University-Industry Knowledge Interactions Joaquín M. Azagra-Caro,Pablo D'Este,David Barberá-Tomás,2022-02-22 University-industry interaction combines several layers of actors, states and effects. People make choices, based on their individual characteristics, at different stages of a scientific career, in a highly internationalised profession. Tensions arise when university administrators and managers need to strike a balance among different promotion instruments, or when the university or public research organisation tries to solve the trade-offs between long- and short-term relationships, or among new management practices. Impacts are related to scientific agendas, the economic returns for firms or the societal benefits. This book adopts a people-tension-impact approach to identify key insights, by combining qualitative and quantitative research, established and novel methodologies, and different geographic settings. The chapters in this volume provide new perspectives on university-industry interactions related to gender biases, entrepreneurial involvement of PhD students and the role of international mobility. They also focus on how the positive impacts of university-industry interactions coexist with unresolved tensions linked to policy combinations, long-term contractual relationships, management practices and organisational strategies. Chapters 4 and 6 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Islamic Fintech Sara Sánchez Fernández,2021-03-29 The implementation of new technologies is expected to boost the development of Islamic Finance by increasing accessibility to banking and other financial services in Islamic communities and democratizing access to investment opportunities. At the same time, new technologies will increase financing opportunities and facilitate asset management for Sharia-compliant businesses. This collection of essays from selected experts in the field comprise some of the most topical issues on Islamic Fintech, combining a business focus with legal insights. The book takes as a point of departure the role that Islamic Fintech can play in promoting sustainability. The social vision of welfare improvement and justice is already embedded in Sharia's economic rules, which makes Islamic Finance particularly well suited to bridge the gap between sustainability and funding. Although it is not without challenges for the industry, technology will help unleash its potential. With a holistic approach to Islamic Fintech, the contributing authors address the application of new technologies to Islamic Finance, including robo-advisory, crowdfunding and digital ledger technology (both in the issuance of bitcoin and the registration of securities in tokenized form) and in certain sectors such as takaful (takaful-tech) and health (e-health). Finally, they explore the challenges posed by anti-money laundering ('AML') in the specific realm of Islamic Fintech. The book combines theoretical analysis with a practical focus, both through case studies and directly through the experiences of leading entrepreneurs. In addition, it provides insights on legal and regulatory aspects, which are key in a field that is still in its infancy and needs support from lawmakers and regulators. It is, thus, a reference for academics, legal practitioners, policymakers, entrepreneurs and the Islamic Finance community.

Korea's Changing Roles in Southeast Asia David I Steinberg,2010 The Republic of Korea's global expansion has been mirrored by its interest and presence in Southeast Asia. From trade, investment, aid, tourism, to the cultural Korean wave, its various roles have blossomed and its influence has grown. The ASEAN region has not only affected Korean foreign policy, but also many aspects of Korean life, from the migration of Southeast Asian industrial workers to marriages and the curricula of academic institutions. This volume explores various aspects of these new relationships and their importance to all concerned parties. It brings together a group of specialists who have documented the growing interlocking roles between Korea and ASEAN and its constituent states in detail. These developments have profound implications for relations in the East and Southeast Asian regions, and for the world as a whole.

The Routledge Handbook of Soft Power Naren Chitty,Li Ji,Gary D. Rawnsley,Craig Hayden,2016-11-03 The Routledge Handbook of Soft Power is the first volume to offer a comprehensive and detailed picture of soft power and associated forms of public diplomacy. The terms soft power and public diplomacy have enormous currency in media and policy discourse, yet despite all the attention the terms remain conceptually ambiguous for analysts of international influence. The consequence is that the terms have survived as powerful, yet criticized, frames for influence. Divided into two main parts, Part I outlines theoretical problems, methodological questions, the cultural imperative and the technological turn within the study of soft power and Part II focuses on bringing the theory into practice through detailed discussion of key case studies from across the Americas, Europe, the Middle East, Africa and Asia. This innovative handbook provides a definitive resource for students and scholars seeking to familiarize themselves with cutting-edge debates and future research on soft power and will be of interest to those studying and researching in areas such as international relations, public diplomacy and international communication.

