Border Ecology Ila Nicole Sheren, 2023-03-10 This book analyzes how contemporary visual art can visualize environmental crisis. It draws on Karen

Barad's method of "agential realism," which understands disparate factors as working together and "entangled." Through an analysis of digital eco art, the book shows how the entwining of new materialist and decolonized approaches accounts for the nonhuman factors shaping ecological crises while understanding that a purely object-driven approach misses the histories of human inequality and subjugation encoded in the environment. The resulting synthesis is what the author terms a border ecology, an approach to eco art from its margins, gaps, and liminal zones, deliberately evoking the idea of an ecotone. This book is suitable for scholarly audiences within art history, criticism and practice, but also across disciplines such as the environmental humanities, media studies, border studies and literary eco-criticism.

The Unwritten Rules of Social Relationships Temple Grandin, Sean Barron, 2005
The authors share what they have learned about social relationships over the course of years struggling with the effects of autism, identifying Ten Unwritten Rules as general guidelines for handling social situations.

Everyday Creativity and the Healthy Mind Ruth Richards, 2018-08-20 As human beings we all have creative potential, a quality essential to human development and a vital component to healthy and happy lives. However this may often remain stifled by the choices we make, or ways in which we choose to live in our daily lives. Framed by the “Four Ps of Creativity” – product, person, process, press – this book offers an alternative understanding of the fundamentals of ordinary creativity. Ruth Richards highlights the importance of “process”, circumventing our common preoccupation with the product, or creative outcome, of creativity. By focusing instead on the creator and the creative process, she demonstrates how we may enhance our relationships with life, beauty, future possibilities, and one another. This book illustrates how our daily life styles and choices, as well as our environments, may enable and allow creativity; whereas environments not conducive to creative flow may kill creative potential. Also explored are questions of ‘normality’, beauty and nuance in creativity, as well as creative relationships.

Art Deco Spot Illustrations and Motifs William Rowe, 1985-09 The sleek, exciting geometric motifs seen everywhere in today's decorative arts reflect the continuing Art Deco revival. Textiles, wallpaper, upholstery, and graphics abound with the dynamic, distinctive patterns associated with this influential and popular style. Now artists, designers, and craftspeople can

have a treasury of original Art deco compositions at their fingertips—ready for use in any graphic project. This volume includes over 500 crisp black-and-white spot illustrations and motifs combining stylized birds, insects, and floral elements with circles, squares, ovals, triangles, and other abstract forms. Best of all, they're copyright-free . . . no prior permission or fee is required for use. Remarkably inventive and versatile, William Rowe's masterful Art Deco renderings are perfect for highlighting advertisements, greeting cards, menus, catalogs and invitations, or for adding graphic vitality to fabric designs, stationery, bookplates, and a host of other arts and crafts undertakings. You'll find Art Deco Spot Illustrations and Motifs ideal for your needs whether your project calls for an entire illustration or just a single motif. Designers, illustrators, and craft enthusiasts will want to keep this time-saving, money-saving collection on hand as an inexhaustible source of inspiration with fresh Art Deco flavor. Original Dover (1985) publication.

Advertising to Children M. Blades,C. Oates,F. Blumberg,B. Gunter,2014-08-29 This important source for students, researchers, advertisers and parents reviews the debates and presents new research about advertising to children. Chapters cover food and alcohol advertising, the effects of product placement and new media advertising, and the role of parents and teachers in helping children to learn more about advertising.

