**Aloha Betrayed** Noenoe K. Silva, 2004-08-17 In 1897, as a white oligarchy made plans to allow the United States to annex Hawai'i, native Hawaiians organized a massive petition drive to protest. Ninety-five percent of the native population signed the petition, causing the annexation treaty to fail in the U.S. Senate. This event was unknown to many contemporary Hawaiians until Noenoe K. Silva rediscovered the petition in the process of researching this book. With few exceptions, histories of Hawai'i have been based exclusively on English-language sources. They have not taken into account the thousands of pages of newspapers, books, and letters written in the mother tongue of native Hawaiians. By rigorously analyzing many of these documents, Silva fills a crucial gap in the historical record. In so doing, she refutes the long-held idea that native Hawaiians passively accepted the erosion of their culture and loss of their nation, showing that they actively resisted political, economic, linguistic, and cultural domination. Drawing on Hawaiian-language texts, primarily newspapers produced in the nineteenth century and early twentieth, Silva demonstrates that print media was central to social communication, political organizing, and the perpetuation of Hawaiian language and culture. A powerful

critique of colonial historiography, *Aloha Betrayed* provides a much-needed history of native Hawaiian resistance to American imperialism.

**No Worries Hawaii: a Vacation Planning Guide for Kauai, Oahu, Maui, and the Big Island** Janine Sprout, Jerry Sprout, 2017-12-07 Aloha awaits with the third edition 2018 of NO WORRIES HAWAII! The collaborative work of Janine and Jerry Sprout, 'No Worries Hawaii' is a superbly organized, beautifully illustrated, and well-informed guide for planning memorable trips throughout Hawaii, whether for business or for pleasure, whether as a day trip, a weekend getaway, or an extended vacation. Anyone planning a trip should begin by browsing through a copy to insure their itinerary will provide them with the very best Hawaii has to offer James A. Cox, Small Press Bookwatch. Half of Hawaii's 8 million yearly

tourists are first-timers, often unsure which island is best for them, where to stay, and what to choose to do among thousands of offerings. NO WORRIES HAWAII, a companion book to the Sprout's adventure guides, comes to the rescue. No Worries is also useful for repeat visitors or locals looking for new adventures, who may not be sure of what's available on other islands--or who want to find new places to explore. Readers first take an Armchair Voyage, in which they nail down their vacation style (a scouting expedition, a romantic getaway, a solo or group adventure, invigorating, relaxing, healing). These likings are matched with what Hawaii has to offer. A clever but simple SELF-TEST allows readers to sort through Hawaii's assets: beaches, nightlife, trails, gardens, attractions, cultural sites, surfing, snorkeling, 36 categories in all, to determine which are important and in which island you'll be living the dream. In the second part of NO WORRIES HAWAII, readers take their decisions from part one and receive all the practical and money-saving advice needed to book a vacation that makes the armchair voyage become a real one. A review of different locales (beach cottages, high end resorts, budget condos, mountain inns, etc.) lets readers pick the best and find places they may want to avoid. (Specific accommodations for these locales are in the Wikiwiki Websites in the back of the book.) Included also is a complete list of what to pack and wear. The third part of the book is full of tips on what to do and what not to do after arriving in the islands. Readers will deplane as kama'aina (locals), having the benefit of the Sprout's 20-plus years of exploration. Sections include how to plan days to maximize fun, save money, and avoid hassles, as well as car rental and accommodation money-savers. Readers are advised on how to, and whether to, book tours (snorkeling, sailing, helicopter, horseback, etc.). The book's safety tips are a literal lifesaver, and the everyday advice on driving, hiking, and beach-going are essential for getting the most fun out of every day. The meat of NO WORRIES HAWAII is its Best Of section, a listing of Hawaii's top attractions: museums, rainforest dayhikes, snorkeling coves, walk-around beach towns, surfing spots, places to watch surfers, mountain bike trails, people-watching beaches, botanical gardens, short strolls to views, cultural sites, luxury resorts, volcano hikes, bird-watching forests, waterfalls, churches, remote beaches, family beach parks, golf courses, and more. Taken together, the 50 categories neatly sum up the best of Hawaii. Readers can use these listings as a reference when they get to their chosen island. NO WORRIES HAWAII is beautifully designed, complimented by more than 100 color photographs. The last section is the WIKIWIKI WEBSITES, containing links and phone numbers for all the hand-picked accommodations, attractions, visitors sites, and tour companions and outfitters.

**How to Save the World for Just a Trillion Dollars** Rowan Hooper,2022-04-05 The ultimate thought experiment--what would you do with a trillion dollars?--opens our eyes to the good we can do for humanity if we spend wisely! If you had a trillion dollars and a year to spend it for the good of the world, what would you do? It's an unimaginable sum, the stuff of lighthearted hypotheticals, but author Rowan Hooper embarks on a quest to find out what would happen if we took the question extremely seriously. Speaking with experts of all kinds, he compiles a list of incredibly ambitious, world-changing ideas--ones that would secure the most profound, long-lasting benefits, from trying to end global poverty or reverse climate change to increasing human lifespans, refreezing the Arctic, saving all endangered species, and more. And then he dives into the numbers, breaking down strategies and costs to determine: How far could the money really go? Hooper does reach a conclusion as to which project would do the most good for ourselves and our planet (you'll have to read to find out!), but his most surprising discovery is how many incredible advancements are within reach--if we could only put our minds (and our money) to them!
