Executing Crisis Dr. Jo Robertson,2019-11-01 Business leaders would be better served by understanding key crisis concepts and applying them to their own situation rather than relying on crisis advisors to swoop in to take care of a problem once it has become a crisis. Loaded with Case Studies! How leaders deal with crisis can clarify character and strengthen reputation. On the other hand, the wrong words and actions from the C-Suite can worsen the crisis spiral. Crisis management does not begin on the day the fire erupts, the hurricane barrels through, or the accident happens. Dr. Jo Robertson, a leading expert in heading off and containing crisis, lays out the key concepts that business leaders need to apply to their own organizations so they don't have to rely on outside crisis advisors to swoop in and save the day.

The Cybernetic Hypothesis Tiqqun,2020-04-14 An early text from Tiqqun that views cybernetics as a fable of late capitalism, and offers tools for the resistance. The cybernetician's mission is to combat the general entropy that threatens living beings, machines, societies—that is, to create the experimental conditions for a continuous revitalization, to constantly restore the integrity of the whole. —from The Cybernetic Hypothesis This early Tiqqun text has lost none of its pertinence. The Cybernetic Hypothesis presents a genealogy of our “technical” present that doesn't point out the political and ethical dilemmas embedded in it as if they were puzzles to be solved, but rather unmasks an enemy force to be engaged and defeated. Cybernetics in this context is the *teknê* of threat reduction, which unfortunately has required the reduction of a disturbing humanity to packets of manageable information. Not so easily done. Not smooth. A matter of civil war, in fact. According to the authors, cybernetics is the latest master fable, welcomed at a certain crisis juncture in late capitalism. And now the interesting question is: Has the guest in the house become the master of the house? The “cybernetic hypothesis” is strategic. Readers of this little book are not likely to be naive. They may be already looking, at least in their heads, for a weapon, for a counter-strategy. Tiqqun here imagines an unbearable disturbance to a System that can take only so much: only so much desertion, only so much destituent gesture, only so much guerilla attack, only so much wickedness and joy.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Hunter Biden, Burisma, and Corruption Senate Committee on Homeland Security,United States. Congress. Senate. Committee on Finance,2020-09-23 Hunter Biden is just the tip of the iceberg when it comes to examining corruption within the Biden family during the time that Joe Biden was vice president. -Peter Schweitzer, Investigative Journalist on Fox News (January, 2020) The US Senate Committee on Homeland Security and the Senate Committee on Finance released their much-anticipated report Hunter Biden, Burisma, and Corruption: The Impact on US Government Policy and Related Concerns (September, 2020) about Hunter Biden's extensive dealings with Ukraine, Russia, and China while his father Joe Biden served as vice president of the United States. This Republican Majority Staff report provides a roadmap to the Bidens' connections to many questionable foreign individuals and shows how Hunter Biden, his family, and his business partner Devon Archer received millions of dollars from them. Joe Biden's campaign rejected this report for pushing a long-disproven hardcore right-wing conspiracy theory. Time will tell whether the findings of this report are partisan or will have actual political consequences.
