Looking for the Summer Jim Brandenburg,2005-09-01 New in Paperback World-renowned photographer Jim Brandenburg once again uses the hidden world of his beloved northern woods as the setting for a daunting artistic challenge. From June 21st to September 21st, Jim spent each day capturing the spirit of the Northern Minnesota wilderness through his camera. At the end of each day, Jim edited the day's shoot and picked the best shot to represent that day's adventure. The resulting book literally teems with life. It is filled with the color and action of a pristine natural world during its most energetic season of the year. It features all of Brandenburg's favorite subjects: wildlife and wildflowers, water and wide-open skies. As always, Jim brings the photojournalist's instinct for the critical moment to each photo. His is a style quite unlike any other nature or wildlife photographer. As was true of the best-selling *Chased by the Light*, Jim's exercise in photographic technique became something much, much more: a study in human perspective and vision. For, in addition to being a world-class photographer, Jim Brandenburg is a philosopher/poet. As any reader of his work knows, Jim's influences are broad: native American mythology; classical Japanese culture; and Zen Buddhism. Most of all, though, Jim has lived his life as a dedicated student of the natural world-of earth and sky, of water and wind, of plants and creatures. It is in the cyclical rhythms of the natural world that Jim discovers serenity and the meaning of life, and these lessons are conveyed brilliantly through the images and words married together in this book.

The Atlantic World D'Maris Coffman,Adrian Leonard,William O'Reilly,2014-12-05 As the meeting point between Europe, colonial America, and Africa, the history of the Atlantic world is a constantly shifting arena, but one which has been a focus of huge and vibrant debate for many years. In over thirty chapters, all written by experts in the field, *The Atlantic World* takes up these debates and gathers together key, original scholarship to provide an authoritative survey of this increasingly popular area of world history. The book takes a thematic approach to topics including exploration, migration and cultural encounters. In the first chapters, scholars examine the interactions between groups which converged in the Atlantic world, such as slaves, European migrants and Native Americans. The volume then considers questions such as finance, money and commerce in the Atlantic world, as well as warfare, government and religion. The collection closes with chapters examining how ideas circulated across and around the Atlantic and beyond. It presents the Atlantic as a shared space in which commodities and ideas were exchanged and traded, and examines the impact that these exchanges had on both people and places. Including an introductory essay from the editors which defines the field, and lavishly illustrated with paintings, drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history.
