Reducing Underage Drinking Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Developing a Strategy to Reduce and Prevent Underage Drinking, 2004-03-26 Alcohol use by young people is extremely dangerous - both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and who is responsible for making sure it happens? **Reducing Underage Drinking** addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which many different individuals and groups contribute to the problem and how they can be enlisted to prevent it. **Reducing Underage Drinking** will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

The Washington Post agrees: the book ...likely will wind up on the bookshelves of counselors, politicians, judges, medical professionals, and law enforcement officials throughout the country.

Almost Alcoholic Joseph Nowinski, Robert Doyle, 2012-03-13 Determine if your drinking is a problem, develop strategies for curbing your intake, and measure your progress with this practical, engaging guide to taking care of yourself. Every day, millions of people drink a beer or two while watching a game, shake a cocktail at a party with friends, or enjoy a glass of wine with a good meal. For more than 30 percent of these drinkers, alcohol has begun to have a negative impact on their everyday lives. Yet, only a small number are true alcoholics--people who have completely lost control over their drinking and who need alcohol to function. The great majority are what Dr. Doyle and Dr. Nowinski call Almost Alcoholics, a growing number of people whose excessive drinking contributes to a variety of problems in their lives. In *Almost Alcoholic*, Dr. Doyle and Dr. Nowinski give the facts and guidance needed to address this often unrecognized and devastating condition. They provide the tools to identify and assess your patterns of alcohol use; evaluate its impact on your relationships, work, and personal well-being; develop strategies and goals for changing the amount and frequency of alcohol use; measure the results of applying these strategies; and make informed decisions about your next steps.

Paying the Tab Philip J. Cook, 2011-06-27 What drug provides Americans with the greatest pleasure and the greatest pain? The answer, hands down, is alcohol. The pain comes not only from drunk driving and lost lives but also addiction, family strife, crime, violence, poor health, and squandered human potential. Young and old, drinkers and abstainers alike, all are affected. Every American is paying for alcohol abuse. *Paying the Tab*, the first comprehensive analysis of this complex policy issue, calls for broadening our approach to curbing destructive drinking. Over the last few decades, efforts to reduce the societal costs--curbing youth drinking and cracking down on drunk driving--have been somewhat effective, but woefully incomplete. In fact, American policymakers have ignored the influence of the supply side of the equation. Beer and liquor are far cheaper and more readily available today than in the 1950s and 1960s. Philip Cook's well-researched and engaging account chronicles the history of our attempts to legislate morality, the overlooked lessons from Prohibition, and the rise of Alcoholics Anonymous. He provides a thorough account of the scientific evidence that has

accumulated over the last twenty-five years of economic and public-health research, which demonstrates that higher alcohol excise taxes and other supply restrictions are effective and underutilized policy tools that can cut abuse while preserving the pleasures of moderate consumption. Paying the Tab makes a powerful case for a policy course correction. Alcohol is too cheap, and it's costing all of us.

Drinking Caroline Knapp, 1999-08-02 Fifteen million Americans a year are plagued with alcoholism. Five million of them are women. Many of them, like Caroline Knapp, started in their early teens and began to use alcohol as liquid armor, a way to protect themselves against the difficult realities of life. In this extraordinarily candid and revealing memoir, Knapp offers important insights not only about alcoholism, but about life itself and how we learn to cope with it. It was love at first sight. The beads of moisture on a chilled bottle. The way the glasses clinked and the conversation flowed. Then it became obsession. The way she hid her bottles behind her lover's refrigerator. The way she slipped from the dinner table to the bathroom, from work to the bar. And then, like so many love stories, it fell apart. *Drinking* is Caroline Knapp's harrowing chronicle of her twenty-year love affair with alcohol. Caroline had her first drink at fourteen. She drank through her years at an Ivy League college, and through an award-winning career as an editor and columnist. Publicly she was a dutiful daughter, a sophisticated professional. Privately she was drinking herself into oblivion. This startlingly honest memoir lays bare the secrecy, family myths, and destructive relationships that go hand in hand with drinking. And it is, above all, a love story for our times—full of passion and heartbreak, betrayal and desire—a triumph over the pain and deception that mark an alcoholic life. Praise for *Drinking* “Quietly moving . . . Caroline Knapp dazzles us with her heady description of alcohol's allure and its devastating hold.”—Los Angeles Times Book Review “Filled with hard-won wisdom . . . [a] perceptive and revealing book.”—San Francisco Chronicle “Eloquent . . . a remarkable exercise in self-discovery.”—The New York Times “*Drinking* not only describes triumph; it is one.”—Newsweek
