*Flash Out of the Box* Robert Hoekman, Jr., 2004-11-18 If you believe the sky really is the limit when it comes to creating unparalleled user experiences and applications for the Web--then Macromedia Flash MX is sure to be your tool of choice. With Flash, you can integrate video, text, audio, and graphics into distinctive and compelling web content, stunningly interactive and expressive user interfaces, and rich applications for the Internet. Flash is all about helping you dramatically enhance the user experience. And Flash Out of the Box is all about helping you think outside of the box to get there--first, by diving into the Flash box and then becoming intimately acquainted with every nook and cranny of it. In Flash Out of the Box, you'll follow and work with a simple box through a day in the life style journey. You'll study, use, abuse, and transform the box as you move through exercises that teach you the basics of Flash, and much more, in an entertaining, unforgettable, task-oriented fashion. You'll learn to animate, work with video, load external assets, draw, mask, modularize, and many other things that will be essential as you move into more advanced techniques with other books. It's just you, Flash, and the box, mastering each technique along the way and adding others in a fashion that will let you practice and learn simultaneously. Most Flash tutorials you've looked at are tool-centric, focusing on Flash's individual features and how to use them (an approach that can quickly become tedious), whereas this innovative, engaging, and motivating book is uniquely user-centric. That means it concentrates on you and what you want and need to learn. Each successive lesson anticipates and builds upon your needs, capabilities, and questions as you evolve from Flash beginner to Flash master. Written in a fun and conversational tone, the highly accessible Flash Out of the Box makes learning Flash MX 2004 intuitive, logical, and, most of all, fun.

*Practical HTML5 Projects* Adrian W. West, 2012-07-13 Practical HTML5 Projects is a collection of valuable web techniques that any developer or designer can use. This book is all about saving time. Busy web developers should not have to plow through pages of theory or history only to discover that no practical applications are provided, nor should they have to read a paragraph five times to extract some meaning from it. All of the techniques within this book are explained using fully worked examples that you can immediately apply to your own projects. With each technique the book provides: A practical and useful example (and a screen shot of

the end result where applicable). The markup for a fully worked example. A downloadable template to adapt for use in your own websites. With Practical HTML5 Projects, you can dive straight into the book at the required chapter and immediately find answers to your website problems, and find the sample code you can use to get it right. Start creating websites using the practical examples, summaries, and templates. This book includes topics such as rollover navigation menus without scripts, adding audio and video, rounded corners, drop shadows, adding PayPal services, and much more. It also includes sections on troubleshooting and transitioning to HTML5 and CSS3 to help bring your existing content up to date.

**After Effects for Flash, Flash for After Effects** Richard Harrington, Marcus Geduld, 2009 Adobe® Creative Suite® 4 brings together two powerful animation tools, each of which has its own specialized features and workflow. Learning to integrate Adobe After Effects and Adobe Flash Professional gives you more options for your animations and effects and the power to integrate video and motion graphics into a richer user experience. In this book, authors Richard Harrington and Marcus Geduld lead both types of users, those who are more familiar with either Flash or with After Effects, on using the programs together for maximum efficiency and creativity. After walking you through the core features of both programs, the authors then explore advanced uses for each application. Each chapter focuses on a particular function of the program, teaching you how to create content for Flash with After Effects, enhance your projects using 3D environments, create professional-looking video with Adobe Media Encoder, and add interactivity, accessibility, and searchability to your video. You'll also get hands-on experience using the project files on the accompanying DVD. Within these easy-to-follow, step-by-step lessons, you'll learn to: Seamlessly exchange projects and assets between After Effects and Flash Shoot green screen material correctly, work with Keylight, and utilize embedded alpha channels Create dynamic text, vector-based animations, and animated video using the tools in Adobe Creative Suite 4 Work with 3D cameras and lights and create 3D environments Convert Flash to broadcast and DVD standards with After Effects Use Adobe Media Encoder for professional results Create interactive controls and use cue points in your video Optimize video for accessibility and use Adobe® Soundbooth® for video transcription Use ActionScript in your projects for more innovative animations Richard Harrington is a certified instructor for Adobe, Apple, and Avid, and an expert in motion graphic design and digital video. He is a regular contributor to Creative Cow, ProVideo Coalition, and numerous industry blogs and magazines. He also owns the visual communications company, RHED Pixel ([www.rhedpixel.com](http://www.rhedpixel.com)) in Washington, DC. Rich is a member of the National Association of Photoshop Professionals Instructor Dream Team, chairs conferences for the National Association of Broadcasters, and has written numerous titles including Understanding Adobe Photoshop CS4, Photoshop for Video, and Broadcast Graphics on the Spot.
