Voices in Ruins A. Badenoch,2008-07-24 Immediately after the Second World War, the radio was the best-preserved medium of mass communication in Germany. This book explores the implications of this dominance by asking how everyday broadcasting constructed ideas of 'normal' times, people and places in the destroyed, divided and occupied zones of what would become the Federal Republic.

The EHRA Book of Pacemaker, ICD, and CRT Troubleshooting Harran Burri,Carsten Israel,Jean-Claude Deharo,2015-03-29 An essential companion for both the aspiring and practising electrophysiologist,The EHRA Book of Pacemaker, ICD and CRT Troubleshooting assists device specialists in tackling both common and unusual situations that they may encounter during daily practice. Taking a case-based approach, it examines pacemakers, implantable cardioverter defibrillators and cardiac resynchronisation therapy. Much more than just a technical manual of device algorithms, the cases help readers to consolidate their technical knowledge, and improve their reasoning and observation skills so they are able to tackle device troubleshooting with confidence. The 70 cases are arranged in three sections by increasing levels of difficulty to walk readers through all the skills and knowledge they need in an easy to use and structured format. Each case contains a short clinical description and a device tracing followed by a multiple choice question. Answers are supplied with detailed annotations of the tracing and an in-depth discussion of the case, highlighting practical hints and tips as well as providing an overview of the technical function of devices. A useful summary of principal device features and functions is also included. The EHRA Book of Pacemaker, ICD and CRT Troubleshooting is the perfect companion for electrophysiologists, cardiology trainees and technical consultants working with device patients as well as for those studying for the EHRA accreditation exam in cardiac pacing.

Mass Media, Culture and Society in Twentieth-Century Germany K. Führer,C. Ross,2006-09-22 This is the first study of mass media in Germany from a social and cultural-historical perspective. Beyond the conventional focus on organizational structures or aesthetic content, it investigates the impact the media has on German society under varying political systems, and how the media is shaped by wider social, political and cultural context.

Human Development in an Unequal World K. Seeta Prabhu,Sandhya S. Iyer,2019-01-04 Human Development in an Unequal World deals with the twenty-first-century challenges of unstable economic growth and sustainability and the re-emergence of deprivations and inequalities in multiple realms. It argues that the broader perspective of human development is most suited in reorienting development towards a more equitable, sustainable, and empowering world. The authors discuss the concept and philosophy of the capabilities and human development approach, its measurement, the links between economic growth and human development, and the role of social sector policy, gender equality, and securing sustainability. In doing so, they analyse frameworks, processes, institutions, and actors, and weave together concepts, methods, and evidence from numerous developing countries. The chapters offer an integrated understanding of the importance of capabilities, freedoms, and human flourishing in

the process of development. This volume calls for an approach that focuses on the humanness of development and brings people back to the centre stage—a phenomenon that has receded to the background in the neoliberal era.

The State of World Fisheries and Aquaculture 2004 Food and Agriculture Organization of the United Nations, 2004 This biennial report sets out a comprehensive review of world fisheries and aquaculture, as well as examining selected policy issues including capture-based aquaculture, labour standards, fisheries management and CITES, trade issues, depleted stocks recovery, deep-water fisheries, production forecasts to 2030, fisheries subsidies, and fishing capacity. Findings include that developments in world fisheries and aquaculture during recent years have continued to follow the trends that were already becoming apparent at the end of the 1990s, with capture fisheries production stagnating, aquaculture output expanding and growing concerns with regard to safeguarding the livelihoods of fishers and the sustainability of both commercial catches and the aquatic ecosystem from which they are extracted.

