Managing Great Power Politics Kei Koga, 2022-08-31 This Open Access book explains ASEAN's strategic role in managing great power politics in East Asia. Constructing a theory of institutional strategy, this book argues that the regional security institutions in Southeast Asia, ASEAN and ASEAN-led institutions have devised their own institutional strategies vis-à-vis the South China Sea and navigated the great-power politics since the 1990s. ASEAN proliferated new security institutions in the 1990s and 2000s that assumed a different functionality, a different geopolitical scope, and thus a different institutional strategy. In so doing, ASEAN formed a "strategic institutional web" that nurtured a quasi-division of labor among the institutions to maintain relative stability in the South China Sea. Unlike the conventional analysis on ASEAN, this study disaggregates "ASEAN" as a collective regional actor into specific individual institutions—ASEAN Foreign Ministers' Meeting, ASEAN Summit, ASEAN-China dialogues, ASEAN Regional Forum, East Asia Summit, and ASEAN Defense Ministers Meeting and ASEAN Defense Ministers Meeting-Plus—and explains how each of these institutions has devised and/or shifted its institutional strategy to curb great powers' ambition in dominating the South China Sea while navigating great power competition. The book sheds light on the strategic potential and limitations of ASEAN and ASEAN-led security institutions, offers implications for the future role of ASEAN in the Indo-Pacific region, and provides an alternative understanding of the

strategic utilities of regional security institutions.

Raven Rock Garrett M. Graff,2017-05-02 Now a 6-part mini-series called Why the Rest of Us Die airing on VICE TV! The shocking truth about the government's secret plans to survive a catastrophic attack on US soil—even if the rest of us die—is “a frightening eye-opener” (Kirkus Reviews) that spans the dawn of the nuclear age to today, and contains everything one could possibly want to know (The Wall Street Journal). Every day in Washington, DC, the blue-and-gold first Helicopter Squadron, codenamed “MUSSEL,” flies over the Potomac River. As obvious as the Presidential motorcade, most people assume the squadron is a travel perk for VIPs. They're only half right: while the helicopters do provide transport, the unit exists to evacuate high-ranking officials in the event of a terrorist or nuclear attack on the capital. In the event of an attack, select officials would be whisked by helicopters to a ring of secret bunkers around Washington, even as ordinary citizens were left to fend for themselves. “In exploring the incredible lengths (and depths) that successive administrations have gone to in planning for the aftermath of a nuclear assault, Graff deftly weaves a tale of secrecy and paranoia” (The New York Times Book Review) with details that read like they've been ripped from the pages of a pulp spy novel (Vice). For more than

sixty years, the US government has been developing secret Doomsday strategies to protect itself, and the multibillion-dollar Continuity of Government (COG) program takes numerous forms—from its potential to evacuate the Liberty Bell from Philadelphia to the plans to launch nuclear missiles from a Boeing-747 jet flying high over Nebraska. Garrett M. Graff sheds light on the inner workings of the 650-acre compound, called Raven Rock, just miles from Camp David, as well as dozens of other bunkers the government built for its top leaders during the Cold War, from the White House lawn to Cheyenne Mountain in Colorado to Palm Beach, Florida, and the secret plans that would have kicked in after a Cold War nuclear attack to round up foreigners and dissidents and nationalize industries. Equal parts a presidential, military, and cultural history, Raven Rock tracks the evolution of the government plan and the threats of global war from the dawn of the nuclear era through the War on Terror.

Managing the President's Message Martha Joynt Kumar, 2010-04-15 Winner, 2008 Richard E. Neustadt Award, Presidency Research Group organized section of the American Political Science Association Political scientists are rarely able to study presidents from inside the White House while presidents are governing, campaigning, and delivering thousands of speeches. It's even rarer to find one who manages to get officials such as political adviser Karl Rove or presidential counselor Dan Bartlett to discuss their strategies while those strategies are under construction. But that is exactly what Martha

