*Cloak and Gavel* Alexander Charns, 1992 The separation of powers becomes a meaningless cliché as Alexander Charns - using the Federal Bureau of Investigation's own files - reveals how that agency undermined the

independence of the U.S. Supreme Court for a half-century. FBI director J. Edgar Hoover's goal was simple: to push the Supreme Court to the right on issues of civil rights and criminal law. His techniques ranged from illegal wiretapping to spreading disinformation, from using Justice Abe Fortas as an informant to trying to hound liberal Justice William O. Douglas off the bench. Cloak and Gavel, the definitive work on the FBI-Supreme Court relationship, is based on thousands of pages of FBI documents that Charns fought for eight years to obtain. One 2,000-page file was released only after he filed hundreds of Freedom of Information requests and brought lawsuits against the FBI. It establishes Hoover's strategies to influence the Senate confirmation process, incite the public against the Warren court, lobby for legislation to counteract judicial rulings, and use numerous informants inside the Court to both monitor and influence it. Charns was given special permission to conduct research using Justice Abe Fortas's papers, which had been sealed until the year 2000. These papers proved Fortas had acted as an informer for the White House and for the FBI during his tenure on the bench. Fortas ultimately left the Court in disgrace after an ethics scandal unrelated to his informant role. Charns also suggests that Hoover's death did not end the FBI's attempts to influence Congress and the federal judiciary - as evidenced by the role of the FBI in the explosive Clarence Thomas-Anita Hill Senate hearings in 1991. Until now, no one has examined the ultimate constitutional violation - the FBI's attempts to influence the Court by any means available.

DNO the SEO Revolution Robert McAnderson, 2011-09-01 The total number of searches

conducted across all search engines, in 2011 will exceed 300 Billion and cost companies competing for these page-one listings in excess of 50 Billion Dollars. DNO the SEO Revolution is a how-to-guide for achieving permanent page-one rankings for under \$100. This one extraordinarily simple idea will shatter traditional SEO concepts allowing everyone the opportunity to gain multiple Page One Rankings for their business. Even more impressive is the fact these rankings are permanent and will never be under threat from competitive SEO programs. When you consider SEO and SEM programs only deliver temporary results, establish a total dependency on the technology and force you to pay up to 20% more each year for an ever-diminishing return, why continue using them? Now is the time to break the cycle of dependency on SEO and SEM programs-try something different, achieve permanent search engine rankings, own what you have been paying rent on for years. Act now before your competitor does or face the consequences of them dominating critical keyword rankings, permanently.
