A Change of Tongue Antjie Krog,2012-04-13 Identity, belonging and voyages of personal discovery are but some of the themes inventively explored in Antjie Krog's first full-length work to appear in English since the publication of *Country of My Skull*. In times of fundamental change, people tend to find a space, lose it and then find another space as life and the world transform around them. What does this metamorphosis entail and in what ways are we affected by it? How do we live through it and what may we become on our journey towards each other, particularly when the space and places from which we depart are – at least on the surface – vastly different? Ranging freely and often wittily across many terrains, this brave book by one of South Africa's foremost writers and poets provides a unique and compelling discourse on living creatively in South Africa.

Theory and Methods of Social Research Johan Galtung,1967 The summation of more than two thousand years of one of the world's most august literary traditions, this volume also represents the achievements of four hundred years of Western scholarship on China. The selections include poetry, drama, fiction, songs, biographies, and works of early Chinese philosophy and history rendered in English by the most renowned translators of classical Chinese literature: Arthur Waley, Ezra Pound, David Hawkes, James Legge, Burton Watson, Stephen Owen, Cyril Birch, A. C. Graham, Witter Bynner, Kenneth Rexroth, and others. Arranged chronologically and by genre, each chapter is introduced by definitive quotes and brief introductions chosen from classic Western sinological treatises. Beginning with discussions of the origins of the Chinese writing system and selections from the earliest genre of Chinese literature -- the Oracle Bone inscriptions -- the book then proceeds with selections from: • early myths and legends; • the earliest anthology of Chinese poetry, the *Book of Songs*; • early narrative and philosophy, including the *I Ching*, *Tao-te Ching*, and the *Analects of Confucius*; • rhapsodies, historical writings, magical biographies, ballads, poetry, and miscellaneous prose from the Han and Six Dynasties period; • the court poetry of the Southern Dynasties; • the finest gems of Tang poetry; and • lyrics, stories, and tales of the Sui, Tang, and Five Dynasties eras. Special highlights include individual chapters covering each of the luminaries of Tang poetry: Wang Wei, Li Bo, Du Fu, and Bo Juyi; early literary criticism; women poets from the first to the tenth

century C.E.; and the poetry of Zen and the Tao. Bibliographies, explanatory notes, copious illustrations, a chronology of major dynasties, and two-way romanization tables coordinating the Wade-Giles and pinyin transliteration systems provide helpful tools to aid students, teachers, and general readers in exploring this rich tradition of world literature.
