H. Beam Piper John F. Carr,2014-01-28 H. Beam Piper is one of science fiction’s most enigmatic writers. In 1946 Piper appeared seemingly from out of nowhere, already at the top of his form. He published a number of memorable short stories in the premier science fiction magazine of the time, *Astounding Science Fiction*, under legendary editor John W. Campbell. Piper quickly became friends with many of the top writers of the day, including Lester Del Rey, Fletcher Pratt, Robert Heinlein and L. Sprague de Camp. Piper also successfully made the turn from promising short story writer to major novelist, authoring *Four-Day Planet*, *Cosmic Computer*, *Lord Kalvan of Otherwhen* and *Little Fuzzy*, which was nominated for a Hugo award. Even those who counted Piper among their friends knew very little about the man or his life as a railroad yard bull in Altoona, Pennsylvania. This biography illuminates H. Beam Piper, both the writer and the man, and answers lingering questions about his death. Appendices include a number of Piper’s personal papers, a complete bibliography of Piper’s works, and an essay on Piper’s Terro-Human Future History series.

Computers in Translation John Newton,1992 *Computers in Translation* is a comprehensive guide to the practical issues surrounding machine translation and computer-based translation tools. Translators, system designers, system operators, and researchers, present the facts about machine translation: its history, its successes, its limitations, and its potential. Three chapters deal with actual machine translation applications, discussing installations including the METEO system used in Canada to translate weather forecasts and weather reports, and the system used in the Foreign Technology Division of the U.S. Air Force. As a guide for non-specialists seeking to broaden theoretical knowledge of the practicalities of machine translation, it will be of particular interest to translators, technical authors, technical publications managers, and students and lecturers in language and linguistics. -- Publisher description.

The Peace of God Thomas Head,Richard Landes,2018-07-05 During the dissolution of the former Carolingian Empire, warfare and plunder went unchecked. An innovative response to this violence was the Church-led initiative known as the Peace of God, perhaps history's earliest mass peace movement. In the thirteen essays collected here, leading scholars consider key aspects of the movement and episodes in its history.

Immortality Inc. Robert Sheckley,2014-04-01 A man wakes up after a fatal car accident—in someone else’s body—in this ahead-of-its-time Hugo Award-nominated classic. Thomas Blaine remembered the car accident that killed him—and then he woke up in the hospital. A nurse told him where he was. “You’d call it being in the future.” A future where bodies are sold to the highest bidder as new homes for the minds of the rich, who are greedy for more life when their own bodies wear out or are damaged. Suddenly, keeping body and soul together has taken on a new, and very sinister, meaning. From the very beginning of his career, Robert Sheckley was recognized by fans, reviewers, and fellow authors as a master storyteller and the wittiest satirist working in the science fiction field. Open Road is proud to republish his acclaimed body of work, with nearly thirty volumes of full-length fiction and short story collections. Rediscover, or discover for the first time, a master of science fiction who, according to the New York Times, was “a precursor to Douglas Adams.”
