Francisco Varo's Grammar of the Mandarin Language (1703) W. South Coblin,Joseph A. Levi,2000-09-15 Francisco Varo's *Arte de la Lengua Mandarina*, completed ca. 1680, is the earliest published grammar of any spoken form of Chinese and the fullest known description of the standard language of the seventeenth century. It establishes beyond doubt that this "Language of the Mandarins" was not Pekingese or Peking-based but had instead a Jiang-Huai or Nankingese-like phonology. It also provides important information about the nature and formation of pre-modern standard forms of Chinese and will lead to revisions of currently held views on Chinese koines and their relationship with regional speech forms and the received vernacular literature. Finally, it provides a wealth of information on stylistic speech levels, honorific usage, and social customs of the elite during the early Qing period. The book provides a full translation of the 1703 text of the *Arte*, an extensive introduction to the life and work of Varo, an index of Chinese characters inserted into the translation, and an index of linguistic terms and concepts. It should be of interest to a diverse readership of Chinese historical, comparative, and descriptive linguists, students of Qing history and literature, historiographers of linguistics, and specialists in early Western religious and cultural contact with China.

Patents and Deeds and Other Early Records of New Jersey, 1664-1703 William Nelson,1976 This monumental work contains abstracts of all the known surveys, patents, and deeds of Proprietary New Jersey (1664-1703). Thousands of documents pertaining to title and transfer of land are here sorted and calendared, each revealing the names of grantors and grantees, buyers and sellers, relatives and neighbors--most with references to specific places of residence--and further giving a precise description of the survey, including date, location, and acreage. The records are arranged under the headings of East and West Jersey and are rendered accessible by the indexes which, containing well over 10,000 main entries, bear upwards of 50,000 references. In this work there are abstracts of original grants, concessions, and orders of the first Proprietors and Governors. These records describe the circumstances under which the first settlements were made in the Colony, the evolution of the government, the origin of the land titles in the Colony and in the various subdivisions thereof, and the origins and characteristics of the first settlers.