Artisan Entrepreneurship Vanessa Ratten,Paul Jones,Vitor Braga,Eduardo Parra-López,2022-01-26 Artisan Entrepreneurship analyses handicraft enterprise using different approaches at an individual, group and societal point of view, providing a better understanding about how these workers contribute to societal wellbeing and aid cultural heritage preservation for future generations.

Under a Green Sky Peter D. Ward,2009-10-13 By looking backward at the course of great extinctions, a paleontologist sees what the future holds. More than 200 million years ago, a cataclysmic event known as the Permian extinction destroyed more than 90 percent of all species and nearly 97 percent of all living things. Its origins have long been a puzzle for paleontologists. During the 1990s and the early part of this century, a great battle was fought between those who thought that death had come from above and those who thought something more complicated was at work. Paleontologist Peter. D. Ward, fresh from helping prove that an asteroid had killed the dinosaurs, turned to the Permian problem, and he has come to a stunning conclusion. In his investigations of the fates of several groups of mollusks during that extinction and others, he discovered that the near-total devastation at the end of the Permian period was caused by rising levels of carbon dioxide leading to climate change. But it's not the heat (nor the humidity) that's directly responsible for the extinctions, and the story of the discovery of what is responsible makes for a fascinating, globe-spanning adventure. In Under a Green Sky, Ward explains how the Permian extinction as well as four others happened, and describes the freakish oceans—belching poisonous gas—and sky—slightly green and always hazy—that would have attended them. Those ancient upheavals demonstrate that the threat of climate change cannot be ignored, lest the world's life today—ourselves included—face the same dire fate that has overwhelmed our planet several times before.

Methane Hydrates in Quaternary Climate Change James P. Kennett,2003-01-10 Recent discoveries from ice-core and marine sediments suggest that global climate systems can change from glacial to near-interglacial temperatures within decades. In order to explain this phenomenon, the authors (all affiliated with the Department of Geological Sciences, U. of California) advance a hypothesis that suggests that the massive energy needed for these changes came for the release of frozen methane hydrates (clathrates) stored in marine sediments on continental margins. They argue that the release of the methane caused feedback processes that would explain the surprisingly rapid changes. Annotation copyrighted by Book News, Inc., Portland, OR.

This Light of Ours Leslie G. Kelen,2023-08-16 This Light of Ours: Activist Photographers of the Civil Rights Movement is a paradigm-shifting publication that presents the Civil Rights Movement through the work of

nine photographers who participated in the movement as activists with SNCC, SCLC, and CORE. Unlike images produced by photojournalists, who covered breaking news events, these photographers lived within the movement—primarily within the Student Nonviolent Coordinating Committee (SNCC) framework—and documented its activities by focusing on the student activists and local people who together made it happen. The core of the book is a selection of 150 black-and-white photographs, representing the work of photographers Bob Adelman, George Ballis, Bob Fitch, Bob Fletcher, Matt Herron, David Prince, Herbert Randall, Maria Varela, and Tamio Wakayama. Images are grouped around four movement themes and convey SNCC's organizing strategies, resolve in the face of violence, impact on local and national politics, and influence on the nation's consciousness. The photographs and texts of This Light of Ours remind us that the movement was a battleground, that the battle was successfully fought by thousands of “ordinary” Americans among whom were the nation's courageous youth, and that the movement's moral vision and impact continue to shape our lives.

Doing Business in Bulgaria Touche Ross & Co,Sinclair Roche & Temperley,British Gas (Firm),1993 Case Studies - actual profiles by businesses which have set up in, or done business with, Bulgaria, covering export, distributorships, joint ventures, and direct investment. The book concludes with three valuable appendices. The first provides an in-depth coverage of the opportunities by sector in Bulgaria. The second covers grant aid available and the third includes a full bibliography and sources of further information. Impressive in its scope, the book offers both a panorama and a minute cross-section of the issues, whether obstacle or opportunity, that every business must address. Written by highly qualified experts, yet in a style which is succinct, jargon-free and accessible to the non-expert, Doing Business in Bulgaria is an invaluable, all-round reference for any businessperson keen to maximise the potential of the emergent market.--BOOK JACKET.