Campus Traditions Simon J. Bronner,2012-09-10 From their beginnings,

campuses emerged as hotbeds of traditions and folklore. American college students inhabit a culture with its own slang, stories, humor, beliefs, rituals, and pranks. Simon J. Bronner takes a long, engaging look at American campus life and how it is shaped by students and at the same time shapes the values of all who pass through it. The archetypes of absent-minded profs, fumbling jocks, and curve-setting dweebs are the stuff of legend and humor, along with the all-nighters, tailgating parties, and initiations that mark campus tradition—and student identities. Undergraduates in their hallowed halls embrace distinctive traditions because the experience of higher education precariously spans childhood and adulthood, parental and societal authority, home and corporation, play and work. Bronner traces historical changes in these traditions. The predominant context has shifted from what he calls the “old-time college,” small in size and strong in its sense of community, to mass society’s “mega-university,” a behemoth that extends beyond any campus to multiple branches and offshoots throughout a state, region, and sometimes the globe. One might assume that the mega-university has dissolved collegiate traditions and displaced the old-time college, but Bronner finds the opposite. Student needs for social belonging in large universities and a fear of losing personal control have given rise to distinctive forms of lore and a striving for retaining the pastoral “campus feel” of the old-time college. The folkloric material students spout, and sprout, in response to these needs is varied but it is tied together by its

invocation of tradition and social purpose. Beneath the veil of play, students work through tough issues of their age and environment. They use their lore to suggest ramifications, if not resolution, of these issues for themselves and for their institutions. In the process, campus traditions are keys to the development of American culture.

Things That Go Bump in the Church Mike Abendroth, Clint Archer, Byron Forrest Yawn, 2014-04-01 What does the Bible say about the important topics you hear about in sermons every week? Authors Mike Abendroth, Clint Archer, and Byron Yawn explore issues where confusion abounds – critical issues such as: Hell: What does the Bible say about hell being a real place of future punishment? Demons: Just how much influence do demons really have in the life of a Christian? The secret to overcoming fear is knowledge. As you carefully compare your church doctrine with what the Bible says, you'll gain confidence in knowing the truth and be able to discern and apply it. The more you know what God's Word says about things that go bump in the church, the less hesitant you will feel about discussing them with others and living according to them.

Retrospective June Yap, 2017-08-15 Developed as an exploratory study of artworks by artists of Singapore and Malaysia, Retrospective attempts to account for contemporary artworks that engage with history. These are artworks that reference past events or narratives, of the nation and its art. Through the examination of a selection of artworks produced between 1990 and

2012, *Retrospective* is both an attribution and an analysis of a historiographical aesthetic within contemporary art practice. It considers that, by their method and in their assembly, these artworks perform more than a representation of a historical past. Instead, they confront history and its production, laying bare the nature and designs of the historical project via their aesthetic project. Positing an interdisciplinary approach as necessary for understanding the historiographical as aesthetic, *Retrospective* considers not only historical and aesthetic perspectives, but also the philosophical, by way of ontology, in order to broaden its exposition beyond the convention of historical and contextual interpretation of art. Yet, in associating these artworks with a historiographical aesthetic, this exposition may be regarded as a historiographical exercise in itself, affirming the significance of these artworks for the history of Singapore and Malaysia. In short, which history rarely is, *Retrospective* is about the art of historicisation and the historicisation of art.

The Equal Classroom Lucy Rycroft-Smith, Graham Andre, 2019-11-15 How much thinking have you done about gender? What does it feel like to be gay, trans or non-binary at school? How unbiased, safe and inclusive are our teachers, our schools and our systems, and what can we do about it? The time is ripe for a re-think, and the issues are pressing. Our pupils are grappling with challenges around gender and sexuality, and they need our well-informed support. Providing evidence, prompts and the space to explore the

implications, restrictions and constructs of gender, this book is here to help every teacher reflect on issues around gender roles and expectations in their class. In this challenging and potent book, experts, academics and campaigners join forces to contribute important perspectives to complement Rycroft-Smith's own accessible and often provocative explanations of many facets of gender and sexuality, including media, literature, toys, clothing, sexism, expectations, sexuality, gender roles, harassment and consent. Humour and anecdotes are thoughtfully intertwined with fascinating insights into biological and cultural perspectives and societal norms, highlighting why it's so vital to teach pupils about gender issues, as well as modelling consent, good quality relationships and tolerance to children at all ages and stages of their school career. Providing clear, practical policy recommendations in an accessible and engaging way, *The Equal Classroom* is an essential read for any teacher or education professional who wants to ensure their school is a place where all pupils feel truly welcome and able to flourish, comfortable and safe in their emerging identities.

