Alien Rock Michael Luckman,2005-07-26 Whether you're a UFO skeptic, believer, or merely a rock music fan, Alien Rock takes you on a fascinating and irreverent journey exploring the extraterrestrial stories of your favorite rock icons. From Elvis to the Beatles and from Michael Jackson to Marilyn Manson, countless rock stars have claimed to have seen, communed with, been inspired by, and sometimes even descended from extraterrestrials. Now you can discover these stories for yourself in this illuminating, all-access pass to rock's unearthly encounters—some friendly, some frightening, and some frankly bizarre. From John Lennon spying a UFO from his penthouse in 1974 to Jimi Hendrix's claim that he was a messenger from “another place,” there is no extraterrestrial tale neglected. With witty prose and in-depth research, Alien Rock provides a fascinating new perspective on the long, strange trip that is rock history, and suggests that, wherever the road takes us, we may not be traveling alone.

Alien RPG Free League Publishing,2019-12-10 Space is vast, dark, and not your friend. Gamma rays and neutrino bursts erupt from dying stars to cook you alive, black holes tear you apart, and the void itself boils your blood and seizes your brain. Try to scream and no one can hear you - hold your breath and you rupture your lungs. Space isn't as empty as you'd think, either - its frontiers are ever expanding. Rival governments wage a cold war of aggression while greedy corporations vie for valuable resources. Colonists reach for the stars and gamble with their lives - each new world tamed is either feast or famine. And there are things lurking in the shadows of every asteroid - things strange and different and deadly. Things alien. This is the official ALIEN tabletop roleplaying game - a universe of body horror and corporate brinkmanship, where synthetic people play god while space truckers and marines serve host to newborn ghoulish creatures. It's a harsh and unforgiving universe and you are nothing if not expendable. Stay alive if you can--Back cover.

Rock 'N' Roll Babes Linda Jaivin,1999-04-20 Aliens mating with earthlings? It's true. And now three of their otherworldly offspring have stolen a spaceship and are zooming toward Earth in search of sex, drugs, and rock 'n' roll. Parking their saucer in Sydney, Australia, they shapeshift into luscious earthgirl form. When the alien who calls herself Baby Baby abducts Jake and straps him into the saucer's sexual experimentation chamber, the global warming begins. Next the Babes decide to form a band and soon they've skyrocketed to rock 'n' roll stardom. But trouble is on its way in the small gray shape of Captain Qwerk, who has set out to recapture them, with the U.S. Military and Eros, the excitable asteroid, right behind. Rock 'n' Roll Babes from Outer Space proves that Jaivin's imaginative powers put her in a league with Kurt Vonnegut and Douglas Adams. With a brave and racy wit, Jaivin delivers her most outrageous, enjoyable novel yet. “Witty and wickedly satiric . . . the plot is rocket-fueled and the puns almost literally fly off the page. Few writers have skewered the rock and roll world so savagely and accurately and with so much delight.”—Washington Post Book World

The XJ7 Experiment (Hostile Grey Aliens) Drac Von Stoller,2014-02-12 What should have been the greatest moment of Dr. Spencer's life would have been a death sentence if he told what he and some other scientists were working on in a secret underground governmental facility called XJ7. Rumor has it that Dr. Spencer and a team of scientists were working on reverse engineering on a UFO that crash-landed on a farm about twenty-five miles from the XJ7 facility. It wasn't the Government that these scientists had to fear it was the aliens that were recovered from the crash site about keeping it secret. As the days passed by and progress was made on their reverse engineering experiment, Dr. Spencer wanted to tell his friends and family, but couldn't shake off what the Alien told him at the crash site. The Alien said, If any words of this roll off your tongue you will vanish without a trace. That was enough to shut any man up, but as time passes almost every human has to tell someone their secret because it makes them feel like something that important needs to be told to the world. Dr. Spencer had a big ego, and after weeks of keeping his mouth shut, he decided to tell his wife what he and his colleagues were working on when he got home.

Instant Aliens R. Peliuss Cook,2017-06-10 Finally! An alien life creator that builds plausible ecosystems from microbes up to plant, animal, and sapient species. Not merely a rulebook for random alien generation, this guide helps you create exotic, plausible extraterrestrial biospheres from kingdom level down to clades and species. All details of intelligent beings, as well as animals, plants, and microbes are influenced by the initial conditions of the world from which they arose and the organisms from which they descend. Did intelligent life emerge on this exoplanet? Learn its strengths and weaknesses, determine its technology level, and discover how far from its home (and even out into space) the species has explored. Is your universe filled with humanoid aliens and anthropomorphic beasts? No problem! Our own future will see genetic engineering and directed evolution, where animal species may be uplifted to humanlike sapience. An entire chapter of INSTANT ALIENS will help you through this process.
