Celebrity in the 21st Century Larry Z. Leslie, 2011-01-12 This book offers a critical look at celebrity and celebrities throughout history, emphasizing the development of celebrity as a concept, its relevance to individuals, and the role of the public and celebrities in popular culture. Tabloid magazines, television shows, and Internet sites inundate us with daily updates about movie stars, musicians, athletes, and even those who have achieved celebrity status simply for being rich and extravagant. Disturbingly, it appears that the harder our celebrities fall, the more fascinating they are to us. As popular culture becomes more influential, it is important to understand both the positive and negative aspects of celebrity. This volume traces the development of

the concept of celebrity, discusses some of the problems facing both celebrities and their followers, and points to future trends and developments in our cultural understanding of celebrity. The author's treatment is unflinchingly honest, revealing the importance of the public's role in celebrities' lives and establishing firm criteria for determining who is a celebrity—and who is not.

Faith and Science in the 21st Century Henry L. Carrigan,2018-08-17 With contributions from eight noted theologians, this book builds on popular videos from the Day 1 radio. Science or faith? The battle rages, from millennials and GenXers questioning the relevance of religion to older adults who doubt the validity of science (and vice versa), but these two are not mutually exclusive. They can, in fact, be mutually enriching and complimentary, once their proper domains are understood and respected. The Episcopal Church, with its tradition of the "via media," offers an ideal setting for conversations seeking to bridge the often antagonistic perspectives on both sides. Faith and Science in the 21st Century presents a way to start that conversation. Built on existing videos produced by the popular Day 1 program with assistance from a John Templeton Foundation grant, this series features notable faith leaders across the denominational spectrum in 3 to 5 minute video presentations on scientific topics in which they are experts. Intended for use in a variety of settings, including congregations, schools, and campus ministries, it can be presented as an eight-session series of studies, but each session can also stand on its own for a one-time formation offering. A single video download will offer all video presentations. This Leader Guide enables facilitators to foster fruitful discussions of each session topic. It includes an introduction about the program and how it can be used, and eight detailed session plans to utilize with a downloadable video sold separately on the Day 1 website.
