Arik Kershenbaum

Extraterrestrial Avi Loeb, 2021 Harvard's top astronomer lays out his controversial theory that our solar system was recently visited by advanced alien technology from a distant star

Beginning with the Aurora Crash in 1897 and the famous battle of Los Angeles in 1942, this book tells the definitive stories and provides impeccable documentation for these extraordinary encounters. Learn whether the bodies recovered at Roswell were test dummies or extraterrestrials. Explore the truth behind the military's peculiar response to the Phoenix lights. Read about the Petit-Rechain photograph of the Belgian UFO wave, the Lubbock Lights photograph, and the Mariana film footage. You will explore lesser-known incidents such as the shutdown of China's Xiaoshan Airport as well as the famous Tic Tac encounter. Additionally, Evidence of Extraterrestrials details the influence of six government UFO programs on the quest for disclosure. Whether you are a seasoned UFOlogist or just have a casual interest in unexplained phenomena, this book reveals detailed answers that prove once-and-for-all that aliens are real and they are visiting the Earth.

UFO and Alien Types and Inhabiting Earth Like Planets by Help of Aliens and Their UFOs Morteza Sheshpari, 2020-11-19 UFOs (Unidentified Flying Objects) are visiting Earth from many years ago throughout the history. There are different shapes of UFOs which is thought to be related to the different Aliens or entities from other planets, who are visiting Earth, one of the most beautiful planets in the universe. Different shapes of UFOs are shown in the chapter 1. Different types of Aliens who have been witnessed by humans when they are visiting Earth are discussed in the chapter 2. Usually, there are different types of encounters between humans, UFOs and the extraterrestrials entities which are classically called the close encounter type I up to the close encounter type IV and type V. The close encounter type IV are the ones in which Aliens or extraterrestrials entities abduct humans, mostly for medical examination and genetic engineering. In the chapter 3 and 4, some cases of close encounters type III and type IV were described, respectively. There is no doubt that the Aliens, frequently Nordic Aliens, Gray Aliens, and Reptilian Aliens have manipulated and engineered human genom to give higher and better capabilities to humans for survival, advancement, and preserving the planet Earth. Astronomical studies by NASA shows that there are two trillion galaxies in the universe. Our galaxy which is milky way galaxy has 100 billion planets, from which 6 billions are Earth like planets. The distances between Earth like planets and our Earth planet are at least many light years distance, Considering this point and lack of human knowledge and having technical difficulties for building UFOs similar to Aliens' ones who can travel the long distances between their planets and Earth in short period of time, a need for collaboration between the humans and Aliens are felt for inhabiting Earth like planets. We humans can use their knowledge and technology for building the advance UFOs or if it be impossible or Aliens do not transfer technology to the humans, we can use Alien collaboration and their UFOs by their own conduction based on the mutual agreement to inhabit Earth like planets. This theory is evaluated in the chapter 5 of this book.

Earth: An Alien Enterprise Timothy Good, 2013-11-05 A worldwide history of alien contact from one of the most respected authorities on the phenomenon: “A bible for UFO watchers” (The Wall Street Journal). This fascinating new volume tells the story of contact between aliens and humans from all across the globe, dating back to 1932, including meetings with military personnel and American presidents such as Eisenhower and Kennedy. For the first time, a former member of MI6 reveals her conversation with Neil Armstrong at a NASA conference, when she confirmed that there were “other” spacecraft on the moon when Apollo 11 landed in 1969. Armstrong also confirmed that the CIA was behind the cover-up. In a further admission in December 2012, Russian Prime Minister Dmitry Medvedev revealed “the president of Russia is given a special top secret folder [that] in its entirety contains information about aliens who have visited our planet. Along with this, the president is given a report of the Special Service that exercises control over aliens in our country. I will not tell you how many of them are among us because it may cause panic.”

