*I'd Rather We Got Casinos* Larry

Wilmore, 2009-01-20 From the host of Comedy Central's newest program, *The Nightly Show* with Larry Wilmore, comes the first paperback reprint of his funny and provocative musings on race in America and other nightly topics--updated with new material for this edition. Now boasting three new chapters and an introduction exclusive to the trade paperback edition, *I'd Rather We Got Casinos And Other Black Thoughts* by Larry Wilmore gives Wilmore's on-screen character of the same name a place to voice his opinions on controversial topics in a way that anyone can find amusing . . . and eye-opening. Exploring various literary forms such as op-ed pieces, epistolary entries, graduation speeches, and long-lost transcripts, the result is a collection that the expanded audience from his successful Comedy Central program will enjoy, including: why black weathermen make him feel happy (or sad); why brothas don't see UFOs; letters to the NAACP; and more, including his frustration with Black History Month -- after all, can twenty-eight days of trivia really make up for centuries of oppression?

*From Steel to Slots* Chloe E. Taft, 2016-04-06

Bethlehem PA was synonymous with steel. But after the factories closed, the city bet its future on casino gambling. Chloe Taft describes a city struggling to make sense of the ways global capitalism transforms jobs, landscapes, and identities. While residents often have few cards to play, the shape economic progress takes is not inevitable.

**Child of Fire** Harry Connolly, 2009-09-29 Ray Lilly is living on borrowed time. He's the driver for Annalise Powliss, a high-ranking member of the Twenty Palace Society, a group of sorcerers devoted to hunting down and executing rogue magicians. But because Ray betrayed her once, Annalise is looking for an excuse to kill him—or let someone else do the job. Unfortunately for both of them, Annalise's next mission goes wrong, leaving her critically injured. With the little magic he controls, Ray must complete her assignment alone. Not only does he have to stop a sorcerer who's sacrificing dozens of innocent lives in exchange for supernatural power, he must

find—and destroy—the source of that inhuman magic.  
BONUS: This edition contains excerpts from Harry Connolly's *Game of Cages* and *Twenty Palaces*.

Good Economics for Hard Times Abhijit V.

Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change-- these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously

balanced world.

**World War II U.S. Navy Vessels in Private Hands**

Greg H. Williams, 2014-01-10 During World War II, the U.S. Navy swiftly expanded to include an array of vessels, from smaller yachts and fishing boats bought early in the war for patrol work to fast, modern commercial ships built to haul troops and supplies. After the Allied victory, this diverse fleet became unnecessary and the Navy sold many of its vessels. This comprehensive catalog documents the Navy ships and boats sold after the war and registered under the American flag for commercial or recreational purposes. Focusing on those vessels with names or clearly identifiable hull numbers and crew accommodations, it chronicles each craft's prewar ownership, wartime history, and postwar fate. The product of painstaking detective work in a wide range of primary sources, this meticulous directory highlights an unexplored but illuminating aspect of U.S. maritime history.

**Circle of Enemies** Harry Connolly, 2011 Called back to his old stomping grounds in Los Angeles, former car thief Ray Lilly, who is now the grunt of a sorcerer responsible for destroying extradimensional predators, finds himself in way over his head as his former associates fall victim to a mysterious spell. Original.

*Technocreep* Thomas P. Keenan, 2014-09-13

“Technology is rapidly moving into our bodies,” writes cyber expert Keenan, “and this book gives a chilling look ahead into where that road may lead us – on a one way trip to the total surrender of privacy and the commoditization of intimacy.” Here is the definitive dissection of privacy-eroding and life-invading technologies, coming at you from governments, corporations, and the person next door. Take, for example, “Girls Around Me”: a Russian-made iPhone App that allowed anyone to scan the immediate vicinity for girls and women who checked in on Foursquare and had poorly secured Facebook profiles. It combined this information in a way never intended by the original poster. Going to a Disney theme park? Your creepy new “MagicBand” will alert Minnie Mouse that you’re on the way and she’ll know your kid’s name when you approach her. Thinking about sending your DNA off to Ancestry.com for some “genetic genealogy”? Perhaps you should think again: your genetic information could be used against you. With security scares like the Heartbleed bug (which compromised even supposedly safe internet behemoths like Google and Yahoo!) becoming more commonplace, this book is a must-read for anybody who values their privacy in a wired world.

A Nation on the Line Jan M. Padios, 2018-03-23 In

2011 the Philippines surpassed India to become what the New York Times referred to as the world's capital of call centers. By the end of 2015 the Philippine call center industry employed over one million people and generated twenty-two billion dollars in revenue. In *A Nation on the Line* Jan M. Padios examines this massive industry in the context of globalization, race, gender, transnationalism, and postcolonialism, outlining how it has become a significant site of efforts to redefine Filipino identity and culture, the Philippine nation-state, and the value of Filipino labor. She also chronicles the many contradictory effects of call center work on Filipino identity, family, consumer culture, and sexual politics. As Padios demonstrates, the critical question of call centers does not merely expose the logic of transnational capitalism and the legacies of colonialism; it also problematizes the process of nation-building and peoplehood in the early twenty-first century.

Applied Equity Analysis and Portfolio Management, + Online Video Course Robert A. Weigand, 2014-01-28 A hands-on guide to applied equity analysis and portfolio management From asset allocation to modeling the intrinsic value of a stock, Applied Equity Analysis and Portfolio Management + Online Video Course offers readers a solid foundation in the practice of fundamental analysis using the same tools and techniques as professional investors. Filled with real-world illustrations and hands-on applications, Professor Weigand's learning system takes a rigorous, empirical approach to topics such as analyzing the macro-finance environment, sector rotation, financial analysis and valuation, assessing a company's competitive position, and reporting the performance of a stock portfolio. Unlike typical books on this subject—which feature chapters to read and exercises to complete—this resource allows readers to actively participate in the learning experience by completing writing exercises and manipulating interactive spreadsheets that illustrate the principles being taught. The learning system also features instructional videos that demonstrate how to use the spreadsheet models and excerpts from the author's blog, which are used to depict additional examples of the analysis process. Along the way, it skillfully outlines an effective approach to

creating and interpreting outputs typically associated with a top-down money management shop – including a macroeconomic forecasting newsletter, detailed stock research reports, and a portfolio performance attribution analysis. Covers topics including active and passive money management, fundamental analysis and portfolio attribution analysis Companion streaming videos show how to use free online data to create your own analyses of key economic indicators, individual stocks, and stock portfolios A valuable resource for universities who have applied equity analysis and portfolio management courses Practical and up-to-date, the book is an excellent resource for those with a need for practical investment expertise.
