Most of the the information in this book is taken from the online tutorials, but most people don;t learn easily from watching a movie, so the author has put it on paper and designed it to get you to perform the steps yourself. The 'Miscellaneous basic exercises' outlines some of the handy methods devised by expert Google SketchUp users as well as some Google SketchUp developers. This information can be found on the SketchUp User Forum, but the author has sifted through all the forum posts and come up with the short exercises that demonstrate these useful bits.
