Segregation by Design Catalina Freixas, Mark Abbott, 2018-10-24 This book discusses racial segregation in American cities. Using St. Louis as a point of departure, it examines the causes and consequences of residential segregation, and proposes potential mitigation strategies. While an introduction, timeline and historical overview frame the subject, nine topic-specific conversations – between invited academics, policy makers and urban professionals – provide the main structure. Each of these conversations is contextualized by a photograph, an editors' note and an essay written by a respected current or former St. Louisan. The essayists respond to the conversations by speaking to the impacts of segregation and by suggesting innovative policy and design tactics from their professional or academic perspective. The purpose of the book, therefore, is not to provide original research on residential segregation, but rather to offer a unique collection of insightful, transdisciplinary reflections on the experience of

segregation in America and how it might be addressed.

Notes from the Hyena's Belly Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Bush in Babylon Tariq Ali, 2020-05-05 The assault and capture of Iraq--and the resistance it has provoked--will shape the politics of the twenty-first century. In this passionate and provocative book, Tariq Ali provides a history of Iraqi resistance against empires old and new, and argues against the view that sees imperialist occupation as the only viable solution to bring about regime-change in corrupt and dictatorial states. Like the author's previous work, The Clash of Fundamentalisms, this book presents a magnificent cultural history. Detailing the longstanding imperial ambitions of key figures in the Bush administration and how war profiteers close to Bush are cashing in, Bush in Babylon is unique in moving beyond the corporate looting by the US military government to offer the reader an expert and in-depth analysis of the extent of resistance to the US occupation in Iraq. On 15 February 2003, eight million people marched on the streets of five continents against a war that had not yet begun. A historically unprecedented number of people rejected official justifications for war that the secular Ba'ath Party of Iraq was connected to al-Qaeda or that weapons of mass destruction existed in the region, outside of Israel. More people than ever are convinced that the greatest threat to peace comes from the center of the American empire and its satrapies, with Blair and Sharon as lieutenants to the Commander-in-Chief. Examining how countries from Japan to France eventually rushed to support US aims, as well as the futile UN resistance, Tariq Ali proposes a re-founding of Mark Twain's mammoth American Anti-Imperialist League (which included William James, W.E.B. DuBois, William Dean Howells, and John Dewey) to carry forward the antiwar movement. Meanwhile, as Iraqis show unexpected hostility and independence, rather than gratitude, for liberation, Ali is unique in uncovering the depth of the resistance now occurring inside occupied Iraq.

Way Beyond Bigness Derek Hoeferlin, 2023-08 *Way Beyond Bigness* is a design-research project that studies the Mekong, Mississippi and Rhine river basins, with particular focus on multi-scaled, water-based infrastructural transformation. The book proposes a simple, adaptive framework that utilises a three-part, integrative design-research methodology, structured as: Appreciate + Analyze, Speculate + Synthesize, and Collaborate + Catalyze. To do such, 'Way Beyond Bigness' realigns watersheds and architecture across multiple: scales (site to river basin), disciplines (ecologists to economists), narratives (hyperbolic to pragmatic), and venues (academic to professional). The book highlights the author's comprehensive work of over more than a decade, including in depth field research across the Mekong, Mississippi and Rhine, along with a diverse body of academic and professional collaborations, ranging from the speculative to the community-based.

The Art of New York Seymour Chwast, Steven Heller, 1983 A homage to the vitality, power, beauty and magic of a great city in which paintings, drawings, sculptures and prints by leading twentieth-century artists have been gathered together to form an insightful, loving portrait of Oz on the Hudson. The editors have selected images that time and again reveal truths about the experience of living in New York: luminous skyscrapers against the night sky; a couple sunbathing on a roof; fantastic giant zebras straddling Midtown; crowds strolling past hot-dog stands on the Coney Island boardwalk; the quiet interior of an empty office at twilight. They include gritty cityscapes by Bellows and Glackens, cool architectural studies of Sheeler, O'Keefe, Feininger and works by Hassam, Marin, Mondrian, Hopper and Christo.
