30 Days to Sales Success Meridith Elliott Powell, MBA, CSP,2022-03-15 In only one month, you can acquire the skills, tools, and techniques that will help you turn more prospects into loyal customers, increase your sales, and derive greater enjoyment from the experience. Organized into daily lessons on critical sales strategies, 30 Days to Sales Success is your roadmap to making sales more comfortable, more fulfilling, and more rewarding. Regardless of what you are selling—a product, a service, an idea, or a new direction—you have to understand the value of your offering and share it in a way that convinces people to participate. However, much of the sales advice today centers on the salesperson, not the customer, and entails aggressive cold-calling and upselling techniques. It's no wonder so many people dislike selling...and why so many people dislike being sold to. Luckily, there is another way—a path to customer-oriented sales, with a focus on value, service, and long-term relationships. Named “One of the Top 20 Sales Experts to Follow” by LinkedIn, Meridith Elliott Powell will equip you with critical strategies for sustainable, relationship-oriented sales success. First, you will gain a solid foundation in approaching sales—from preparing to meet your prospect for the first time, to better defining your selling style, to more effectively articulating the value you and your product or service add. Next, you will develop expertise in the sales call, perfecting your message, delivery, and listening skills. Finally, you will master the art of the follow-up, ensuring your customer's satisfaction, earning more referrals, increasing your offerings, and continuing your discussions. By reading the lessons and completing the journaling prompts and action items each day, you will progressively improve your sales savvy so that by the end of the month, you will feel more confident in your abilities and your natural sales style, more passionate about your work, and more empowered to sell with intention and efficacy.

Corporate Branding in Logistics and Transportation Nor Aida Abdul Rahman,T.C. Melewar,Pantea Foroudi,Suraksha Gupta,2024-03-05 The academic and scholarly interest in the subject of branding in both the consumer and industrial markets has grown substantially in the dynamic post-pandemic environment. The growth in research outputs by a handful of business scholars explains the impact of brand in an industrial business-to-business setting at the cognitive level only and has not considered its impact specifically on logistics and transportation despite the value it can offer. Considering these gaps in the periphery of our existing knowledge, this book explores corporate brand management within the logistics and transportation sector, from the perspective of image, reputation, and identity. This edited collection offers a blend of comprehensive and extensive high quality research from global, highly reputed contributors. It covers issues related to the establishment of brands, relevant niches such as service performance and social support, aviation and maritime industries, media relations, crisis branding, and innovation. Exploring a wide range of sectors within logistics and transport, the book illustrates the many dimensions of corporate branding and theories, future trends and developments, as well as proposing a model for future research. Containing a balance of theory and practice with effective case studies, *Corporate Branding in Logistics and Transportation* will appeal to marketing academics and upper-level graduates in particular. It will also be a valuable resource for those studying or researching logistics, supply chain management, and transport studies.
