Alien Invasion Travis S. Taylor,Bob Boan,2011-06-01 What if there really are aliens and they do attack? Read what two scientists reveal in this how-to survival manual for the space age. Some events (such as a deliberate asteroid strike) produce such a massive setback to life, the Earth and humanity that we must understand and prepare for them, even if the chances are low that they'll come about. But where to begin? Drs. Travis S. Taylor and Bob Boan are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with the Department of Defense and NASA. These two intellectual heavyweights take us on an amazing journey through what we do<sup>3</sup>/<sub>4</sub>and do not<sup>3</sup>/<sub>4</sub>know about how to defend ourselves from space. Sure, that day may never come in our lifetimes<sup>3</sup>/<sub>4</sub>but everyone should have a copy of this lying around just in case. . . . **The Alien Prophet** John B. Fuller,2013 James and his girlfriend, Flo, agree to meet at a company picnic. James arrives at the site, and just as he notices Flo going toward him, there is a big explosion and a flash of light. James, unable to move, sees bodies scattered everywhere. Clusters of light enter each body, and each in turn disappears. Flo also disappears in this way. The lights enter James and, finding him alive, orders him to forget what has happened. James does not forget; he is recruited by this life-form from alternate Earth and is given great powers. James returns Flo and many others to Earth. They discover that the aliens harvest X cells from human bodies. James finds many possible

ways for the aliens to harvest the calls they require. James and Flo, along with other humans, live in a dome provided by the aliens. They are attacked, as alien invaders, by world governments with little success. Over many years, most of the dome people move without notice back to the world population. Finally being alone in the dome, James and Flo move to the west coast. When Flo dies, James paddles a canoe out to the Pacific. He is picked up by a pirate ship and taken to their base in Africa. James becomes known as the alien prophet and helps many people achieve freedom. He becomes tired and again paddles out to sea and drowns. Under a new leader, the system of cell harvest falls apart, and the police closes them down. The other universe aliens disappear from Earth's skies, and Earth leaders declare a victory over these aliens (Xanderites). After many quiet years, a large planet-size ship arrives and settles in Earth orbit. This causes great damage with earthquakes, volcanoes, and high tides. Small ships leave the mother ship and attack worldwide. Earth has no defense against them, and millions die. A last-hope meeting of NORAD is desperately seeking some solution when the Xanderites reappear. They announce that they are willing to help but can only hold the invaders, not defeat them. They state that, as this Earth is no longer fit for humans, they will move the survivors to an alternate Earth they have discovered. There are no functioning Earth governments, so NORAD accepts the offer. All Earth survivors, except Muslims who state they are fighting a holy war, are moved to a wilderness Earth and build settlements. There is a total of 146,000 survivors who build a new world. After a few hundred years, old Earth becomes only a myth, a legend, and the origin of man is unknown. The Xanderites do not appear on this Earth.

**Alien Invaders** J. R. Jaguar,1915-11-15 The Aurorian Commander was supremely confident. The directives of the Aurorian expedition had been met: capture the most intelligent or dangerous species from planets rich in needed resources, then transport them to Aurorica where genetic studies would pinpoint which genes to selectively target. As the Aurorians had demonstrated on nearly one hundred

planets, once genetic markers of the target species are identified, the inhabitants can be sprayed like bugs and exterminated: the conquest of alien worlds made easy by toxic-DNA and genetic weapons of mass destruction. And then the unexpected. Telepathic shape-shifters whom the Aurorian scientists dismissed as Blobs, cloned the Commander and hijacked the Aurorian spacecraft. To make matters worse, the Blobs crashed the saucer-shaped ship near an island on an unexplored planet, Earth. Hundreds of alien captives who'd escaped to the island were slaughtering beach goers, hunters, pirates, and scientists. The Commander made a decision: humans who survived the carnage would be captured, along with the aliens who'd escaped, and taken to Aurorica for dissection and genetic analysis. All human life on Earth would be exterminated. Two of the human captives, Captain Gabriel and Major Rhett, had their own plans. With the help of a mysterious Hermit who was responsible for luring everyone to the island that day, the men hatched a plot to free their friends, kill the Aurorians, hijack the flying saucer, save Earth, save the galaxy, and... journey to the stars.

**The Aliens Are Here** Fraser A. Sherman, 2022-10-06 Aliens: They have taken the form of immigrants, invaders, lovers, heroes, cute creatures that want our candy or monsters that want our flesh. For more than a century, movies and television shows have speculated about the form and motives of alien life forms. Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion (1945's *The Purple Monster Strikes*). More aliens landed in the 1950s science fiction movie boom, followed by more television appearances (*The Invaders*, *My Favorite Martian*) in the 1960s. Extraterrestrials have been on-screen mainstays ever since. This book examines various types of the on-screen alien visitor story, featuring a liberal array of alien types, designs and motives. Each chapter spotlights a specific film or TV series, offering comparative analyses and detailing the tropes, themes and clichés and how they have evolved over time. Highlighted subjects include *Eternals*, *War of the Worlds*, *The X-Files*, John Carpenter's *The Thing* and *Attack of the 50-Foot Woman*.

*Hostile Aliens, Hollywood and Today's News* Melvin E. Matthews, 2007 1950s Cold War-era monsters meet 21st-century terrorists: Matthews provides a thoughtful interpretation of sci-fi movies that examines the similarities and differences between the political environment and popular culture of two eras. This well-researched examination and appreciation of science fiction films includes behind-the-scenes tales about their production and many quotes from those who produced and starred in the films. The book will tantalize not only fans of the science fiction genre but also sociologists, film historians, and politicians. The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era, exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture. This book is the first of its kind, studying the pop culture genre in the wake of the September 11th tragedy. The alien invaders of the 1950s signified a Russian invasion of America, while other films of the genre such as *Invaders from Mars* depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage, signifying Communist enslavement. If such a film were made now, such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts. *Them!* the 1954 atomic mutation classic, is the spiritual ancestor of the 2002 film *Eight Legged Freaks*. Finally, several 1950s films depicted the end of the world at a time when Americans expected a nuclear war with Russia. *Godzilla*, the only 1950s-era monster to remain a movie star beyond that era, can be fashioned to reflect whatever issues dominate the times: nuclear war in the 1950s, environmental pollution in the 1970s. Conceivably a *Godzilla* for the age of terrorism is soon to be released. The immediate pre-September 11th era witnessed films presenting galactic threats to mankind's existence (*Independence Day*, *Armageddon*, *Deep Impact*), while the early 2000s witnessed the popularity of the Left Behind Christian films dramatizing the Tribulation period in the Book of Revelation. It seems that whatever the era and whatever the challenges and crises confronting America, many entertainment themes remain the same, reflecting their respective times and the relevant issues. \* Melvin E. Matthews, Jr. is a freelance writer and a horror movie aficionado who has been studying the genre for thirty years. In this work he shares his personal correspondence with film and television star Beverly Garland, and brings together a wealth of detail about the fun and the challenges of the costumes, stunts and special effects, as well as the actors' and producers' thoughts on the meaning behind the stories.

**The Alien Invasion** William Henry Wilkins, 2019-01-18

*Operation Terror* Murray Leinster, 2011-12-01 The mild-mannered surveyor Lockley is going about his business at a project site in Colorado when the unthinkable happens -- an object that seems to have originated from outer space crashes to the earth. This unusual event sets off a chain of increasingly dire consequences, and before long, it becomes clear that only Lockley can save the world from the impending alien invasion.