Joynt Kumar pulls off in her fascinating new book, which draws on her first-hand reporting, interviewing, and original scholarship to produce analyses of the media and communications operations of the past four administrations, including chapters on George W. Bush and Bill Clinton. Kumar describes how today's White House communications and media operations can be at once in flux and remarkably stable over time. She describes how the presidential Press Office that was once manned by a single presidential advisor evolved into a multilayered communications machine that employs hundreds of people, what modern presidents seek to accomplish through their operations, and how presidents measure what they get for their considerable efforts. Laced throughout with in-depth statistics, historical insights, and you-are-there interviews with key White House staffers and journalists, this indispensable and comprehensive dissection of presidential communications operations will be key reading for scholars of the White House researching the presidency, political communications, journalism, and any other discipline where how and when one speaks is at least as important as what one says.

Presidential Framing in the 21st Century News Media Jennifer Rose

Hopper,2017-01-20 The Patient Protection and Affordable Care Act came into existence at a time when the president's ability to lead the public was in

question, political polarization had intensified, and the media environment appeared ever more fragmented, fast-moving, and resistant to control. Under such circumstances, how can contemporary American presidents such as Barack Obama build and maintain support for themselves and their policies, particularly as controversies arise? Using case studies of major contests over how key elements of the Affordable Care Act would be framed, and analysis of how those frames fared in influential and popular U.S. news sources, Hopper examines the conditions under which the president can effectively shape public debates today. She argues that despite the difficult political and communications context, the president retains substantial advantages in framing major controversial issues for the media and the public. These presidential framing advantages are conditional, however, and Hopper explores the factors that help make presidential frames more or less likely to gain hold in the news today. More so than in the past, an element of unpredictability in this news environment means that in pursuing favorable messaging, the president and his surrogates may also generate some unintentional consequences in how issues are portrayed to the public. Presidential frames can evolve with unfolding events to take on new meanings and applications, a process facilitated alternately by supporters, opponents, and media actors. Still, media figures and political opponents remain largely reactive to presidential communications, even as some seek to publicize and exploit weaknesses in the administration's narratives. A close look at these

recent cases casts new light on the scholarly debate surrounding the president's ability to persuasively communicate and challenges conventional wisdom that the 21st century media largely present an unmanageable news environment for the White House. *Presidential Framing in the 21st Century* News Media engages with current events in American politics, focusing on the Obama Administration and the Affordable Care Act, while also reflecting upon the state of the American presidency, the news media, and the public in ways that have substantial implications for all of these actors, not merely in the present, but into the future, making it a compelling read for scholars of Political Science, Media Studies, Communication Studies, and Public Policy.

Inside Campaigns William J. Feltus, Kenneth M. Goldstein, Matthew Dallek, 2018-07-04 *Inside Campaigns: Elections Through the Eyes of Political Professionals* is essential reading not only for students interested in running campaigns and for journalism students who want to cover politics, but for campaign operatives generally and journalists who want to raise the level of their game. In fact, it's good reading for everybody. –Thomas B. Edsall, Columbia Graduate School of Journalism Much of our useful knowledge sits at the intersection of disciplines. *Inside Campaigns* demonstrates that through a skillful combination of political science with management in a highly readable and practical format. A first for this field! –Leonard A. Schlesinger, Baker Foundation Professor-Harvard Business School, President

Emeritus-Babson College Inside Campaigns, Second Edition takes readers on a journey into the world of campaign managers. Powered by scores of interviews and surveys of political professionals, the book considers the purpose, potency, and poetry of modern political campaigns in the US. The expert author team draw from years of scholarly research and professional campaign experience to guide readers on a behind-the-scenes tour of the ways campaigns are managed, the strategies that are employed, the roles played by both staff and the candidates, and the affects election outcomes have on American democracy. Readers will develop an understanding of what campaigns do and why they matter, as well as gain practical skills for working in a campaign or advocating for a cause. New to the Second Edition: A case study created from an in-depth interview with Bernie Sanders' top digital decision-makers describes how the Sanders' campaign used digital media to harness the energy of their highly motivated base supporters. This case shows students a real-life campaign decision-making situation, and demonstrates how campaigns use new digital media to drive traditional news media coverage. A unique joint interview with the top media buyers from the Clinton and Trump campaigns reveals how each campaign tracked the other's advertising and adjusted their own advertising based on competitive tracking information. This interview illustrates to students how modern campaigns use media tracking technologies to monitor their opposition and spend tens of millions of dollars at the presidential level. A top Trump digital manager shares inside details of how

