Avicenna and the Visionary Recital Henry Corbin,2014-07-14 In this work a distinguished scholar of Islamic religion examines the mysticism and psychological thought of the great eleventh-century Persian philosopher and physician Avicenna (Ibn Sina), author of over a hundred works on theology, logic, medicine, and mathematics. Henry Corbin's discovery in an Istanbul library of the manuscript of a Persian translation of and commentary on Avicenna's Hayy ibn Yaqzan, written in Arabic, led him to an analysis of three of Avicenna's mystical recitals. These form an initiatory cycle leading the adept along the path of spiritual progress. In Part I Corbin summarizes the great themes that show the philosophical situation of Avicennan man in the cosmos and presents translations of these three great Avicennan recitals. Part II is a complete translation, with notes, of the Persian commentary. Originally published in 1960. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

*Journeys in the Kali Yuga* Aki Cederberg,2017-12-12 A beautifully evocative account of one man's odyssey to discover authentic and unbroken

magical traditions in the East and reawaken them in the West • Details the author's encounters with the Naga Babas, his initiation into their tradition, and his experience at the Kumbh Mela, the largest spiritual gathering on Earth • Shares the similarities he discovered between the teachings of the Indian tradition and the Western traditions of magic, alchemy, and pagan pantheons • Introduces a wide cast of characters, including Goa Gil, the world-renowned guru of the Goa techno-trance scene, and Mahant Amar Bharti Ji, a "raised-arm Baba," who for more than 40 years has held up one arm in devotion to Shiva Beautifully detailing his spiritual pilgrimage from West to East and back again, in the age of strife known as the Kali Yuga, Aki Cederberg shares the authentic and unbroken magical traditions he experienced in India and Nepal and how his search for a spiritual homeland ultimately led him back to his native Europe. Cederberg explains how his odyssey began as a search for spiritual roots, something missing in the spiritually disconnected life of the Western world, where the indigenous traditions were long ago severed by the spread of Christianity. Traveling to India, he encounters the ancient esoteric order of mystic, wild, naked holy men known as the Naga Babas, the living source of the Hindu traditions of magic and yoga. Immersing himself in the teachings of the tradition, he receives an initiation and partakes in the Kumbh Mela, the largest spiritual gathering on Earth. With his evocative descriptions, Cederberg shows how traveling in India can be an overwhelming, even psychedelic experience. Everything in this ancient land is multiplied and manifold: people and things, sights and sounds, joy and suffering. Yet beyond the apparent confusion and chaos, a strange, subtle order begins to reveal itself. He starts to glimpse resemblances and analogies between the teachings of the Indian tradition and the Western traditions of magic, alchemy, and pagan pantheons. He meets a wide cast of characters, from mystical hucksters in Rishikesh and the veritable army of naked, chillum-smoking mystics of Maya Devi to Goa Gil, the world-renowned guru of the Goa techno-trance scene, and Mahant Amar Bharti Ji, an urdhvabahu or "raised-arm Baba," who for more than 40 years has held up one arm in devotion to Shiva. After extensive traveling and immersing himself in the extraordinary world of India, Cederberg returns to his native soil of Europe. Traveling to holy places where old pagan divinities still linger in the shadows of the modern world, he dreams of forgotten gods and contemplates how they might be awakened yet again, reconnecting the West with its own pre-Christian spiritual traditions, sacred landscapes, and soul.

*The Wrestler's Body* Joseph S. Alter, 1992-08-03 *The Wrestler's Body* tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

*Sadhus* Dolf Hartsuiker, 2014-10-09 An in-depth photographic study of the ascetic holy men of India • Includes more than 100 striking color photographs of Sadhus, their extreme austerities, and their holy festivals, including the Kumbha Mela • Examines the practices and beliefs of Sadhus from several different sects • Traces the historical and mythological roots of the Sadhus and shows how they have fundamentally shaped Hinduism since remote antiquity Spiritual adventurers, philosophical monks, naked ascetics, or religious transvestites, the Sadhus of India form a vital and unbroken link between the birth of yoga millennia ago and its present-day expression. Numbering in the millions, these mystic holy men are worshipped by the Hindus as representatives of the gods, yet they remain largely unknown in the West because they often live in far-off places, hidden from everyday life. In this full-color study of Sadhus more than 20 years in the making, photographer Dolf Hartsuiker illustrates the Sadhus' world of ancient magical rituals, religious symbols, and ascetic practices. In his photographic quest across India, the author visited many holy places, attended religious festivals including the Kumbha Mela, and encountered and photographed thousands of Sadhus, befriending several as he was drawn into their inner circle. Sharing more than 100 striking color photographs from his travels, he reveals the Sadhus' utmost devotion to their spiritual path through meditation practices, yoga exercises, penance, and austerities--sometimes taken to the extreme of prolonged self-imposed silence, bodily mortification, such as holding an arm above the head for years, or even ritual suicide--as well as their profound involvement with the mundane world as healers and teachers or magicians and sorcerers. It is a path of knowledge and devotion, renunciation and realization, sexual energy and spiritual power, divine intoxication and mystical union. The author examines the different beliefs and behaviors of each Sadhu sect, including the "sky-clad" Naga Babas, and traces their historical and mythological roots to show how they have fundamentally shaped Hinduism since antiquity. Revealing the powerful "otherworldliness" of the Sadhus, the author also exposes the mystical beauty that emanates from those who have chosen the path of asceticism in pursuit of knowledge of the Absolute and liberation from all earthly bonds.

**The Artisans of Banaras** Nita Kumar, 2017-03-14 Nita Kumar offers an evocative and sensitive portrayal of rarely explored aspects of Hindu culture through her analysis of the way leisure time is used by Hindu and Muslim artisans of Banaras--the weavers, metalworkers, and woodworkers. Music, festivals, the place of physical culture, and the importance of going to the outer side all are examined as Kumar looks at changes that have occurred in leisure-time activities over the last century. The discussion raises questions of the cultural and conceptual aspects of working-class life, the

role of fun and play in Indian thought, the importance of public activities in terms of personal identity, and the meaning of an Indian city to its residents. This analysis turns away from the usual models of Hindu-Muslim conflict by seeing divisions based on occupation, income level, education, and urban neighborhood as more relevant for the construction of identity than those based on religion or community. Kumar draws her information from police station records, Hindi newspapers and periodicals, publications of local individuals and organizations, oral history, and ethnographic data.
