Africa Dream Eloise Greenfield,1992-01-30 An African-American child dreams of long-ago Africa, where she sees animals, shops in a marketplace, reads strange words from an old book, and returns to the village where her long-ago granddaddy welcomes her. ‘Greenfield’s lyrical telling and Byard’s marvelous pictures make this book close to an ideal adventure for children, black or white.’ —Publishers Weekly. 1978 Coretta Scott King Award

African Dream Suleman Chebe,2011-08-01 A Ghanaian teacher in Glasgow attends a conference in Ethiopia where he stumbles across a vision for the future. Convinced that what he has witnessed could have dramatic consequences for Africa, he decides to leave everything behind in Scotland to carry the message to the people. On his journey he has to tackle and overcome a mountain of obstacles. This is a personal quest that examines the hopes and dreams of Africans from a diverse range of backgrounds: from street level to academic to political to religious, both practical and philosophical. Through the voices of the people, this unique take on the problems facing Africa forms an engaging, witty and thought-provoking narrative that aims to empower us all to take the future of Africa into our own hands. The book gives a flavour of the joys and hardships faced everyday by a broad cross-section of the African community, both at home and abroad. Above all, a spirit of hope for the future and belief that Africa can transform herself permeates every page.

Afrikan Dreams Stanley Mitoko,2015-10-11 Stanley Mitoko speaks to the foment and passion among the youth of Africa for their continent and its potential, for the history lost and for the future to be gained. The clarity with which he speaks of their hopes and dreams and their frustrations and anger will bring the reader up short, and has the ability to change preconceptions and myths about Africa and Africans. It is a journey we must take in developing an understanding so as to welcome Africa into the larger world which, there can be no doubt, it will take by storm one way or another.

The African Dream Bernard Osei Annang,2019-07-26 They took everything from us; our families, our homes, and our dreams. But unfortunately, we survived. To them, they won the fourth Anglo Ashanti war, but to us, the war just began.My name is Bediako, the only son of my parents until I got to know that my two elder brothers died in the third Anglo Ashanti war, after which my mother followed the next year when I was only one year old. I have lived with my father ever since, but the rest of my family, I only know them by stories. All my life, I have lived in hiding with my father and few survivors of the third Anglo Ashanti war in a thick forest.When we thought the war was over, our enemies came all out on us, taking over our capital completely and burning it to the ground.Our forefathers fought so hard with the hope that someday, the black man will live without fear but with freedom. They did their part and laid their lives down for us, but our enemies are very strong-willed, and nothing could stop them from regrouping and coming back at us. When we wake up each morning, we feared two things, war, and slavery because that was the order of the day. For over a century, we have stood up in battle, and no matter how big we win, they still keep coming for us. All our allies are now our enemies, but with that notwithstanding, we stand strong believing that our toil shall never be in vain. With our great motor, If you kill a thousand, a thousand will rise, we will fight each day without giving up. There is a dream, and someone must live it. There is hope, and someone must keep it alive. Without sacrifice, change is inevitable. We surely will be attacked now and then, but we will always remain a stronghold. We don't give up, not even when we fall, because our children will step in and fight until victory is ours. The African dream must live on, and it is up to us to carry it further irrespective of the obstacles. Territories may be invaded, boundaries may be broken, treaties may be dishonored, but the African dream shall never be cut off.

Dreams and Death in African Mythology Charles River Editors,2020-02-07 *Includes pictures *Includes a bibliography for further reading The modern history of Africa was, until very recently, written on behalf of the indigenous races by the white man, who had forcefully entered the continent during a particularly hubristic and dynamic phase of European history. When they began to arrive in sub-Saharan Africa in the early 16th century, Christian missionaries replaced established animist practices with the tenets of Christianity. This was particularly true for the Catholics who offered a faith promising eternal paradise upon the simple confession of sin. In an age of slavery, disease, and inter-tribal warfare when life was unembellished, brutal, and usually short, this was a particularly seductive message. Add to this the ritual inherent in Catholic worship, the drinking of blood and

the eating of flesh, and the susceptibilities of a society defined by elaborate religious rituals, and the conversion succeeded with extraordinary ease. It is also true that the Catholic spiritual hierarchy reflected the structure of African spiritual life. The first line of African worship is composed of the spirits of passed ancestors whose relationship with the living remains direct and active. This overlapped with the idea of a host of saints endowed with specific functions and responsibilities. At a higher level, the more remote ancestral spirits, those of more than three or four generations past who have merged into the overall spirit of the nation, formed a less definable but powerful presence in day to day life. These spirits easily translate to angels, while the almighty creator, too vast and remote to be understood, conforms to the notion of the one God. The embrace of Christianity and Islam, even today, is not necessarily to the exclusion of ancestral spirits, nor the essentials of witchcraft and sorcery. The precarious security of albino people in east and central Africa, whose body parts are sought after in traditional medicine, is testimony to the fact that these superstitions are alive and well throughout Africa. Dreams and Death in African Mythology: The History of Legends and Folk Stories about Dreams and Death across Africa examines the various stories that sought to explain death and dreams, from their origins to their evolution across different cultures. Along with pictures depicting important people, places, and events, you will learn about deaths and dreams in African mythology like never before.

Dreams of Awakening Charlie Morley,2013 Dreams of Awakening is a thorough and exciting exploration of lucid dreaming theory and practice within both Western and Tibetan Buddhist contexts. It not only explores lucid dreaming practices, but also the innovative new techniques of Mindfulness of Dream and Sleep, the holistic approach to lucidity training which the author co-created. The book is based on over 12 years of personal practice and the hundreds of lucid dreaming workshops which Charlie has taught around the world, in venues as diverse as Buddhist temples and dance-music festivals. Using a three-part structure of Ground, Path and Germination the reader is given a solid grounding in: the history and benefits of lucid dreaming . cutting edge research from dream and sleep scientists.. entering the path of learning to do the practices. prophetic dreams, lucid living, out of body experiences and quantum dreaming.Although Dreams of Awakening presents many different angles on how to make the 30 years we spend asleep more worthwhile, the fundamental aim of the book is to teach people how to lucid dream their way to psychological and spiritual growth. This book is for all those who want to wake up, both in their dreams and waking lives.

Africa John Reader,1998-11-05 Drawing on many years of African experience, John Reader has written a book of startling grandeur and scope that recreates the great panorama of African history, from the primeval cataclysms that formed the continent to the political upheavals facing much of the continent today. Reader tells the extraordinary story of humankind's adaptation to the ferocious obstacles of forest, river and desert, and to the threat of debilitating parasites, bacteria and viruses unmatched elsewhere in the world. He also shows how the world's richest assortment of animals and plants has helped - or hindered - human progress in Africa.

Dream House Catherine Armsden,2015-10-19 In this “vividly written” novel, an architect returns to her childhood home on the coast of Maine—where startling family secrets come out of the woodwork (Kirkus). Gina Gilbert has designed an ideal life for herself in San Francisco. But when a car accident takes her parents’ lives, she finds herself drawn back to the New England home where she was raised. Facing grief and painful memories of the past, Gina turn to her skills as an architect—dissecting her old home, and the generations of secrets it conceals. The Gilbert family’s story unfolds room by room: from the darkroom where Gina’s gentle but passive father ran his photography business to the kitchen where her volatile mother toiled under the weight of dashed dreams. But when Gina and her sister Cassie discover that a trove of historically significant letters have gone missing, long-buried truths are revealed, and family myths begin to unravel. To find the healing she needs, Gina must search the recesses of her heart, and reawaken her understanding of what makes a house a home.
