Languages in Action Marinela Burada, 2019-01-24 This book includes a selection of papers in linguistics presented at the 14th Conference on British and American Studies. Its tripartite structure reflects the main topics around which the nineteen contributions cluster. The first part, "Native language profiling: explorations and findings", displays a variety of methodological approaches aimed at highlighting syntactic, morphological, and lexico-semantic aspects of, primarily, English and Romanian. The papers in the second section, "Aspects of language change, bilingualism, and cross-linguistic variation", bring to the fore some of the topical issues falling within the ambit of language contact, such as mixed languages, bilingualism, and code-switching, as well as contrastive investigations of language structure. The research strand in the final part, "Meaning and communication within and across cultures", relates to lexico-pragmatic inquiries into the construction of meaning, focusing on the "language beyond language", as well as on the extent to which the lexical and pragmatic repertoires of various

languages can be made to overlap.

New Perspectives on Romance Linguistics: Morphology, syntax, semantics and pragmatics Chiyo Nishida,Jean-Pierre Montreuil,2006-01-01 This is the first of two volumes emanating from the Linguistic Symposium on Romance Languages held at the University of Texas at Austin in February 2005. It features the keynote address delivered by Denis Bouchard on exaptation and linguistic explanation, as well as seventeen contributions by emerging and internationally recognized scholars of Spanish, French, Italian, as well as Rumanian. While the emphasis bears on formal analyses, the coverage is remarkably broad, as topics range from morphology, syntax, semantics, pragmatics and language acquisition. Each article seeks to represent a new perspective on these topics and a variety of frameworks and concepts are exploited: distributive morphology, entailment theory, grammaticalization, information structure, left-periphery, polarity lattice, spatial individuation, thematic hierarchy, etc. This volume will challenge anyone interested in current issues in theoretical Romance Linguistics.
