**Crime Seen** Kate Lines,2016-02-02 A criminal profiler, trained at Quantico, former Chief Superintendent of the Ontario Provincial Police (OPP) Kate Lines recounts her remarkable story using pivotal cases she worked on in the course of her career. How does a farm girl from Ennismore enter a male-dominated field and become a top criminal profiler and groundbreaking leader? For Kate Lines, it started humbly, patrolling highways. She learned quickly that the best way to thrive was to keep calm, carry on and never lose her sense of humour. In what would be the first of many dramatic turns in her career, Kate traded in her uniform for a tight miniskirt and a leather jacket, becoming one of the OPP's first female undercover officers. In 1990 came the opportunity of a lifetime: to be chosen as the 2nd-ever Canadian in an elite program at Quantico, Virginia in what was then the emerging field of criminal profiling. After 10 months of an intensive education in the intricacies of violent crime, Kate's new skills made her much in demand back home. Over the years she was involved in a number of high-profile cases, such as the abduction and murder of Kristen French and of Tori Stafford and the disappearance of Michael Dunahee. Kate was an early proponent of ViCLAS--the Violent Crime Linkage Analysis System, and when she took charge of the new and massive Behavioural Sciences division in Orillia, she took over ViCLAS and turned the department into a hub of innovation. Kate was awarded a Governor General's medal for being in the top 1/10th of 1% of the members of police forces that year. The following year the Canadian Police Leadership Foundation named her Police Leader of the Year. Always taking care not to aggrandize in any way the criminals whose names we may know all too well, Kate feels it's much more important to focus on the courage of victims and their families. Kate is an unsung, groundbreaking Canadian woman, one of a kind in this country, with a unique, inspiring and fascinating story to share.

**Manhunt** Peter L. Bergen,2012-05-01 From the author of the New York Times bestselling Holy War, Inc., this is the definitive account of the decade-long manhunt for the world's most wanted man, Osama bin Laden. Al Qaeda expert and CNN national security analyst Peter Bergen paints a multidimensional picture of the hunt for Osama bin Laden over the past decade, including the operation that killed him. Other key elements of the book will include: - A careful account of Obama's decision-making process as the raid was planned - The fascinating story of a group of women CIA analysts who never gave up assembling the tiniest clues about bin Laden's whereabouts - The untold and action-packed history of the Joint Special Operations Command (JSOC) and the SEALs - An analysis of what the death of bin Laden means for Al Qaeda and for Obama's legacy Just as Hugh Trevor-Roper's The Last Days of Hitler was the definitive account of the death of the Nazi dictator, Manhunt is the authoritative, immersive account of the death of the man who organized the largest mass murder in American history.

**Scooter** Mick Foley,2007-12-18 Scooter Riley-named after Yankee shortstop Phil Rizzuto-is just a regular kid growing up in the Bronx, right near Yankee Stadium, in 1969. His father, Patrick Riley, is a New York City cop. His grandfather, a fireman for thirty years, is a man who firmly believes that all of life's great lessons are explained in baseball lore. In the wake of the assassinations of Dr. King and Bobby Kennedy, as the neighborhood changes around him, Scooter is forced to see that life, like baseball, is a game in which a few extraordinary moments--moments of either courage or cowardice--will define the man he becomes.

**History Teaches Us to Resist** Mary Frances Berry,2018-03-13 Historian and civil rights activist proves how progressive movements can flourish even in conservative times. Despair and mourning after the election of an antagonistic or polarizing president, such as Donald Trump, is part of the push-pull of American politics. But in this incisive book, historian Mary Frances Berry shows that resistance to presidential administrations has led to positive change and the defeat of outrageous proposals, even in challenging times. Noting that all presidents, including ones considered progressive, sometimes require massive organization to affect policy decisions, Berry cites Indigenous peoples' protests against the Dakota pipeline during Barack Obama's administration as a modern example of successful resistance built on earlier actions. Beginning with Franklin D. Roosevelt, Berry discusses that president's refusal to prevent race discrimination in the defense industry during World War II and the subsequent March on Washington movement. She analyzes Lyndon Johnson, the war in Vietnam, and the antiwar movement and then examines Ronald Reagan's two terms, which offer stories of opposition to reactionary policies, such as ignoring the AIDS crisis and retreating on racial progress, to show how resistance can succeed. The prochoice protests during the George H. W. Bush administration and the opposition to Bill Clinton's "Don't Ask, Don't Tell" policy, as well as his budget cuts and welfare reform, are also discussed, as are protests against the war in Iraq and the Patriot Act during George W. Bush's presidency. Throughout these varied examples, Berry underscores that even when resistance doesn't achieve all the goals of a particular movement, it often plants a seed that comes to fruition later. Berry also shares experiences from her six decades as an activist in various movements, including protesting the Vietnam War and advocating for the Free South Africa and civil rights movements, which provides an additional layer of insight from someone who was there. And as a result of having served in five presidential administrations, Berry brings an insider's knowledge of government. History Teaches Us to Resist is an essential book for our times which attests to the power of resistance. It proves to us through myriad historical examples that protest is an essential ingredient of politics, and that progressive movements can and will flourish, even in perilous times.

**Power, Politics, and Culture** Edward Said,2014-07-08 No single book has encompassed the vast scope of Edward Said's erudition quite like Power, Politics and Culture - a collection of his interviews from the last three decades. In these twenty-nine interviews, Said addresses everything from Palestine to Pavarotti, from his nomadic upbringing under colonial rule to his politically active and often controversial life in America, and reflects on Austen, Beckett, Conrad, Naipaul, Mahfouz and Rushdie as well as fellow critics Bloom, Derrida and Foucault. Said speaks here with his usual candour, acuity and eloquence - confirming that he was in his lifetime among the truly most important intellectuals of our century.

**Who's Looking Out for You?** Bill O'Reilly,2003 Makes charges about how politicians, the clergy, and families are failing to protect those in their care, presenting strong statements about personal responsibility and self-reliance in today's uncertain world.

*What Black People Should Do Now* Ralph Wiley,1993 Ralph Wiley continues to do what few other writers are doing today. His insights, humor, brashness and intelligence are a welcome read. Spike Lee Ralph Wiley is a troublemaker. His controversial debut as a critic of popular American culture, WHY BLACK PEOPLE TEND TO SHOUT, received wide acclaim. With WHAT BLACK PEOPLE SHOULD DO NOW, Ralph Wiley dons the mantle of Frederick Douglass, Richard Wright, and James Baldwin, in a voice that fuses oral history with the Mississippi Delta traditions of Mark Twain and Peter Taylor. In twenty-two explosive essays, he takes an unblinking and ironic look at African-American life, and fulfills the role of artist as agitator. For Wiley, good intentions are not enough. He writes to stimulate the synapses in the brain, and he delivers food for thought that leaves the mouth burning.
