The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your

Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*Karakoram* Steve Swenson, 2017-04-01 • A memoir of adventure in one of the most dangerous places on the planet • The Karakoram is home to K2, the deadliest of the world's 8,000-meter peaks The best mountain climbing in the world, Steve Swenson will tell you, is in the Karakoram. Swenson has been climbing in these mountains since 1980 and has a perspective on the land and its people

like few others. A complex place, the Karakoram Range is located in Kashmir, a western Himalaya border region that has a long history of tension and conflict between China, India, and Pakistan, tensions that have only been magnified since 9/11. Over the course of more than thirty years climbing there, Swenson's experiences have been laced with daunting challenges, exhilarating successes, and terrifying moments—caused by the risks inherent in alpine environments, as well as politics below spilling into the peaks above. In *Karakoram: Climbing Through the Kashmir Conflict*, Swenson writes evocatively of his naiveté on his first visit to Pakistan for an attempt on Gasherbrum IV, during which he faced the teeming, bewildering streets of Islamabad and new challenges of dealing with a confusing array of bureaucrats, hiring hundreds of porters desperate for work, as well as the business of attempting to climb a towering peak just shy of 8,000 meters. By 2015 when he invited climbers to join him on an attempt of K6, Swenson had become the old-hand; it was his familiarity with the region that got them through the planning, the trek, and the climb. Even as he managed a busy career and family at home, Swenson returned to the region more than a dozen times, making attempts on well known giants such as K2, Everest, and Nanga Parbat, as well as other, less familiar, peaks. While he often succeeded, he was often turned back, forced from the mountains by weather, failed logistics, fractured team dynamics, or unexpected skirmishes in the region. What drew him, again and again, was that he always learned something new and forged strong bonds with his climbing partners, including Doug Scott, Alex Lowe, Steve House, and others. Stronger still became his friendship with Haji Ghulam Rasool, a local Balti man whom he first met as a young cook in 1984. Rasool and other Pakistanis have served as Swenson's window on this restive region, revealing how territorial conflicts can affect not just international climbing expeditions, but also the day-to-day livelihood of the local people. Karakoram is Swenson's personal story of

adventure in one of the most dangerous mountain environments on the planet. His love of climbing led him to these summits; his deep respect for the rugged landscapes and local people inspire his return. • A memoir of adventure in one of the most dangerous places on the planet • The Karakoram is home to K2, the deadliest of the world's 8,000-meter peaks The best mountain climbing in the world, Steve Swenson will tell you, is in the Karakoram. *Food Marketing to Children and Youth* Institute of Medicine,Board on Children, Youth, and Families,Food and Nutrition Board,Committee on Food Marketing and the Diets of Children and Youth,2006-05-11 Creating an environment in which children in the United States grow up healthy should be a high priority for the nation. Yet the prevailing pattern of food and beverage marketing to children in America represents, at best, a missed opportunity, and at worst, a direct threat to the health prospects of the next generation. Children's dietary and related health patterns are shaped by the interplay of many factors—their biologic affinities, their culture and values, their economic status, their physical and social environments, and their commercial media environments—all of

which, apart from their genetic predispositions, have undergone significant transformations during the past three decades. Among these environments, none have more rapidly assumed central socializing roles among children and youth than the media. With the growth in the variety and the penetration of the media have come a parallel growth with their use for marketing, including the marketing of food and beverage products. What impact has food and beverage marketing had on the dietary patterns and health status of American children? The answer to this question has the potential to shape a generation and is the focus of *Food Marketing to Children and Youth*. This book will be of interest to parents, federal and state government agencies, educators and schools, health care professionals, industry companies, industry trade groups, media, and those involved in community and consumer advocacy.
