Google AdSense Profits Julius Kelson,1901 For the last couple of years, Google AdSense has dominated forums, discussions and newsletters all over the Internet. Already, there are tales of fabulous riches to be made and millions made by those who are just working from home. It seems that Google AdSense have already dominated the internet marketing business and is now considered the easiest way to making money online. The key to success with AdSense is the placing of ads on pages that are receiving high traffic for high demand keywords. The higher the cost-per-click to the advertiser, the more you will receive per click from your site. Obviously, it does not pay to target low cost-per-click keywords and place them on pages that do not receive hits. With all the people getting online and clicking away every day, it is no wonder why Google AdSense has become an instant hit. For some who are just new to this market, it would be a blow to their pride knowing that their homepage is buried somewhere in the little ads promoting other people's services. But then, when they get the idea that they are actually earning more money that way, all doubts and skepticism is laid to rest. There are two major, and clever, factors that some successful webmaster and publishers are learning to blend together in order to make money easier using AdSense. 1. Targeting high traffic pages on your website. If you check on your logs, you will discover that many of your visitors are taking advantage of the free affiliate marketing resources and ebooks that you are offering on your site. In simple words, your ads are working effectively and are generating more clicks. It also means more money for you.2. Placing AdSense links on pages that are

producing little, or better yet, no profit. By placing AdSense on a free resources page, you will reduce the amount of potential customers being lost to other sites. Tricky, but effective nonetheless. When learned to work effectively, these two factors are actually a good source of producing a minimal amount of revenue from a high traffic page. Many people are using this strategy to pick up some extra and cash with AdSense. This is also especially rewarding to informational sites that focus their efforts on delivering powerful affiliate link free content to their visitors. Now they can gain a monetary return on their services. With the many techniques that people are now learning on how to make the easiest money by their AdSense, it is not surprising that Google is trying everything to update and polish their AdSense in order to maintain their good image. The possibility of adding a 2nd tier in AdSense is not impossible. With all the people spending more time in their AdSense now and still more getting into this line of marketing, there is no doubt about the many new improvements yet to be made. Imagine the smiles on the faces of the webmasters and publishers all around the world if ever they sign up for sub-affiliates and double or even triple the amount that they are already earning. The one particularly handy money-making feature that is available with AdSense now is the ability to filter out up to 200 urls. These gives webmasters the option to block out low value offers from their pages as well as competitors to their websites. Talk about taking only those that are advantageous and discarding the ones that seem "useless". With Google AdSense, the possibilities are limitless. Yet there is also the possibility of someone taking advantage of the easy money process that this internet marketing is doing. If you think more about it, these negative factors may force Google to break down and thrash AdSense in the process. If that happens, people would have to go back to the old ways of internet marketing that does not make money online as easy as AdSense. For now, however, Google AdSense is here to stay. As long as there are people wanting to earn some easy cash online just using their talents, the future ahead is looking good. Besides with all the strict guidelines that Google is enforcing over AdSense, it will take awhile for the AdSense privileges to be spammed and even terminated.

More interesting about this method is that AdSense is only a part of the income usually less than 30% of the total revenue generated from the website. What you will learn in this book: How to make a steady income online How to make money using a third party AdSense account How to force influencers into driving traffic to your website How to advertise your products and services in third-party social media handles. This method is like investing in Johnson & Johnson or Coca-Cola shares, they grow slow and steady every year while you keep enjoying the dividends. But if you spend most of your time reading these things and taking no action, you are just wasting your time. The grave mistake newcomers make is thinking there's some magic bullet or formula that will not require you to put in the hard work. This is a big factor in why so many ends up failing. Making money online starts with you. What you get depends on how creative you are in twisting a method and how well you understand what you are actually doing for each step. Who needs this book? Google AdSense Quick Guide Michael R. Miller, 2012-03-12 With the new version of

AdSense, Google has changed virtually everything about the interface and added some new features. The navigation structure has been completely overhauled, as have the available types of ads. Google has reorganized the former AdSense Channels into five basic types of ads: Content, Domains, Feeds, Mobile Content, and Search. In addition, Google has tied in-game and YouTube advertising into AdSense, to make it easier to place ads in online games and YouTube videos. Google also has made it easier and more prominent to enable ad blocking — that is, to keep certain types of ads or ads from certain advertisers from appearing on your website. Google has also beefed up its AdSense reporting system, increasing the types of reports available and adding a new Overview page that displays key information in a single snapshot. While the new interface is a step forward for managing an AdSense account, existing AdSense users may find it strange and confusing—and have trouble finding out how to do what they're used to doing. That's where this Quick Guide comes in. Get up to speed quickly and easily. Then get back to making money.
