The Checklist Manifesto Atul Gawande,2010-04-01 The New York Times bestselling author of *Being Mortal* and *Complications* reveals the surprising power of the ordinary checklist We live in a world of great and increasing complexity, where even the most expert professionals struggle to master the tasks they face. Longer training, ever more advanced technologies—neither seems to prevent grievous errors. But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, *The Checklist Manifesto* is essential reading for anyone working to get things right.

Evaluation of the Department of Veterans Affairs Mental Health Services National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Care Services,Committee to Evaluate the Department of Veterans Affairs Mental Health Services,2018-03-29 Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health

conditions as posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health-related outcomes—in particular, suicide—at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.

The Deep Blue Good-by John D. MacDonald, 2013-01-08 From a beloved master of crime fiction, *The Deep Blue Good-by* is one of many classic novels featuring Travis McGee, the hard-boiled detective who lives on a houseboat. Travis McGee is a self-described beach bum who won his houseboat in a card game. He's also a knight-errant who's wary of credit cards, retirement benefits, political parties, mortgages, and television. He only works when his cash runs out, and his rule is simple: He'll help you find whatever was taken from you, as long as he can keep half. "John D. MacDonald was the great entertainer of our age, and a mesmerizing storyteller."—Stephen King McGee isn't particularly strapped for cash, but how can anyone say no to Cathy, a sweet backwoods girl who's been tortured repeatedly by her manipulative ex-boyfriend Junior Allen? What Travis isn't anticipating is just how many women Junior has torn apart and left in his wake. Enter Junior's latest victim, Lois Atkinson. Frail and broken, Lois can barely get out of bed when Travis finds her, let alone keep herself alive. But Travis turns into Mother McGee, giving Lois new life as he looks for the ruthless man who steals women's spirits and livelihoods. But he can't guess how violent his quest is soon to become. He'll learn the hard way that there must be casualties in this game of cat and mouse. Features a new Introduction by Lee Child

Dictionary of Abbreviations in Medical Sciences Rolf Heister, 2012-12-06 Not everyone is a friend of the manifold abbreviations that have by now become a part of the scientific language of medicine. In order to avoid misunderstanding these abbreviations, it is wise to refer to a reliable dictionary, such as this one prepared by Heister. The abbreviation ED means, for instance, effective dose to the pharmacologist. However, it might also stand for emetic dose. Radiologists use the same abbreviation for erythema dose, and ED could also mean ethyl dichlorarsine. A common meaning of ECU is European currency unit, a meaning that might not be very often in scientific medical publications. ECU, however, also means environmental control unit or European Chiropractic Union. Hopefully, those making inventions and discoveries will make use of Heister's dictionary before creating new abbreviations when preparing manuscripts for scientific publications. It is a very worthwhile goal not to use the same abbreviation for several different terms, especially if it is already widely accepted to mean only one of them. It may be impossible, however, to achieve this goal in different scientific disciplines. Therefore, although it is wise for the abbreviations used in a publication to be defined, it is also very helpful for readers and writers to use a dictionary such as this one. The author deserves our warmest thanks since we know that compiling such a comprehensive dictionary is based upon incredibly hard effort.

Extreme Prayer Greg Prueett, 2014-03-01 What do you do when your whole spiritual life falls apart? It is in these heart-hungry moments—when we feel overwhelmed or alone, struggle with unanswered prayers, aren't sure what to do, or are crying out for God's help—that we are surprisingly poised to pray the most effective kinds of prayers possible. *Extreme Prayer* taps into that longing for connection with God when we need it most by teaching us to pray the kinds of prayers Jesus promised to answer with unlimited power. It's not about how to pray more . . . it's about praying differently, and intentionally tapping into all of Jesus's open-ended promises in a way that achieves maximum Kingdom impact. In *Extreme Prayer*, Greg Prueett searches the Scriptures to discover the kinds of prayers that God has promised to answer, challenging you to access their

power and see His immeasurable glory unleashed in your prayer life.

Modern Coordination Chemistry Neil Winterton,Jeff Leigh,2007-10-31 Coordination chemistry, as we know it today, has been shaped by major figures from the past, one of whom was

Joseph Chatt. Beginning with a description of Chatt's career presented by co-workers, contemporaries and students, this fascinating book then goes on to show how many of today's leading practitioners in the field, working in such diverse areas as phosphines, hydrogen complexes, transition metal complexes and nitrogen fixation, have been influenced by Chatt. The reader is then brought right up-to-date with the inclusion of some of the latest research on these topics, all of which serves to underline Chatt's continuing legacy. Intended as a permanent record of Chatt's life, work and influence, this book will be of interest to lecturers, graduate students, researchers and science historians.

You are Being Lied to Russell Kick, 2001 This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.
