilt Toronto Unbuilt Toronto 2 Willowdale The Yonge Street Story, 1793-1860
