**Ninety Percent of Everything** Rose George,2013-08-13 Revealing the workings and dangers of freight shipping, which is the key to our economy, environment and civilization, the author sails from Rotterdam to Suez to Singapore to present an eye-opening glimpse into an overlooked world filled with suspect practices, dubious operators and pirates.

*Albion's Seed* David Hackett Fischer,1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

**Wild Ones** Jon Mooallem,2014-05-27 Wild Ones is a tour through our environmental moment and the eccentric cultural history of people and wild animals in America that inflects it. With propulsive curiosity and searing wit, and without that easy moralizing and nature worship of environmental journalism's older guard, [Jon] Mooallem merges reportage, science, and history into a humane and endearing meditation on what it means to live in, and bring life into, a broken world.--Back cover.

Electroboy Andy Behrman,2003 The author describes his longtime battle with ills of manic depression, his desperate search for the ultimate high, the art-forgery scandal that confined him to jail and to house arrest, and his decision to opt for the controversial treatment of electroconvulsive therapy to preserve his sanity. Reprint. 30,000 first printing.

**LSD, My Problem Child** Albert Hofmann,2017-09-27 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann, Ph.D. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. In LSD: My Problem Child, we follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experiences may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine, in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. More than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more

relevant, and more needed, than ever.

**Unbroken (Movie Tie-in Edition)** Laura Hillenbrand, 2018-08-21 #1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014's *Unbroken* and the upcoming *Unbroken: Path to Redemption*. On a May afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood. Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane's bombardier, who was struggling to a life raft and pulling himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant's name was Louis Zamperini. In boyhood, he'd been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken* "Extraordinarily moving . . . a powerfully drawn survival epic."—The Wall Street Journal "[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring."—New York "Staggering . . . mesmerizing . . . Hillenbrand's writing is so ferociously cinematic, the events she describes so incredible, you don't dare take your eyes off the page."—People "A meticulous, soaring and beautifully written account of an extraordinary life."—The Washington Post "Ambitious and powerful . . . a startling narrative and an inspirational book."—The New York Times Book Review "Marvelous . . . *Unbroken* is wonderful twice over, for the tale it tells and for the way it's told. . . . It manages maximum velocity with no loss of subtlety."—Newsweek "Moving and, yes, inspirational . . . [Laura] Hillenbrand's unforgettable book . . . deserve[s] pride of place alongside the best works of literature that chart the complications and the hard-won triumphs of so-called ordinary Americans and their extraordinary time."—Maureen Corrigan, *Fresh Air* "Hillenbrand . . . tells [this] story with cool elegance but at a thrilling sprinter's pace."—Time "Unbroken is too much book to hope for: a hellride of a story in the grip of the one writer who can handle it."—Christopher McDougall, author of *Born to Run*

Mastering the Core Teachings of the Buddha Daniel Ingram, 2020-01-20 The very idea that the teachings can be mastered will arouse controversy within Buddhist circles. Even so, Ingram insists that enlightenment is an attainable goal, once our fanciful notions of it are stripped away, and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self-absorbed mind-noise. Ingram sets out concisely the difference between concentration-based and insight (vipassana) meditation; he provides example practices; and most importantly he presents detailed maps of the states of mind we are likely to encounter, and the stages we must negotiate as we move through clearly-defined cycles of insight. Its easy to feel overawed, at first, by Ingram's assurance and ease in the higher levels of consciousness, but consistently he writes as a down-to-earth and compassionate guide, and to the practitioner willing to commit themselves this is a glittering gift of a book. In this new edition of the bestselling book, the author rearranges, revises and expands upon the original material, as well as adding new sections that bring further clarity to his ideas.

**Extreme Birder** Lynn E. Barber, 2011-03-17 One woman . . . one year . . . 723 species of birds. . . In 2008, Lynn Barber's passion for birding led her to drive, fly, sail, walk, stalk, and sit in search of birds in twenty-five states and three provinces. Traveling more than 175,000 miles, she set a twenty-first century record at the time, second to only one other person in history. Over 272 days, Barber observed 723 species of birds in North America north of Mexico, recording a remarkable 333 new species in January but, with the dwindling returns typical to Big Year birding, only eight in December, a month that found her crisscrossing the continent from Texas to Newfoundland, from Washington to Ontario. In the months between, she felt every extreme of climate, well-being, and emotion. But, whether finally spotting an elusive Blue Bunting or seeing three species of eiders in a single day, she was also challenged, inspired, and rewarded by nearly every experience. Barber's journal from her American Birding Association-sanctioned Big Year covers the highlights of her treks to forests, canyons, mountain ranges, deserts, oceans, lakes, and numerous spots in between. Written in the informal style of a diary, it captures the detail, humor, challenges, and fun of a good adventure travelogue and also conveys the remarkable diversity of North American birds and habitat. For actual or would-be "travel birders," Lynn Barber's *Extreme Birder* provides a fascinating, binoculars-eye view of one of the best-loved pastimes of nature lovers everywhere. Lynn Barber challenges a traditionally male-dominated pursuit--the birding big year--and is successful beyond her wildest dreams. She is an inspiration for all who love adventure, nature, and birds.--Lynn Hassler, author, *Birds of the American Southwest*

**A-10s Over Kosovo** Phil M. Haun, Christopher E. Haave, Air University Press, 2011 First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, marked a real turning point . . . and proved that a war can be won by airpower alone. Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower--the members of the 40th Expeditionary Operations Group. Their descriptions--a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot--provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.
