**The External Action of the European Union** Sieglinde Gstöhl, Simon Schunz, 2021-03-26 This groundbreaking new textbook offers extensive coverage of EU External Action studies, from its major concepts to the key theories in the field. Over the past decades, the European Union has progressively developed into a significant global actor in an increasing number of policy fields. This long-awaited volume looks into different ways of conceptualizing the EU as a global actor, the processes and impact of EU external action, explanations offered by IR and integration theories, the discursive, normative, practice and gender 'turns', and the 'decentring agenda' for EU external action. The book offers a reader-friendly guidance on these various ways in which to study the EU as a global actor: each chapter introduces one concept, approach or theory and illustrates its application by a case study of EU external action. In drawing the different perspectives together, the book underscores that 'EU External Action Studies' is becoming an academic speciality in its own right. Written by leading experts, the volume will make essential reading for students, scholars and practitioners of EU external action. EU External Action Studies nowadays attract attention from scholars and students in International Relations (IR), Foreign Policy Analysis and (interdisciplinary) EU Studies, as well as from practitioners.

Lights! Camera! Action! Gregory G. Sarno,2005 Action, action, yet more action. No action film worthy of genre would be caught dead without its fair share of red-hot lead and no-holds-barred fisticuffs, high-octane pursuits and gravity-defying gymnastics. Then again, nonstop action soon wears thin absent a rooting interest in Last Man Standing First Woman to Cross Finish Line. Rooting interest inheres not in overt action, no matter how artfully choreographed or breathtakingly executed. Rather, rooting interest comes from empathy for the protagonist and, more precisely, from the dramatic action embodied by the protagonist's struggle to accomplish a worthy goal opposed by a formidable foe. Action is a double-edged blade, overt action being a necessary but insufficient condition to sustain viewer interest, which soars and ebbs to extent that dramatic action intersects with-injects meaningfulness into-gunplay and fistfest, acrobatics and pyrotechnics. Lights! Camera! Action! spotlights the essential elements of action comedy, action romance, and action adventure. It underscores the crucial distinction between overt and dramatic action, which a screenwriter must weave together in order for an action script to hum and shimmer, pulsate and zing.
