Fabricating the Absolute Fake Jaap Kooijman, 2008 A fascinating exploration of how global cultures struggle to create their own America within a post-9/11 media culture, *Fabricating the Absolute Fake* reflects on what it might mean to truly take part in American pop culture.

Kedi Jaimie Baron, Kristen Fuhs, 2021-03-18 This second book in the Routledge Doculogue series continues to model a new form for the discussion of documentary film, focusing on a new film and a different set of critical questions. *Kedi* (2016) is the first feature documentary by Turkish-American filmmaker Ceyda Torun. The film provides a window into the everyday lives of Istanbul street cats; their itinerant meanderings present a non-human perspective on this ever-changing, ancient city while at the same time exploring the meaningful impact these cats have on the humans they encounter. *Kedi: A Doculogue* brings together a diversity of perspectives on this film. By combining five distinct critical approaches to a single documentary, this book acts both as an intensive scholarly treatment and as a guide for how to analyze, theorize, and contextualize a documentary. Together, the essays in this book touch upon key topics in documentary studies, including animal studies, eco-documentaries, sound studies, and media industry studies, making them essential reading for scholars interested in contemporary documentary. They also provide useful case studies for teaching documentary film in courses on Contemporary Cinema, Cultural Studies, and Media Industries.

Can't Slow Down Michaelangelo Matos, 2020-12-08 A Rolling Stone-Kirkus Best Music Book of 2020 The definitive account of pop music in the mid-eighties, from Prince and Madonna to the underground hip-hop, indie rock, and club scenes Everybody knows the hits of 1984 - pop music's greatest year. From *Thriller* to *Purple Rain*, *Hello* to *Against All Odds*, *What's Love Got to Do with It* to *Wake Me Up Before You Go-Go*, these iconic songs continue to dominate advertising, karaoke nights, and the soundtracks for film classics (*Boogie Nights*) and TV hits (*Stranger Things*). But the story of that thrilling, turbulent time, an era when Top 40 radio was both the leading edge of popular culture and a moral battleground, has never been told with the full detail it deserves - until now. *Can't Slow Down* is the definitive portrait of the exploding world of mid-eighties pop and the time it defined, from Cold War anxiety to the home-computer revolution. Big acts like Michael Jackson (*Thriller*), Prince (*Purple Rain*), Madonna (*Like a Virgin*), Bruce Springsteen (*Born in the U.S.A.*), and George Michael (*Wham!'s Make It Big*) rubbed shoulders with the stars of the fermenting scenes of hip-hop, indie rock, and club music. Rigorously researched, mapping the entire terrain of American pop, with crucial side trips to the UK and Jamaica, from the biz to the stars to the upstarts and beyond, *Can't Slow Down* is a vivid journey to the very moment when pop was remaking itself, and the culture at large - one hit at a time.

The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film Michael C. Frank, 2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction, arguing that both are informed by, and contribute to, the cultural imaginary of terrorism. Whenever mass-mediated acts of terrorism occur, they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers, security experts, and journalists. In the process, the discursive boundary between the factual and the speculative can become difficult to discern. To elucidate this phenomenon, this book proposes that terror is a halfway house between the real and the imaginary. For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning, or part, of a potential series, and that further acts are expected to occur. As turn-of-the-century writers such as Stevenson and Conrad were the first to point out, this gives terror a fantastical dimension, a fact reinforced by the clandestine nature of both terrorist and counter-terrorist operations. Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late-Victorian science fiction to post-9/11 novels and cinema, this study explores the complex interplay between actual incidents of political violence, the surrounding discourse, and fictional engagement with the issue to show how terrorism becomes an object of fantasy. Drawing on research from a variety of disciplines, *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film, Terrorism Studies, Peace and Conflict Studies, Trauma Studies, and Cultural Studies.

Writing the Blockbuster Novel Albert Zuckerman, 2016-06-14 Albert Zuckerman, legendary literary agent, has worked with many bestselling authors, including

Ken Follett, Olivia Goldsmith, Antoinette Van Heugten, Michael Lewis, and F. Paul Wilson. Zuckerman is a master at teaching writers the skills necessary to crack the bestseller list. For this revised edition of *Writing the Blockbuster Novel*, Zuckerman has added an analysis of Nora Roberts's *The Witness*, which he uses along with classic books like *Gone With the Wind* and *The Godfather*, to illustrate his points. Zuckerman's commentary on Ken Follett's working outlines for *The Man From St. Petersburg* provide a blueprint for building links between plot and character. A new introduction discusses social media and self-publishing. *Writing the Blockbuster Novel* is an essential tool for any aspiring author. As Dan Brown said in an interview: Not long ago, I had an amusing experience meeting the author of a book I received as a gift nearly two decades ago a book that in many ways changed my life. I was halfway through writing my first novel when I was given a copy of *Writing the Blockbuster Novel*. [Zuckerman's] book helped me complete my manuscript and get it published. [When] I met Mr. Zuckerman for the first time. I gratefully told him that he had helped me. He jokingly replied that he planned to tell everyone that he had helped me write *The Da Vinci Code*. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In/visible War Jon Simons, John Louis Lucaites, 2017-06-14 *In/Visible War* addresses a paradox of twenty-first century American warfare. The contemporary visual American experience of war is ubiquitous, and yet war is simultaneously invisible or absent; we lack a lived sense that "America" is at war. This paradox of in/visibility concerns the gap between the experiences of war zones and the visual, mediated experience of war in public, popular culture, which absents and renders invisible the former. Large portions of the domestic public experience war only at a distance. For these citizens, war seems abstract, or may even seem to have disappeared altogether due to a relative absence of visual images of casualties. Perhaps even more significantly, wars can be fought without sacrifice by the vast majority of Americans. Yet, the normalization of twenty-first century war also renders it highly visible. War is made visible through popular, commercial, mediated culture. The spectacle of war occupies the contemporary public sphere in the forms of celebrations at athletic events and in films, video games, and other media, coming together as MIME, the Military-Industrial-Media-Entertainment Network.

