No Mistakes Keiko Agena,2018-08-07 An inspiring creative journal based on mindfulness practices and the no mistakes principles of improv, by a Gilmore Girls alum. What if there were no mistakes? OK, that's impossible--but what if you learned to view your mistakes in a whole new light? In this inspiring workbook, artist and former Gilmore Girls actress Keiko Agena guides you through simple exercises based on one of the founding ideas of improv: Any misstep is an opportunity for growth and creativity. Interspersed with coloring pages and original artwork by Agena, each exercise teaches you to confront your emotions, rethink your art, and take mindful breaks to recharge in her own playful, encouraging voice: Describe a success you had, and identify the skills you learned to get you there. Look at an old piece of art that you're not proud of. What works, and how could you rework what doesn't? What actions can you take today to feed or rest your artistic impulse? No Mistakes is a supportive space for amateurs, professional creatives, and everyone in between to test their boundaries, get to know their inner artist, and produce unique, meaningful work they feel proud of.

Atlas-Agena Performance for the 1967 Mariner Venus Mission ,1969

The Blueprint of Being Adagn G. Agena,2014 The Blueprint of Being poetically bears witness to the real, the natural and the truth of being. Employing historical and contemporary social conditions,

the book polemically gives in poking a clear defense of the authentic and compelling nature of the real. Without having to layout specific modality as to how it ought to look or which form to take, it brings out the universal and unequivocal features of truth giving the reader thereby the opportunity to discern. The author, holder of Masters Degree, having studied and lived in Germany for eighteen years stays currently in Ethiopia. Drawing upon this multicultural educational life exposure; and a two year stay in prison, the author colorfully satirizes, the political and social givens of the contemporary world pointing clearly how much the natural to being human beings is yearned for. The author thus captures the reader's mind from one poem to the next in a critical tone alluding to the real which often times runs parallel to various themes in many a situation.

A Dictionary of the Space Age Paul Dickson, 2009-05-18 2009 Outstanding Academic Title, Choice
The launch of Sputnik 1 in 1957 ushered in an exciting era of scientific and technological advancement. As television news anchors, radio hosts, and journalists reported the happenings of the American and the Soviet space programs to millions of captivated citizens, words that belonged to the worlds of science, aviation, and science fiction suddenly became part of the colloquial language. What's more, NASA used a litany of acronyms in much of its official correspondence in an effort to transmit as much information in as little time as possible. To translate this peculiar vocabulary, Paul Dickson has compiled the curious lingo and mystifying acronyms of NASA in an accessible dictionary of the names, words, and phrases of the Space Age. Aviators, fighter pilots, and test pilots coined the phrases "spam in a can" (how astronauts felt prelaunch as they sat in a tiny capsule atop a rocket booster); "tickety-boo" (things are fine), and "the Eagle has landed" (Neil Armstrong's famous quote when Apollo 11 landed on the Moon). This dictionary captures a broader foundation for language of the Space Age based on the historic principles employed by the Oxford English Dictionary and Webster's New Third International Dictionary. Word histories for major terms are detailed in a

conversational tone, and technical terms are deciphered for the interested student and lay reader. This is a must-own reference for space history buffs.
