The ACE Programmer's Guide Stephen D. Huston, James C. E. Johnson, Umar Syyid, 2003 This book analyzes the application of the legal principle of non-discrimination in the context of energy network operation. Since the early 1990s, the duty not to discriminate has applied to energy network operators, in order to achieve a liberalized European energy market in which European consumers have a free and real choice of energy supplier. The book provides guidance to those working in the context of the non-discrimination obligation, such as energy network operators, regulatory authorities, national courts, and other energy market players, as well as those studying the rules for (academic) research purposes. The book's conclusions serve as a tool for critical consideration and offer suggestions for improvements to the legal framework and its application on a European, as well as a national, level. Several questions are answered, including why energy network operators have a non-discrimination obligation in the context of energy market liberalization, how European law has tried to remove and control the discrimination problem since the early 1990s, and when different treatment of energy network users amounts to 'forbidden' discrimination. The book's conclusions are underpinned by comparisons with competition law, public procurement law, and telecommunications law, as well as a case study on how energy network operators and regulators in several Member States currently interpret and apply the non-discrimination obligation. (Series: Energy & Law - Vol. 15)

Spon's Architects' and Builders' Price Book 2018 AECOM, 2017-09-22

Construction prices rose over the last year by 5%, according to AECOM's tender price index, with construction price inflation continuing to run above the long-run average. The main drivers are rising input costs. Producer price indices have moved up at a clip in recent quarters, with sharp increases in prices for materials and fuels consumed by UK manufacturers. Demand- and supply-side factors make the probability of short-term price falls very slim. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2018, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction

price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Germ Cell Tumors Derek Raghavan, 2003 Crafted as a descriptive and visual text, Germ Cell Tumors features definitive reviews of the biology, diagnosis, and management of germ cell tumors. Incorporating extensive illustrations and tables, this book reviews the progress that has been made in the curative therapy of germ cell tumors over the past 25 years, progress that has led to the positioning of germ cell tumor therapy as the paradigm of curative treatment in adult solid tumors. Most of the work has been produced on a multi-disciplinary basis, emphasizing the use of different diagnostic, laboratory, imaging, and management tools. In addition to a scientific and clinical review, a series of detailed discussions on the psychosocial issues, patient support, and management of the occasional problem cases that do not result in cure are featured. Germ Cell Tumors has been carefully illustrated with new photographs that illustrate diagnostic approaches,

surgical techniques, and management complications. Extensive graphs and tables illustrate the results of treatment.
