Nothing Happened and Then It Did: A Chronicle in Fact and Fiction Jake Silverstein, 2011-05-16 "The road novel—or the road half-novel—has rarely been funnier or more appealing."—Benjamin Moser, Harper's In the great American tradition of funny road narratives— from Mark Twain to Hunter S. Thompson—a young journalist searches for his first big break down the lonesome highways of the Southwest and northern Mexico. Alternating chapters of fiction and nonfiction provide a hilarious account of Jake Silverstein's misadventures on the hunt for an elusive magazine article—a journey that becomes a quest to understand the purpose of journalism and the nature of storytelling.

The Thing from Another World and Climate of Fear Chuck Pfarrer, 1993-09-14 They found it frozen in the Antarctic: a shapeshifting alien killer capable of duplicating any being it comes into contact with. Released from its icy prison, The Thing went on a rampage of terror and destruction until one man, MacReady, thought he had destroyed it. He was wrong. He's free of the Antarctic at last, but so is The Thing. Now, in a South American military base, the nightmare begins again, and all humanity is in danger. But how can you kill a monster who could be anyone -- even MacReady?

Along Navajo Trails Will Evans, 2005-04-15 Will Evans's writings should find a special niche in the small but significant body of literature from and about traders to the Navajos. Evans was the

proprietor of the Shiprock Trading Company. Probably more than most of his fellow traders, he had a strong interest in Navajo culture. The effort he made to record and share what he learned certainly was unusual. He published in the Farmington and New Mexico newspapers and other periodicals, compiling many of his pieces into a book manuscript. His subjects were Navajos he knew and traded with, their stories of historic events such as the Long Walk, and descriptions of their culture as he, an outsider without academic training, understood it. Evans's writings were colored by his fondness for, uncommon access to, and friendships with Navajos, and by who he was: a trader, folk artist, and Mormon. He accurately portrayed the operations of a trading post and knew both the material and artistic value of Navajo crafts. His art was mainly inspired by Navajo sandpainting. He appropriated and, no doubt, sometimes misappropriated that sacred art to paint surfaces and objects of all kinds. As a Mormon, he had particular views of who the Navajos were and what they believed and was representative of a large class of often-overlooked traders. Much of the Navajo trade in the Four Corners region and farther west was operated by Mormons. They had a significant historical role as intermediaries, or brokers, between Native and European American peoples in this part of the West. Well connected at the center of that world, Evans was a good spokesperson.

Byzantium in the Popular Imagination Markéta Kulhánková, Przemysław Marciniak, 2023-08-10 What is the contemporary cultural legacy of Byzantium or

The Eastern Roman Empire? This book explores the varied reception history of the Byzantine Empire across a range of cultural production. Split into four sections: the origins of 'Byzantomania' in France, modern media, literature, and politics, it provides case studies which show the numerous ways in which the empire's legacy can be felt today. Covering television, video games and contemporary political discourse, contributors also consider a wide range of national and geographical perspectives including Russian, Turkish, Polish, Greek and Hungarian. It will be essential reading for scholars and students of the reception and cultural history of the Byzantine Empire.

Dusan and Voitre Marek: Surrealists at Sea Maria Zagala, Elle Freak, Tracey Lock, Cheri Donaldson, Brendan Casey, Elspeth Pitt, Arthur Cantrill, Stephen Mould, Ralph Body, Bernice L. Murphy, 2021-08-20 Taking its cue from the artists, this publication embraces a variety of methodologies to consider Dusan and Voitre's unique visual world. It brings together the voices of eleven writers with varying histories and relationships to the artists and their work. Their essays loosely track six decades of Dusan and Voitre's unwavering commitment to their art, as they moved with ease between figuration and abstraction, and across diverse media: paintings, drawings, sculpture, films, prints, photographs and jewellery.

The Blood Contingent Stephen Neufeld,2017 In the pursuit of the modern, the armed forces served as instrument, model, and metaphor for national progress. I examine in this book how the military experience, as representative of the process, failed or fulfilled aspects of the broad national transition towards hegemony and sovereignty. This is the first work combining personnel records and military literature with cultural sources to address the setting of military life for soldiers and their families rather than politics or officers. In connection with nation formation and identity, this book moves away from studies of the army as an institution to broaden understandings of inculcations and the limits and fault lines of building Mexico as a nation. More social and cultural in historical outlook, I examine the creation of political cultures rooted in or derived from the personal experiences of the lower ranks. In doing so, the book removes some of the privileged view that official narratives emphasize in order to explain the making of a bureaucratic institution from the bottom up, and to more clearly describe how this process both encouraged the development of nationalism and limited it in important ways. In this fashion I build on the works of scholars whose focus has centered more on

officers, education, and political conflicts--
Introduction.

Threads and Traces Carlo Ginzburg,2012-09-02

This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--

So Far from God John S.D. Eisenhower,2013-05-01

The Mexican-American War of the 1840s, precipitated by border disputes and the U.S. annexation of Texas, ended with the military occupation of Mexico City by General Winfield Scott. In the subsequent treaty, the United States gained territory that would become California, Nevada, New Mexico, Arizona, Utah, and parts of Wyoming and Colorado. In this highly readable account, John S. D. Eisenhower provides a comprehensive survey of this frequently overlooked war. NOTE: This edition does not include photographs.