the Republican National Committee moved quickly to help build out the Trump digital operations after it was clear that Trump would be the party's presidential nominee. This insight helps students understand how the Trump campaign answered, What do we tell them? by testing messages online, including recycling Trump's personal tweets in instant messages and emails. The differences between how the Clinton and Trump campaigns managed the news media are highlighted in a case study of one journalist's experiences covering both campaigns. This case study helps the student build skills for becoming a spinmeister who handles day-to-day relationships with the news media. The authors' research surprisingly reveals that, behind the scenes, Trump was much more available to reporters than Clinton, despite Trump's continuous public attacks on the fake news media.

Running Toward Danger Cathy Trost, Alicia C. Shepard, 2002 From the Newsuem, America's only museum of news, comes the definitive book detailing behind the scenes of how journalist covered the deadly assaults of September 11, 2001.

Presidents in Crisis Michael Bohn, 2016-03-01 Every American president, when faced with a crisis, longs to take bold and decisive action. When American lives or vital interests are at stake, the public--and especially the news media and political opponents--expect aggressive leadership. But, contrary to the dramatizations of Hollywood, rarely does a president have that option. In *Presidents in Crisis*, a former director of the Situation Room takes the

reader inside the White House during seventeen grave international emergencies handled by the presidents from Truman to Obama: from North Korea's invasion of South Korea to the revolutions of the Arab Spring, and from the thirteen days of the Cuban Missile Crisis to the taking of American diplomats hostage in Iran and George W. Bush's response to the attacks of September 11, 2001. In narratives that convey the drama of unfolding events and the stakes of confrontation when a misstep can mean catastrophe, he walks us step by step through each crisis. Laying out the key players and personalities and the moral and political calculations that the leaders have had to make, he provides a fascinating insider's look at modern presidential decision making and the fundamental role in it of human frailty--

The SAGE Encyclopedia of Journalism Gregory A. Borchard, 2022-02-22 Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted. Whether it is National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines, up-to-the-minute Internet news, grocery store tabloids, Time magazine in our mailbox, or the nightly news on television, journalism pervades our lives. The Encyclopedia of Journalism covers all significant dimensions of journalism,

such as print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts, and journalists, under the direction of lead editor Gregory Borchard of University of Nevada, Las Vegas.

It features 32 pages of photographs and more than a dozen diagrams and illustrations not previously available.

Network Propaganda Yochai Benkler,Robert Faris,Hal Roberts,2018-09-17 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Is social media destroying democracy? Are Russian propaganda or Fake news entrepreneurs on Facebook undermining our sense of a shared reality? A conventional wisdom has emerged since the election of Donald Trump in 2016 that new technologies and their manipulation by foreign actors played a decisive role in his victory and are responsible for the sense of a post-truth moment in which disinformation and propaganda thrives. Network

Propaganda challenges that received wisdom through the most comprehensive study yet published on media coverage of American presidential politics from the start of the election cycle in April 2015 to the one year anniversary of the Trump presidency. Analysing millions of news stories together with Twitter and Facebook shares, broadcast television and YouTube, the book provides a comprehensive overview of the architecture of contemporary American political communications. Through data analysis and detailed qualitative case studies of coverage of immigration, Clinton scandals, and the Trump Russia investigation, the book finds that the right-wing media ecosystem operates fundamentally differently than the rest of the media environment. The authors argue that longstanding institutional, political, and cultural patterns in American politics interacted with technological change since the 1970s to create a propaganda feedback loop in American conservative media. This dynamic has marginalized centre-right media and politicians, radicalized the right wing ecosystem, and rendered it susceptible to propaganda efforts, foreign and domestic. For readers outside the United States, the book offers a new perspective and methods for diagnosing the sources of, and potential solutions for, the perceived global crisis of democratic politics.