The Messiah of Morris Avenue Tony Hendra, 2007-04-01 In *The Messiah of Morris Avenue*, Tony Hendra—the acclaimed satirist and New York Times bestselling author of *Father Joe*—poses the question: would we recognize the

messiah if he appeared today? And delivers, in the words of Frank McCourt, "just what the country needs now—a good dose of merriment in the face of crawthumping righteousness." In the not so distant future, the tide of righteousness—in the form of executions, barking evangelists, tank-like SUVs, and a movie industry run entirely by the Christian right—has swept the nation. Aside from the non-white, the non-Christian, and the non-wealthy, all are believers. Among the skeptics is a washed-up journalist named Johnny Greco, who hears of a media-shy young man known as "Jay" roaming through ghettos, healing the sick, and tossing off miracles. Soft-spoken and shabbily dressed, Jay is an unlikely savior for this anxious and intolerant America. But as he makes his rounds, gathers followers, and makes furious enemies among the righteous powers that be, Johnny finds it harder and harder to doubt him.

The 6 Enablers of Business Agility Karim Harbott, 2021-06-01 Adopting the latest agile tools and practices won't be enough to respond to rapid market change. Leaders must first lay the groundwork by creating the right environment for these tools to work. Many managers struggle to install the underlying organizational operating system for business agility. High-performing agile organizations depend on the strength of six key enabling factors: leadership, culture, structure, people, governance, and ways of working. This book explains why these factors are important and how they work together to increase organizational agility. Real-world examples, stories, and tools will help leaders get realistic about the scope of changes needed in their organizations and show them how to get started. Karim Harbott does not offer a book of recipes. Instead, he focuses on mindset, principles, and general patterns. This book summarizes of the most important factors in increasing organizational agility and why they work, which leaders will need to consider in a so-called agile transformation. Because every organization is different, each will have its own route to agility and high performance. Managers will need to tackle all the areas that are crucial to creating an environment in which any chosen approach can work.

The Scene of the Mass Crime Christian Delage, Peter Goodrich, 2013-05-07 The Scene of the Mass Crime takes up the unwritten history of the peculiar yet highly visible form of war crimes trials. These trials are the first and continuing site of the interface of law, history and film. From Nuremberg to the contemporary trials in Cambodia, film, in particular, has been crucial both as evidence of atrocity and as the means of publicizing the proceedings. But what does film bring to justice? Can law successfully address war crimes, atrocities, genocide? What do the trials actually show? What form of justice is done, and how does it relate to ordinary courts and proceedings? What lessons can be drawn from this history for the very topical political issue of filming civil and criminal trials? This book takes up the diversity and complexity of these idiosyncratic and, in strict terms, generally extra-legal medial situations. Drawing on a fascinating diversity of public trials and filmic responses, from the Trial of the Gang of Four to the Gacaca local courts of Rwanda to the filmic symbolism of 9-11, from Soviet era show trials to Nazi People's Courts leading international scholars address the theatrical, political, filmic and symbolic importance of show trials in making history, legitimating regimes and, most surprising of all, in attempting to heal trauma through law and through film. These essays will be of considerable interest to those working on international criminal law, transitional justice, genocide studies, and the relationship between law and film.

Remade in France Valérie Saugera, 2017-04-05 Remade in France: Anglicisms in the Lexicon and Morphology of French chronicles the current status of French Anglicisms, a popular topic in the history of the French language and a compelling example of the influence of global English. The abundant data come

from primary sources—a large online newspaper corpus (for unofficial Anglicisms) and the dictionary (for official Anglicisms)—and secondary sources. This book examines the appearance and behavior of English items in the lexicon and morphology of French, and explains them in the context of French neology and lexical activity. The first phase of the latest contact period (1990–2015) has its own complex linguistic characterization, including a significant influx of nonce borrowings and very low frequency Anglicisms, heterogeneous and creative borrowing outcomes, and direct phraseological borrowing. This book is a counterargument to the well-known criticism that Anglicisms are lexical polluters. On the contrary, the use of Anglicisms requires the inventive application of complex linguistic rules, and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic. The findings bring novel interdisciplinary insights to the domains of borrowing in a non-bilingual contact setting; global English as a source of lexical creativity in the French lexicon; the phases, patterns and processes of integration of English loanwords; the morphology of borrowing; and computational corpus linguistics. The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource.