A World Without "Whom" Emmy J. Favilla, BuzzFeed, 2017-11-14 A provocative and jaunty romp through the dos and don'ts of writing for the internet (NYT)-the practical, the playful, and the politically correct--from BuzzFeed copy chief Emmy Favilla. *A World Without Whom* is Eats, Shoots & Leaves for the internet age, and BuzzFeed global copy chief Emmy Favilla is the witty go-to style guru of webspeak. As language evolves faster than ever before, what is

the future of correct writing? When Favilla was tasked with creating a style guide for BuzzFeed, she opted for spelling, grammar, and punctuation guidelines that would reflect not only the site's lighthearted tone, but also how readers actually use language IRL. With wry cleverness and an uncanny intuition for the possibilities of internet-age expression, Favilla makes a case for breaking the rules laid out by Strunk and White: A world without whom, she argues, is a world with more room for writing that's clear, timely, pleasurable, and politically aware. Featuring priceless emoji strings, sidebars, quizzes, and style debates among the most lovable word nerds in the digital media world--of which Favilla is queen--A World Without Whom is essential for readers and writers of virtually everything: news articles, blog posts, tweets, texts, emails, and whatever comes next . . . so basically everyone.

My House in Damascus Diana Darke, 2014-08-15 The ongoing conflict in Syria has made clear just how limited the general knowledge of Syrian society and history is in the West. For those watching the headlines and wondering what led the nation to this point, and what might come next, this book is a perfect place to start developing a deeper understanding. Based on decades of living and working in Syria, My House in Damascus offers an inside view of Syria's cultural and complex religious and ethnic communities. Diana Darke, a fluent Arabic speaker who moved to Damascus in 2004 after decades of regular visits, details the ways that the Assad regime, and its relationship to the

people, differs from the regimes in Egypt, Tunisia, and Libya—and why it was thus always less likely to collapse quickly, even in the face of widespread unrest and violence. Through the author's firsthand experiences of buying and restoring a house in the old city of Damascus, which she later offered as a sanctuary to friends, Darke presents a clear picture of the realities of life on the ground and what hope there is for Syria's future.

Machine Dreaming and Consciousness J. F. Pagel, Philip Kirshtein, 2017-04-13
Machine Dreaming and Consciousness is the first book to discuss the questions raised by the advent of machine dreaming. Artificial intelligence (AI) systems meeting criteria of primary and self-reflexive consciousness are often utilized to extend the human interface, creating waking experiences that resemble the human dream. Surprisingly, AI systems also easily meet all human-based operational criteria for dreaming. These "dreams are far different from anthropomorphic dreaming, including such processes as fuzzy logic, liquid illogic, and integration instability, all processes that may be necessary in both biologic and artificial systems to extend creative capacity. Today, multi-linear AI systems are being built to resemble the structural framework of the human central nervous system. The creation of the biologic framework of dreaming (emotions, associative memories, and visual imagery) is well within our technical capacity. AI dreams potentially portend the further development of consciousness in these systems. This focus on AI dreaming raises even larger questions. In many ways, dreaming defines our

humanity. What is humanly special about the states of dreaming? And what are we losing when we limit our focus to its technical and biologic structure, and extend the capacity for dreaming into our artificial creations? Machine Dreaming and Consciousness provides thorough discussion of these issues for neuroscientists and other researchers investigating consciousness and cognition. Addresses the function and role of dream-like processing in AI systems Describes the functions of dreaming in the creative process of both humans and machines Presents an alternative approach to the philosophy of machine consciousness Provides thorough discussion of machine dreaming and consciousness for neuroscientists and other researchers investigating consciousness and cognition

