Equilibrium and Transfer in Porous Media 1 Jean-François Daïan,2014-04-16 A porous medium is composed of a solid matrix and its geometrical complement: the pore space. This pore space can be occupied by one or more fluids. The understanding of transport phenomena in porous media is a challenging intellectual task. This book provides a detailed analysis of the aspects required for the understanding of many experimental techniques in the field of porous media transport phenomena. It is aimed at students or engineers who may not be looking specifically to become theoreticians in porous media, but wish to integrate knowledge of porous media with their previous scientific culture, or who may have encountered them when dealing with a technological problem. While avoiding the details of the more mathematical and abstract developments of the theories of macroscopicization, the author gives as accurate and rigorous an idea as possible of the methods used to establish the major laws of macroscopic behavior in porous media. He also illustrates the constitutive laws and equations by demonstrating some of their classical applications. Priority is to put forward the constitutive laws in concrete circumstances without going into technical detail. This first volume in the three-volume series focuses on fluids in equilibrium in the pore space; interfaces, the equilibrium of solutions and freezing in porous media; and gives experimental investigations of capillary behavior and porometry, and sorption and porometry.

The Sign of the Dove MaryRose Occhino,2006-09-05 In Beyond These Four Walls, renowned Brooklyn-born psychic medium MaryRose Occhino told her remarkable life story—how her psychic ability first manifested itself, how she learned to recognize the signs and the visions from the other side, her moving experiences with her clients, and the inspiring story of her struggle with, and eventual victory over, multiple sclerosis. Now, in The Sign of the Dove, MaryRose goes even further in depth into her psychic encounters, and offers the reader all-new insights into deciphering the psychic signs and symbols present in their own lives. As MaryRose explains, we are all given messages; all we need to learn is how to recognize them, to discover who exactly it is who's guiding us, and better understand synchronicity and coincidence—and how to surrender ourselves to it. She also stresses the importance of listening to our dreams, revealing what we can do to learn invaluable lessons from them, and the best ways to make them come true—whether it's choosing the right life partner or the right job, or finding your own true purpose in life. Just read the signs. In this illuminating, inspiring, and powerful book, MaryRose Occhino will tell you how. “Mary Occhino . . . is extraordinary.”—Depak Chopra, author of How to Know God “[An] informative psychic autobiography . . . There's no denying the profound emotional impact [of psychic phenomena] on the author—and in her plain prose, the author does justice to that impact.”—Publishers Weekly

That Kid! Monica Furlong,2021-02-14 This book is based on components of a true story. As a wife, mom, educator, philanthropist, and advocate, she strives to empower and educate the world about mental health awareness, bullying, and understanding diverse families and children of varying backgrounds. Anyone can be, That Kid! which is why it is so important we teach our children the importance of accepting and understanding differences, spreading kindness, and getting to know others before judging. Monica wrote the book with the intention for parents, teachers, and community members so they can spread the hope and message about spreading kindness and understanding, That Kid! As she has been, That Kid! before it is important to understand and embrace differences throughout our world and get to know a person on the inside.
