Distributed Vision Elke Buschbeck,Michael Bok,2023-03-28 This volume explores the diversity of distributed eyes and other unusual visual systems in nature. It compares the unique themes of optics, neural processing, and behavioral control that emerge from these visual systems with more-canonical eyes. This volume attempts to answer a number of questions about distributed visual systems. What are distributed visual systems good for, how do they function, and why have they arisen independently in so many phyla? Why are eye designs and visual system arrangements much more diverse in invertebrates? Each chapter includes an overview of the visual systems that exist in their group of animals, relates vision to ecology, and takes a comparative approach.

**Psychoneuroimmunology**, 2011-10-10 Psychoneuroimmunology is the study of interactions among behavioral, neural and endocrine, and immunologic processes of adaptation. These two volumes provide a clearly written, extensively referenced summary of some of the behavioral, neural and endocrine regulators of immune responses and immunologically mediated disease processes and of the behavioral and neuroendocrine effects of immune system activity. Several chapters expand upon topics reviewed in earlier editions of this series; most chapters cover active areas of research that have not previously been reviewed. As illustrated in this fourth edition, interdisciplinary research continues to provide evidence that the brain and immune system represent a single, integrated system of defense. Fully revised and updated fourth edition of the classic reference Provides a neuroendocrine and immunologic perspective for the behavioral scientist Provides a behavioral and neuroscience perspective for the immunologist Helps the reader translate basic science findings into clinically relevant information Provides the reader with the background for and foundation of integrative research and integrative medicine Provides an encyclopedic resource for advanced undergraduates and for pre- and post-doctoral students as well as active researchers
