

Alcohol Abuse Statistics 10

National Survey on Drug Use and Health (U.S.)

Reducing Underage Drinking Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Developing a Strategy to Reduce and Prevent Underage Drinking, 2004-03-26 Alcohol use by young people is extremely dangerous – both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks – and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and who is responsible for making sure it happens? Reducing Underage Drinking addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which may different individuals and groups contribute to the problem and how they can be enlisted to prevent it. Reducing Underage Drinking will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

The Genetics of Alcoholism Henri Begleiter, Benjamin Kissin, 1995 This volume provides an in-depth look at the genetic influences that contribute to the development of alcoholism. Part I: Epidemiologic Studies contains five chapters that examine the various approaches employed in the study of the genetics of alcoholism. It provides a historical perspective and details all the essentials of this subject. Part II: Selective Breeding Studies highlights the results of research involving the selective breeding of

rodents. This type of research has produced homogenous strains exhibiting specific behavioral responses considered significant in the development and maintenance of alcohol dependence. The studies presented in Part III: Phenotypic Studies investigate and analyze phenotypic markers that serve as correlates to the genotypic determinants of alcoholism. Through its broad scope, this volume provides for the first time a panoramic view of the knowledge available on the hereditary influences of alcoholism.

10th Special Report to the U.S. Congress on Alcohol and Health ,2000

The Relative Effectiveness of 10 Adolescent Substance Abuse Treatment Programs in the United States Andrew R. Morral,2006 This study compares the effectiveness of 11 U.S. community-based substance abuse treatment programs for adolescents. After accounting for pretreatment differences between the youths entering each program, no persuasive evidence was found to suggest that any program produced superior outcomes. The significance of the findings for current efforts to develop outcomes-based treatment performance measurement systems is highlighted in the discussion.

The Alcohol, Drug Abuse, and Mental Health National Data Book ,1980

Substance Abuse and Mental Health Statistics Sourcebook Beatrice A.

Rouse,1995

AEDS Data Catalog ,1986

Global Status Report on Alcohol and Health 2018 World Health

Organization,2019-02-14 The report provides an overview of alcohol consumption and harms in relation to the UN Sustainable Development Goals (Chapter 1) presents global strategies action plans and monitoring frameworks (Chapter 2) gives detailed information on: the consumption of alcohol in populations (Chapter 3); the health consequences of alcohol consumption (Chapter 4); and policy responses at national level (Chapter 5). In its final chapter 6 the imperative for reducing harmful use of alcohol in a public health perspective is presented. In addition the report contains country profiles for WHO Member States and appendices with statistical annexes a description of the data sources and methods used to produce the estimates and references.

Alcohol in America United States Department of Transportation,National Research Council,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Elizabeth Hanford Dole,Dean R. Gerstein,Steve Olson,1985-02-01 Alcohol is a killer—1 of every 13 deaths in the United States is alcohol-related. In addition, 5 percent of the population consumes 50 percent of the alcohol. The authors take a close look at the problem in a classy little study, as The Washington Post called this book. The Library Journal states, ...[T]his is one book that addresses solutions....And it's enjoyably readable....This is an excellent review for anyone in the alcoholism prevention business, and good background reading for the interested layperson. The Washington Post agrees: the book ...likely will wind up on the bookshelves of counselors, politicians, judges, medical professionals, and law enforcement officials throughout the country.

Facts about Alcohol and Alcoholism National Institute on Alcohol Abuse and

Alcoholism (U.S.),1980

Results from the ... National Survey on Drug Use and Health National Survey on Drug Use and Health (U.S.),2002

U.S. Alcohol Epidemiologic Data Reference Manual ,1985

Statistics on Alcohol, Drug & Tobacco Use Timothy L. Gall,1996 Presents statistics on alcohol, illegal drug and tobacco use in the United States, with explanatory text, source citations, and contact information, a general introduction to the problems of substance abuse, and a glossary of terms.

Causes and Consequences of Alcohol Abuse United States. Congress. Senate. Committee on Governmental Affairs,1988

Drug Use Among U. S. Workers John Patrick Hoffmann,Angela Brittingham,Cindy Larison,1998-06 Presents detailed information on illicit drug use and heavy alcohol use among full-time U.S. workers. Shows the percentage of full-time workers, ages 18-49, who reported illicit drug and heavy alcohol use, by specific occupation and industry categories. Presents information on trends in prevalence over time, employee drug testing, absence from work, and prevalence among part-time workers. Also: information on employment, age, race-ethnicity, marital status, health status, and problems associated with use. The employment data includes current status (e.g., full-time or part-time employees), detailed occupation and industry classifications, work history, and drug testing at work. Tables.

Anxiety and Substance Use Disorders Sherry H. Stewart,Patricia Conrod,2007-12-03 Disorders of anxiety and substance use are, for some reason, rarely treated in an integrated fashion by professionals. This timely volume addresses this glaring omission with dispatches from the frontlines of research and treatment. Thirty-four international experts offer findings,

theories, and intervention strategies for this common form of dual disorder, across a range of substances and of anxiety disorders, to give the reader comprehensive knowledge in a practical format.