The Alien Book Nick Redfern, 2019-09-01 Unmasking the mysteries of alien life on earth! Make mention of the word “alien” and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop-culture, never mind just the field of UFO research. They’ve appeared in Steven Spielberg’s classic 1977 movie, Close Encounters of the Third Kind. They regularly popped up in The X-Files. And, of course, there are numerous people – all across the world – who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. The Alien Book: A Guide to Extraterrestrial Beings on Earth shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today. Not just dozens, or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes ... the Space Brothers: long-haired, very human-looking ETs the fiendish Reptilians: seven-to-eight-foot-tall predatory shapeshifters Men in Black beings: extremely pale-skinned, tall, and with huge eyes Black-eyed Children: anemic-looking kids with solid black eyes that might be ET-human hybrids Bigfoot the werewolf-like Dogmen jellyfish-style aliens that soar around the skies of our world the Shadow People: dangerous humanoids that terrorize people legendary Nephilim space-vampires: insect-like aliens that resemble a giant praying mantis and many, many more! The Alien Book investigates the full range of sentient, alien life forms. Some are benign and others downright deadly. Some are small, like a germ or virus that has NASA, creating guidelines to deal with an outbreak of an extraterrestrial germ. Some are big like a giant praying mantis or the biblical Goliath. They all lurk on Earth and in this chilling book! With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Earth Vs. Alien Ronald Thompson, 2019-03-14 2218 The Earth is divided into 44 regions, overrun by aliens and human numbers are diminishing. Humans must disprove alien claims to Earth by uncovering evidence in Earth's past. The time capsule is their only chance, but Robert Stave has sabotaged the capsule for his own gain. He must be stopped if humans are to prevail but that involves using other time capsules against the wishes of the galactic police – the Council of the Light. With the added threat that the rebel humans, led by Zak Lancelot, are poised to take matters into their own hands, time is running out! Will the Earth become one ever changing present or a myriad of possible timelines, or will those in the future further complicate an already compromised present in this battle of Earth vs Alien? TIME IS NOT AN ALLY

The Invasion of Earth John Scott Chace, 2020-02 New Abridged Version – February 2020 The Invasion of Earth (Edition 2 – Abridged) is not a Science Fiction Novel; in fact, it is real-life stories of UFO encounters from around the world. Over 400 pages, it is packed with UFO incidents from Europe, South America, Africa, Australia, the United Kingdom, Russia, the United States, and Asia. Research shows for, over the last 100 + years, UFOs and their occupants have been monitoring this planet. This book is prepared to tell you the truth about the reality of UFOs and our contact with Aliens / Extraterrestrials. The author has researched thousands of declassified military UFO records, and newspaper articles and brings these stories to you. Through 26 chapters, we discuss many topics, including the various forms of evidence, actual military and civilian UFO case histories as well as alien contact. The stories are compelling and include the typical cat and mouse games Alien pilots use when confronting our jets. It is diabolical in that, on the one hand, our police and military jets chase the UFOs. Yet, on the other hand, UFOs pursue our military and commercial planes. You will come away understanding the reasons why they are here, what they are doing, and the ships they use. The Author: John Scott Chace is the author of UFOs In US AIRSPACE and

Project Blue Book. He is the son of Colonel Chaplain Alston R. Chace (USAF Retired) and Nephew of Colonel Frank C. Chace (USMC). A military brat, he lived on many of the US Air Force bases where several UFO incidents have taken place. John became a researcher and historian on the UFO phenomenon after sightings in Connecticut. This book contains US Air Force Project Blue Book Case and more.

Four Evidences for Aliens and UFOs in Earth's History Martin K Ettington, 2021-05-11 In this book I present the reader with four sources of proof that Aliens and UFOs have been on the Earth for not only thousands, but millions of years. The first source is about Giants existing on this Earth not only thousands, but millions of years ago. It was before humanity existed. Giant footprints have been found in stone in many cases which is strong evidence that Alien Giants existed back then who walked the Earth. The second source is Objects which are in the wrong places and times. I've presented a group of them from my other books. My favorite example is the chariot wheel in the ceiling of a coal mine which must be millions of years old. Some intelligent being created it and again it was well before humanity existed. The third piece of evidence has to do with stories from ancient documents like the Ramayana, or the Bible of stories which seem to be about aliens and spaceships as described by primitive peoples who had no knowledge of science and technology. Lastly, I've collection pictures of various art. All the way from cave paintings, to oil paintings, frescoes, and even bah relief sculptures which show clear pictures of UFOs and aliens. I hope you enjoy the evidence collected here and if you are already knowledgeable about this subject maybe you will find something new.

Alien Encounters in History Enzo George, 2019-07-15 Long have we wondered if there is life beyond Earth. Early depictions of aliens have portrayed them as little green guys, but though the reality may not be quite so whimsical. Many signs indicate that extraterrestrial life isn't purely a work of science fiction. Drawing from the early peoples' ancient drawings, mythology, captivating tales of alien abductions, and possible government cover-ups, readers might come to find that the idea of aliens existing in the universe isn't so absurd after all.

Out of This World Jacob Berkowitz, 2009-09 Are we alone in the universe? Probably not, say most scientists.

Have Aliens Visited Earth? Nick Hunter, 2016-03-10 Have you seen an alien? Do you know what they look like? Many people have claimed that they have spotted an alien or that they have been abducted by one. In this fascinating book, a mysterious figure called the Mystery Master sets you the challenge of investigating all the myths and sightings surrounding aliens and encourages you to analyse the information that you have gathered. Once you have read the information in this book, you can figure out for yourselves: Have aliens visited Earth?

