**The War of the Worlds** H. G. Wells,2016-03-15 The science fiction masterpiece of man versus alien that inspired generations, from Orson Welles's classic radio play to the film starring Tom Cruise. At the turn of the twentieth century, few would believe that mankind is being watched from above. But millions of miles from Earth, the lords of the Red Planet prepare their armies for invasion, waiting for the moment to strike. When they land in the English countryside, baffled humans approach, waving white flags, and the Martians burn them to a crisp. The war has begun, and mankind doesn't stand a chance. As Martian armies roll across England, one man fights to keep his family safe, risking his life—and his sanity—on the front lines of the greatest war in galactic history. H. G. Wells's groundbreaking novel, adapted to radio and film, among other mediums, by visionary artists from Orson Welles to Steven Spielberg, remains one of the most chilling, unforgettable works of science fiction ever written. This ebook has been professionally proofread to ensure accuracy and readability on all devices.

Taylor and Bob Boan are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with the Department of Defense and NASA. Invasion 2030 Roger-Pierre Le Grasse,2020-07-04 You have already asked yourself the question. What would happen if one day, the inhabitants of our planet would meet beings from elsewhere? In this fiction I imagine this encounter if his beings coming from far away from our comfort zone were hostile to human genres.

**Alien Invasion - Inside Area 51** Patrick M. Mariano,2014-02-22 This book is a set of interviews I made across the United States and the United Kingdom and I'm probably the very first journalist to have accessed Area 51. I didn't know, when I started this investigation, where it would lead me, but what I've seen in the underground levels is really scary. If you ever wondered if we are alone in this universe, the answer is No. Aliens are closer than you could imagine. I have dedicated my entire life to reporting stories and events through newspapers and that's what I do for a living; I'm not going to stop now. However, in order to protect my life, I decided to have this book written under a pseudonym. Throughout the course of this book I will make specific reference to facts that are clearly recognisable and that you can cross-reference. My only hope is that you will take action NOW and start protecting yourselves and the people around you.

*Alien Offensive Book 5* Marsell Morris,2016-04-22 Thirty years ago, a distant alien race, whose home planet was in danger because of their failing red dwarf star, tried to invade Earth and kill off all life using mind controlling, nanobots. They had visions of eventually coming to a lifeless Earth and begin terraforming the planet to suit their needs. Thanks to the unusual talents of Dorothy Keets, an inspired physicist, the world was spared from the almost unstoppable alien weapon, but the aliens were nothing if not persistent. Ten years following the first attack, they tried again, this time coming to Earth while ensconced in their nearly indestructible vessels, and using several alien techniques and different weapons - they nearly succeeded. The world's armies, after failing to so much as slow the second attack, called upon the same brilliant, slightly older, scientist, who helped stop the first attack. She, while devising a unique, devastating, weapon, was able to stop the attack. Behind her second victory, she was recognized as a worldwide hero, but her weapon The Orb Weapon was so unique - so overpowering - so maniacal, and possibly world ending, the President of the United States ordered it deactivated, and secured inside a vault deep inside the bowls of Area 51 where it would remain to never be used again - at least, that was the plan. The aliens, now repelled for the second time, were already making plans to return - and they did while bringing with them new weapons, but their attack, again, was thwarted. Dorothy's unconventional fearful weapon was un-crated, dusted off, and with a few modifications and enhancements, implemented to save the world once more. Not only were the desperate aliens repelled for the third time, but while retreating to their home world, accidentally left behind one of their own, who was quickly captured by the United States military and then sequestered in Area-51 to be studied. Dorothy was able to gain access to and establish a line of communication with the extremely intelligent alien, and while displaying sympathy for the creature, gave it a name, George. While sensing Dorothy's compassion, George became friends with her, and taught her the secret of deep space travel. He taught her how to construct stable wormholes, while unintentionally giving humankind the ability to strike back at his home world and the still antagonistic, aggressive, alien species. Norman Wells, the then President of the United States, now becoming exasperated behind the repeated alien attacks, and using the newly learned wormhole technology, sent a flotilla of orb weapon armed space fighters to the offending alien's planet while totally destroying it with only a few of the alien species able to escape the destruction to become orphans in the cosmos, and to never be able to attack Earth, again. The final defeat of the aliens being a global effort, all of humankind united in peace. President Wells, being a visionary, wasn't content with the victory over the aliens - he had grand plans for the use of the newly learned alien technology. While wanting the worldwide peace to continue, he proposed a plan to build a massive deep space exploration vessel, later dubbed, Messenger Two, and while enlisting the efforts of virtually every nation on Earth, his design to maintain global peace succeeded as the entire world came together to build the space going city. With the building of Messenger, humankind's dreams of becoming a galactic explorer were finally realized. Now having the ability to go anywhere they wished, it was decided to find another planet in the galaxy suitable for human colonization. In this, the final episode, that planet is discovered, and named Novus. Unfortunately, the much anticipated colonization of Novus fails, while setting into action events resulting in a truly tragic ending.

**The Alien Invasion on Earth Will Happen in this Decade** Eliel Roshveder,2020-10-09 A million years have passed and humanity has evolved. He left the caves and occupied the cities. However, throughout this evolution, alien beings from various worlds of the cosmos acted among the human race posing as gods and mentors of humanity. The flood was created to destroy them, as they were corrupting the human race, but they were not destroyed, only part of them, most of them changed the methods of controlling the human race creating secret societies and infiltrating the religions that came from Abraham, the worship of the One God hated by these star rebels. Could there be an alien invasion of the land in 2023 as it is in the Washington obelisk codes? I put the year 2023 to make an impact, but in fact despite the fact that there are many predictions for 2023 as the year of crossing the current cycle, the day and the hour nobody knows, only the divine Father. The alien invasion will take place after the rapture and only the divine Father knows the day of the rapture, but according to a Washington obelisk code created by Freemasonry, the date of the big change will be in 2023. The time is near, it may be the big change today, it may be 2023 or a few years later, I just know it is close.
