The Greek World 479-323 BC Simon Hornblower, 2011-03-17
The Greek World 479-323 BC has been an indispensable guide to classical Greek history since its first publication nearly thirty years ago. Now Simon Hornblower has comprehensively revised and partly rewritten his original text, bringing it up-to-date for yet another generation of readers. In particular, this fourth edition takes full account of recent and detailed scholarship on Greek poleis across the Hellenic world, allowing for further development of the key theme of regional variety across the Mediterranean and beyond. Other extensive changes include a new sub-chapter on Islands, a completely updated bibliography, and revised citation of epigraphic material relating to the fourth-century BC. With valuable coverage of the broader Mediterranean world in which Greek culture flourished, as well as close examination of Athens, Sparta, and the other great city-states of Greece itself, this fourth edition of a classic work is a more essential read than ever before.

Dial 323 Love C. M. Arnold,2018-03-23 AJ Brooks is a young man in Memphis, Tennessee, waiting tables and attending college with the hopes of one day breaking into the entertainment industry as a screenwriter. However, when a woman dangling his dreams in front of him lures him to Los Angeles, he is quickly reeled into a new career role, and his once modest life is changed forever.

323 Days John Harris,2019-09-27 Albert Harris was a hometown hero in the small east Texas town of Greenville. He was captain and quarterback of the high school football team and married Mary Alice Norwood, the pretty daughter of the local county judge, in 1945. Trained as an artillery officer in the Marines, Lieutenant Harris joined the reserves shortly after his marriage. When the Korean War broke out in the summer of 1950, Lieutenant Harris knew he would be leaving his wife and one-year-old son for the hills of North Korea. There was no more practice -- it was going to be the real thing. In 323 Days, we travel back in time to 1951-1952 and the early stages of the Cold War. The United States was battling international communism and there was the ever-present danger of World War III. The Marine Corps had already suffered significant losses in the first year of the Korean War and Lieutenant Harris knew his tour of duty would not be easy. During the war, Albert Harris wrote over 50 letters to Mary Alice detailing a wide variety of subjects, most direct from the battlefield. The letters are packed with information and reveal both a love story and a brutal war story. They are an important and unique viewing window to a critical segment of the Korean War and are published here for the first time.

After Alexander Victor Alonso Troncoso, Edward M.

Anson, 2013-03-08 When Alexander the Great died in 323 BC without a chosen successor he left behind a huge empire and ushered in a turbulent period, as his generals fought for control of vast territories. The time of the Successors (Diadochi) is usually defined as beginning in 323 BC and ending with the deaths of the last two Successors in 281 BC. This is a major publication devoted to the Successors and contains eighteen papers reflecting current research. Several papers attempt to unravel the source history of the very limited remaining narrative accounts, and add additional materials through cuneiform and Byzantine texts. Specific historical issues addressed include the role of so-called royal flatterers and whether or not Alexander's old guard did continue to serve into their sixties and seventies. Three papers reflect the recent conscious effort by many to break away from the Hellenocentric view of the predominantly Greek sources, by examining the role of the conquered, specifically the prominent roles played by Iranians in the administration and military of Alexander and his Successors, pockets of Iranian resistance which

eventually blossomed into Hellenistic kingdoms ruled by sovereigns proclaiming their direct connection to an Iranian past and a continuation of Iranian influence through an examination of the roles played by certain of the Diadochis Iranian wives. The papers in the final section analyse the use of varying forms of propaganda. These include the use of the concept of Freedom of the Greeks as a means of manipulating opinion in the Greek world; how Ptolemy used a snake cult associated with the foundation of Alexandria in Egypt to link his kingship with that of Alexander; and the employment of elephant images to advertise the authority of particular rulers.
