Know Your Rights, and how to Make Them Work for You ,1995 Know your rights is the book that empowers you to resolve the dilemma, now and forever.

Who Stole the American Dream? Hedrick Smith,2013-08-27 Pulitzer Prize winner Hedrick Smith’s new book is an extraordinary achievement, an eye-opening account of how, over the past four decades, the American Dream has been dismantled and we became two Americas. In his bestselling *The Russians*, Smith took millions of readers inside the Soviet Union. In *The Power Game*, he took us inside Washington’s corridors of power. Now Smith takes us across America to show how seismic changes, sparked by a sequence of landmark political and economic decisions, have transformed America. As only a veteran reporter can, Smith fits the puzzle together, starting with Lewis Powell’s provocative memo that triggered a political rebellion that dramatically altered the landscape of power from then until today. This is a book full of surprises and revelations—the accidental beginnings of the 401(k) plan, with disastrous economic consequences for many; the major policy changes that began under Jimmy Carter; how the New Economy disrupted America’s engine of shared prosperity, the “virtuous circle” of growth, and how America lost the title of “Land of Opportunity.” Smith documents the transfer of \$6 trillion in middle-class wealth from homeowners to banks even before the housing boom went bust, and how the U.S. policy tilt favoring the rich is stunting America’s economic growth. This book is essential reading for all of us who want to understand America today, or why average Americans are struggling to keep afloat. Smith reveals how pivotal laws and policies were altered while the public wasn’t looking, how Congress often ignores public opinion, why moderate politicians got shoved to the sidelines, and how Wall Street often wins politically by hiring over 1,400 former government officials as lobbyists. Smith talks to a wide range of people, telling the stories of Americans high and low. From political leaders such as Bill Clinton, Newt Gingrich, and Martin Luther King, Jr., to CEOs such as Al Dunlap, Bob Galvin, and Andy Grove, to heartland Middle Americans such as airline mechanic Pat O’Neill, software systems manager Kristine Serrano, small businessman John Terboss, and subcontractor Eliseo Guardado, Smith puts a human face on how middle-class America and the American Dream have been undermined. This magnificent work of history and reportage is filled with the penetrating insights, provocative discoveries, and the great empathy of a master journalist. Finally, Smith offers ideas for restoring America’s great promise and reclaiming the American Dream. Praise for *Who Stole the American Dream?* “[A] sweeping, authoritative examination of the last four decades of the American economic experience.”—The Huffington Post “Some fine work has been done in explaining the mess we’re in. . . . But no book goes to the headwaters with the precision, detail and accessibility of Smith.”—The Seattle Times “Sweeping in scope . . . [Smith] posits some steps that could alleviate the problems of the United States.”—USA Today “Brilliant . . . [a] remarkably comprehensive and coherent analysis of and prescriptions for America’s contemporary economic malaise.”—Kirkus Reviews (starred review) “Smith enlivens his narrative with portraits of the people caught up in events, humanizing complex subjects often rendered sterile in economic analysis. . . . The human face of the story is inseparable from the history.”—Reuters

Human Dimension and Interior Space Julius Panero,Martin Zelnik,2014-01-21 The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With Human Dimension and Interior Space, these standards are now accessible to all designers of interior environments.

GILL PAUL 'Intriguing ... A fascinating read' HAZEL GAYNOR 'Remarkable' ESSIE FOX 'An astonishing tour de force' REBECCA MASCULL In 1887 young Nellie Bly sets out for New York and a career in journalism, determined to make her way as a serious reporter, whatever that may take. But life in the city is tougher than she imagined. Down to her last dime and desperate to prove her worth, she comes up with a dangerous plan: to fake insanity and have herself committed to the asylum that looms on Blackwell's Island. There, she will work undercover to document - and expose - the wretched conditions faced by the patients. But when the asylum door swings shut behind her, she finds herself in a place of horrors, governed by a harshness and cruelty she could never have imagined. Cold, isolated and starving, her days of terror reawaken the traumatic events of her childhood. She entered the asylum of her own free will - but will she ever get out? An extraordinary portrait of a woman way ahead of her time, *Madwoman* is the story of a quest for the truth that changed the world. 'Madwoman is one of the best, a magnificent portrayal of Nelly Bly in all her journalistic integrity and daring' New York Journal of Books