Alien Contact Bonnie Meyer, 2006-02 This is the true story of over thirty years of UFO and alien contact. I became involved because I was going to prove that UFOs did not exist. This started me on my long journey of finding out what the truth is. But, then I had contact with the aliens and once it began, I balked and questioned everything that they were trying to tell me. It did not take me long to realize I had to live a dual existence as I struggled to keep from looking like a nut case. For me, this is a frustrating journey and yet rewarding. I knew the road would be difficult and that there would be ridicule, but I keep steadily moving forward. Included in the book are discussions with the aliens. Some of the topics covered are: 1. UFOs and the aliens who are piloting them 2. Where the aliens come from 3. How long the aliens have been visiting Earth and why they are here 4. There are two factions of aliens here at this time 5. Why some of the aliens are abducting 6. The aliens take on our Bible, Jesus and The Creator of all 7. The coming earth changes and what it means 8. What the aliens have said about meditation, addictions, love, marriage, reincarnation and the soul.

The Science Of Aliens Clifford A. Pickover, 1998-11-05 If we were to meet actual aliens from outer space, what would they look like? Noted author Clifford Pickover speculates on their appearance, biology, language, even their sex lives.

Alien Invasion Travis S. Taylor, Bob Boan, 2011-06-01 What if there really are aliens and they do attack? Read what two scientists reveal in this how-to survival manual for the space age. Some events (such as a deliberate asteroid strike) produce such a massive setback to life, the Earth and humanity that we must understand and prepare for them, even if the chances are low that they'll come about. But where to begin? Drs. Travis S. Taylor and Bob Boan are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with the Department of Defense and NASA. These two intellectual heavyweights take us on an amazing journey through what we do and do not know about how to defend ourselves from space. Sure, that day may never come in our lifetimes but everyone should have a copy of this lying around just in case. . . . What Does a Martian Look Like? Jack Cohen, Ian Stewart, 2007-08-17 A fascinating and useful handbook to both the science and science fiction of extraterrestrial life. Cohen and Stewart are amusing, opinionated, and expert guides. I found it a terrific and informative piece of work-nothing else like it! -Greg Bear I loved it. -Larry Niven Ever wonder about what aliens could be like? The world authority is Jack Cohen, a professional biologist who has thought long and hard about the vast realm of possibilities. This is an engaging, swiftly moving study of alien biology, a subject with bounds and constraints these authors plumb with verve and intelligence. -Gregory Benford A celebration of life off Earth. A hearteningly optimistic book, giving a much-needed antidote to the pessimism of astrobiologists who maintain that we are alone in the universe-a stance based on a very narrow view of what could constitute life. A triumph of speculative nonfiction. -Dougal Dixon, author of *After Man: A Zoology of the Future*

The Zoologist's Guide to the Galaxy Arik Kershenbaum, 2022-03-15 A wildly fun and scientifically sound exploration of what alien life must be like Scientists are confident that life exists elsewhere in the universe. Yet rather than taking a realistic approach to what aliens might be like, we imagine that life on other planets is the stuff of science fiction. The time has come to abandon our fantasies of space invaders and movie monsters and place our expectations on solid scientific footing. Using his own expert understanding of life on Earth and Darwin's theory of evolution--which applies throughout the universe--Cambridge zoologist Dr. Arik Kershenbaum explains what alien life must be like: how these creatures will move, socialize, and communicate. Might there be an alien planet with supersonic animals? A moon where creatures have a language composed of smells? Will aliens scream with fear, act honestly, or have technology? The *Zoologist's Guide to the Galaxy* answers these questions using the latest science to tell the story of how life really works, on Earth and in space.

We form a friendship that evolves into romance while Chrissy is investigating the murder of a person in the Hayden Planetarium that mystifies the New York Police Department because of the disappearance of the body. After I am able to kill one of

my preys at the Planetarium, Chrissy and I flee New York City to my beach front home in Santa Monica, California while we track a second Other who is within weeks of gathering unprecedented power following a surprising Presidential election. The FBI, multiple Federal agencies and a secret government group are closing in on what they now know is an alien species that must be captured alive or destroyed.As the Other maneuvers into power that would cause a world war resulting in a nuclear winter that will destroy humanity, I am the only being on the planet that can stop the total destruction of the human species on Earth. Can I succeed? Will I be in time? In the second book, I return. After ten years I come back to Earth to try to stop the Others from causing a deadly pandemic that if not stopped will cause the complete destruction of humanity.
