**Cruising in Seraffyn** Lin Pardey, Larry Pardey, 2002-08 A fun and exciting guide to the world of living out at sea. This book will teach you what you need to know in order to live safely, economically and cheaply when spending months at sea. If nothing else, this book will send you chasing for your dreams, whether it be to take an adventure at sea or just about anything else. This is the first of a four-book series which begins on the journey that Lin and Larry Pardey began 34 years ago in their self-built 24-foot engineless cutter, Seraffyn. In this journey, we explore places such as Mexico, Central America, the Caribbean, and the Islands of the Atlantic ocean. Throughout the book, we learn about people and customs, we learn about the tricks of boating, we learn about survival. This 25th anniversary edition includes a new forward, new appendixes, and a color photo album showing Lin, Larry and the Seraffyn during those months at sea.

How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Alan Wang, 2020-11-13

This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more.

Sailing Made Easy American Sailing, 2010-01-01

Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called best in class upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user friendly spreads in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an

introduction and extensive background notes by the modern English historian Paul Harris.