ZOHRA! A BIOGRAPHY IN FOUR ACTS Ritu Menon, 2021-07 Description Zohra Segal (1912-2014) spanned an Indian century of the arts and became the only woman to make a mark in all the performing arts, with the exception of music, within the country and abroad. This elegant biography traces her remarkable journey. Born into a family with connections to the nawabs of Rampur, Zohra Mumtazullah Khan chose adventure over tradition when she was eighteen, travelling to Germany to learn modern dance. For the rest of her life, she continued to defy convention and was associated with transformative initiatives in the arts. In 1935, she was recruited by the bohemian genius Uday Shankar and toured the world with his dance troupe, until he disbanded it. In 1943, she set up a unique dance school in Lahore with her husband Kameshwar Segal, eight years her junior. In Bombay two years later, she joined Prithvi Theatres, founded by the legendary Prithviraj Kapoor. For the next fourteen years she travelled across India, taking socially relevant plays directly to the people-through the turbulence of Partition and the heady idealism following Independence, and the tragedy of Kameshwar's suicide. In 1962, Zohra went to London on a drama scholarship and stayed on for twenty-five years, becoming part of a tiny band of Asian artistes who would change the complexion of British theatre. From here to her participation in pioneering TV series and films like Doctor Who, Jewel in the Crown and Bhaji on the Beach was a natural progression. Back in India, she was surprised to find Bollywood at her door when she was well past eighty. Playing the unconventional grandmother-by turns charming and crusty-she became a household name. In this biography of the unlikely star, Ritu Menon helps us understand both the performer and the person, and the times she lived in.

Advances in CAD/CAM/CAE Technologies Panagiotis Kyratsis, Konstantinos G. Kakoulis, Angelos P. Markopoulos, 2020-05-27 CAD/CAM/CAE technologies find more and more applications in today's industries, e.g., in the automotive, aerospace, and naval sectors. These technologies increase the productivity of engineers and researchers to a great extent, while at the same time allowing their research activities to achieve higher levels of performance. A number of difficult-to-perform design and manufacturing processes can be simulated using more methodologies available, i.e., experimental work combined with statistical tools (regression analysis, analysis of variance, Taguchi methodology, deep learning), finite element analysis applied early enough at the design cycle, CAD-based tools for design optimizations, CAM-based tools for machining optimizations.

New Catholic Encyclopedia: Baa-Cam Catholic University of America, 2003 This 15 volume, second edition features revised and new articles. Among the 12,000 entries in the encyclopedia are articles on theology, philosophy, history, literary figures, saints, musicians and much more.

Perspective Made Easy Ernest R. Norling, 2012-05-23 Perspective is easy; yet, surprisingly few artists know the simple rules that make it so. Remedy that situation with this simple, step-by-step book, the first devoted entirely to the topic. 256 illustrations.

The English Reformation Revised Christopher Haigh, 1987-05-29 Twenty years ago, historians thought they understood the Reformation in England. Professor A. G. Dickens's elegant *The English Reformation* was then new, and highly influential: it seemed to show how national policy and developing reformist allegiance interacted to produce an acceptable and successful Protestant Reformation. But, since then, the evidence of the statute book, of Protestant propagandists and of heresy trials has come to seem less convincing, Neglected documents, especially the records of diocesan administration and parish life, have been explored, new questions have been asked - and many of the answers have been surprising. Some of the old certainties have been demolished, and many of the assumptions of the old interpretation of the Reformation have been undermined, in a wide-ranging process of revision. But the fruits of the new 'revisionism' are still buried in technical academic journals, difficult for students and teachers to find and to use. There is no up-to-date textbook, no comprehensive new survey, to challenge the orthodoxies enshrined in older works. This volume seeks to fulfill two crucial needs for students of Tudor England. First, it brings together some of the most readable of the recent innovative essays and articles into a single book. Second, it seeks to show how a new 'revisionist' interpretation of the English Reformation can be constructed, and examines its strengths and weaknesses. In short, it is an alternative to a new textbook survey - until someone has time (and courage) to write one. The new Introduction sets out the framework for a new understanding of the Reformation, and shows how already published work can be fitted into it. The nine essays (one printed here for the first time) provide detailed studies of particular problems in Reformation history, and general surveys of the progress of religious change. The new Conclusion tries to plug some of the remaining gaps, and suggests how the Reformation came to divide the English nation. It is a deliberately controversial collection, to be used alongside existing textbooks and to promote rethinking and debate.

The Skillful Huntsman Khang Le, Mike Yamada, Felix Yoon, Scott Robertson, 2005 Documents the creative process of concept design by 3 students from the Art Center College of Design under the guidance of their instructor, Scott Robinson. The concept design includes a host of intriguing places and people, inspired by the Brothers Grimm's tale *The skillfull huntsman*. Discussion of ideas and techniques used to create this stunning collection of artwork between Robertson and his students reveal insights on the behind-the-scenes action of concept design.
