*Unexpected Risk* Desiree Holt,2020-12-14 Her so-called gift put her in perilous situations... Janet Rodman barely controlled her psi ability as an empath to teach school and hang with a few friends. She never knew when a wave of unsuitable emotions from others would assault her. She had learned to build walls to live her life but evil could break them down. A job as a private tutor kept her safe from assault...or so she thought. He wasn't looking for a woman in his life... Former SEAL and top tier attorney J. T. Fitzpatrick wasn't interested in bringing a woman into his house. A bitter divorce took care of that. But when his friends at The Phoenix Agency called on his help to rescue a woman in danger, how could he say no? He's unprepared for the instant attraction to Janet Rodman, but he's not looking for a relationship and this is supposed to be a strictly business deal. The Darkman isn't about to let some woman interrupt his mission in life... His plan is working perfectly, and the bodies are piling up. He can't let Janet Rodman screw them up. But when she disappears, he pulls out all stops to find and eliminate her. And he'll kill anyone who gets in the way. With the chemistry exploding between them, can the former SEAL keep Janet safe and destroy the killer before he destroys them?

The Forms and Functions of Tort Law Kenneth S. Abraham,2002 The perfect accompaniment to any torts casebook, The Forms and Functions of Tort Law covers all the major cases and issues in the standard torts course, sharing Professor Abraham's scholarly insights developed over 25 years of teaching. This analytical text addresses the cases and analyzes their implications, presenting the law of torts within a curricular context and covering the materials that law students are likely to encounter in a variety of courses. The straightforward, readable text in this paperback addresses both rules and policy and presents topics in a way that helps students grapple with the issues more effectively. Organized in the traditional manner, topics covered include intentional torts, negligence, cause-in-fact, proximate cause, defenses, strict liability, nuisance, products liability, damages, tort reform, invasion of privacy, defamation, misrepresentation, and the economic interference torts. Each chapter stands on its own, making the book ideal for use as a classroom text as well as for self-directed reading by students.
