Chinese Foreign Policy Under Xi Tiang Boon Hoo, 2017-02-17 There has been a discernable calibration of Chinese foreign policy since the ascension of Xi Jinping to the top leadership positions in China. The operative term here is adjustment rather than renovation because there has not been a fundamental transformation of Chinese foreign policy or setting up of a new kitchen in foreign affairs. Several continuities in Chinese diplomacy are still evident. The People's Republic of China (PRC) has not wavered from its overarching strategy of rising through peaceful development. The PRC is still an active participant and leader in, or shaper of, global and regional regimes even as it continues to push for reforms of the extant order, towards an arrangement which it thinks will be less unjust and more equitable. It seeks to better link up with the international track, perhaps even more so under Xi's stewardship. Yet amidst these continuities, it is clear that there have been some profound shifts in China's foreign policy. From the enunciation of strategic slogans such as the Asian security concept and major country diplomacy with Chinese characteristics; the creation of the China-led and initiated Asian Infrastructure Investment Bank; the pursuit of Xi's signature foreign policy initiative, the One Belt One Road; to a purportedly more assertive and resolute defense of China's maritime territorial interests in East Asia—examples of these foreign policy calibrations (both patent and subtle) abound. In short, this has not been a complete metamorphosis but there are real changes, with important repercussions for China and the international system. The burning questions then are What, Where, How and Why: What are these key foreign policy

adjustments? Where and how have these occurred in Chinese diplomacy? And what are the reasons or drivers that inform these changes? This book seeks to capture these changes. Featuring contributions from academics, think-tank intellectuals and policy practitioners, all engaged in the compelling business of China-watching, the book aims to shed more light on the calibrations that have animated China's diplomacy under Xi, a leader who by most accounts is considered the most powerful Chinese numero uno since Deng Xiaoping.

Cultures of Yusin Youngju Ryu, 2018-10-30 Cultures of Yusin examines the turbulent and yet deeply formative years of Park Chung Hee's rule in South Korea, focusing on the so-called Yusin era (1972–79). Beginning with the constitutional change that granted dictatorial powers to the president and ending with his assassination, Yusin was a period of extreme political repression coupled with widespread mobilization of the citizenry towards the statist gospel of modernization and development. While much has been written about the political and economic contours of this period, the rich complexity of its cultural production remains obscure. This edited volume brings together a wide range of scholars to explore literature, film, television, performance, music, and architecture, as well as practices of urban and financial planning, consumption, and homeownership. Examining the plural forms of culture's relationship to state power, the authors illuminate the decade of the 1970s in South Korea and offer an essential framework for understanding contemporary Korean society.

Great Perfection Dzogchen Rinpoche, 2008-01-15 In the Nyingma School of Tibetan Buddhism, the Great Perfection is considered the most profound and direct path to enlightenment. The instructions of this tradition present a spiritual shortcut—a radically direct approach that cuts through confusion and lays bare the mind's true nature of luminous purity. For centuries, these teachings have been taught and practiced in secret by some of the greatest adepts of the Buddhist tradition. Great Perfection: Outer and Inner Preliminaries contains detailed instructions on the foundational practices of this tradition, from The Excellent Chariot, a practice manual compiled by the Third Dzogchen Rinpoche. Distilling the teachings of the Heart Essence of the Dakinis into an accessible, easy-to-practice format, The Excellent Chariot leads the reader through the entire Buddhist path, starting with basic Buddhist contemplations that work to dislodge deeply ingrained patterns of thinking and behaving, and continuing on to the most advanced and secret meditative practices of the Great Perfection. The teachings in this volume are drawn largely from the writings of the great Nyingma master Longchenpa and the root texts of the Heart Essence of the Dakinis itself. The Third Dzogchen Rinpoche begins by discussing the correct way to study and practice the Great Perfection teachings before presenting an overview of the Great Perfection lineage and an explanation on the meaning and importance of empowerment. In the chapters that follow, he presents practical instructions on the outer and inner preliminaries, the so-called ngöndro practices. These practices enable the practitioner to transform and purify the mind, preparing it for the advanced Great Perfection meditation of Trekchö and Tögal, the breakthrough and direct leap. In addition to the translation mentioned above, Great Perfection: Outer and Inner Preliminaries contains a beautiful introduction by the Dzogchen

Ponlop Rinpoche, a contemporary Great Perfection master, and an extensive glossary of key Great Perfection terminology.