How to Breathe Underwater Chris Turner, 2014-10-13 The essays and reportage in How to Breathe Underwater offer a panoramic overview of this age of radical change—from the online gambling boom in the Caribbean to Cyberjaya, the Malaysian government’s attempt to build its own Silicon Valley; from video game design to digital-age tabloid journalism to the artistry of *The Simpsons*; and from the fate of the Great Barrier Reef to Cuba’s economic limbo after the fall of the Soviet empire. In field reports that survey the rise of the internet in the 1990s, analyze the changing nature of mass culture in the digital age, and provide a multifaceted look at how human industry is shaping the planet’s foundations, this collection presents a fractal portrait of a society in rapid flux. Chris Turner is the author of

four previous books, a nine-time National Magazine Award winner and a sought-after speaker on the rise of the global green economy, as well as a celebrated feature writer for The Walrus, Canadian Geographic, The Globe & Mail and other major publications. His lively and passionate reportage, along with his incisive essays and shrewd cultural criticism, have for the past fifteen years made essential contributions to the debates on our climate, culture, and technology. They are collected here for the first time. Praise for *How To Breathe Underwater* "Chris Turner is among the best magazine writers on the planet. His writing is so beautiful, wry and well-reported that it's spellbinding. And spellbreaking: He wakes you up, makes you sit upright and look afresh at our culture, our climate, and where we need to go. This is literary nonfiction at its finest."—Clive Thompson, *Wired* columnist and author of *Smarter Than You Think* Chris Turner is the master of long-form journalism in Canada, a smart, funny, and endlessly curious envoy to everywhere. This collection gathers his best work, forging links of meaning in a chain of superb reporting and writing; readers will see many choice pieces and realize, maybe for the first time, that they were all fashioned by the same indefatigable intelligence.—Mark Kingwell, the author of *A Civil Tongue* Whatever you choose to call this kind of stylishly reported, deeply engaged, richly nuanced, gorgeously written nonfiction--saturation reportage, new journalism, longform writing--it without question qualifies as real literature. It's the only kind of journalism that gets remembered, and the

only kind that produces real change. Chris Turner has been writing it since he started taking notes.”—Ian Brown, author of *The Boy in the Moon and Globe & Mail* feature writer

Precision Marketing Jeff Zabin, Gresh Brebach, 2004-03-04 Today, the pressure to demonstrate Marketing ROI has never been greater, and many companies are taking a more scientific approach to marketing, and treating it as a true business discipline. This means applying more rigor to capturing, analyzing and manipulating customer data, and delivering narrowly-defined messages designed to resonate with customers' specific wants and needs. This process is called precision marketing. Based on extensive research and their own experience working with some of the world's largest and most progressive marketing organizations, Jeff Zabin and co-author Gresh Brebach show how precision marketing can yield enormous business value. Writing in an engaging style that touches on everything from Renaissance thinking to Minority

Report, they provide a definitive roadmap for combining precision marketing with mass marketing to cut costs, grow revenues, and create an overall competitive advantage.

Lumia Keely Orgeman, 2017-04-11 A long-overdue publication that restores Wilfred to the art-historical canon Lumia presents a long-overdue reevaluation of the groundbreaking artist Thomas Wilfred (1889-1968), whose unprecedented works prefigured light art in America. As early as 1919, many years before the advent of consumer television and video technology, Wilfred began experimenting with light as his primary artistic medium, developing the means to control and project unique compositions of colorful, undulating light forms, which he referred to collectively as lumia. Manifested as both live performances on a cinematic scale and self-contained structures, Wilfred's innovative displays captivated audiences and influenced generations of artists to come. This publication, the first dedicated to Wilfred in over forty years, draws on the artist's personal archives and includes a number of insightful essays that trace the development of his work and its relation to his cultural milieu. Featuring a foreword by the celebrated artist James Turrell, Lumia helps to secure Wilfred's rightful place within the canon of modern art.
