*Super Casino* Pete Earley, 2000 Las Vegas was a mob town built on restlessness and hunger, on glitter, greed, and the firm belief that anyone can get lucky once. But in the last decade Las Vegas has had its own change of fortune, transforming itself from a gambler's fun house to one of the country's top family vacation spots. Now Pete Earley--the investigative journalist and award-winning author who stormed Leavenworth in *The Hot House*--takes us inside today's colossal theme casinos, in a fascinating look at the life, death, and fantastic rebirth of the Las Vegas Strip. With 320 days of sunshine, 500 churches, 27 golf courses, and no state income tax, Las Vegas is the ultimate boomtown. And at the heart of the boom are the new entertainment superstores known as super casinos. How do they run? Who are the business titans responsible for these extravagant showplaces? And why was the gaudy Vegas of the Rat Pack era remade in the first place? Pete Earley traces this evolution by taking a probing look at the checkered history of Las Vegas--when moguls, mobsters, and the world's top entertainers came together to create this ultimate monument to American excess. This fascinating book reveals the real stories of well-known power brokers like Steve Wynn, Vegas legends like Howard Hughes and Bugsy Siegel, and the gripping rise and fall and rise again of the entrepreneurs behind one of the largest gaming corporations in the nation, the colossus Circus Circus, to which the author was given unique access. Earley's trademark you-are-there style brings us front and center as whales win and lose hundreds of thousands of dollars in a few seconds. We see grifters try every trick in the book to beat the odds--while eye-in-the-sky cameras record all the action. We go behind the scenes to meet the blackjack dealers and hookers, the heavy hitters and bit players, the maids and chefs, security officers, cabbies, and showgirls who are caught up in the mercurial pace that pulses at the heart of this astounding city. This lively, probing book lays forth the real Las Vegas and shows how and why it has become the biggest draw in the country, offering adult and family entertainment like no other in the world. The result is an intriguing, often troubling look at a uniquely American city founded on greed--and a nation that built its own mad Mecca in the desert. This is the new Las Vegas--no longer the stomping ground of the Rat Pack, but just as fascinating, just as energized, just as cutthroat. What, and who, is behind it all? Earley was offered unique access to one of the largest gaming corporations in the nation (Circus Circus), and through his investigation of other major gambling enterprises, he shows how the Strip of yesterday has transformed itself, with multi-faceted, themed mega-complexes offering adult and family entertainment like no other in the world. Wall Street analysts call Las Vegas the biggest cash cow in America--its 1999 revenues were a staggering \$27.2 billion. *SUPER CASINO* tells how it came to be the biggest draw in the country, while catching the voices of those large and small--bosses, shift managers, dealers, cashiers, showgirls, hookers, cabbies, tourists, and of course, the players--who make it run today. -->

*Extreme Money* Satyajit Das, 2011 Everything from home mortgages to climate change has become financialized, as vast fortunes are generated by individuals who build nothing of lasting value. Das shows how extreme money has become ever more unreal; how voodoo banking continues to generate massive phony profits even now; and how a new generation of Masters of the Universe has come to dominate the world.

It's Complicated Danah Boyd, 2014-02-25 Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

Lead with Hospitality Taylor Scott, 2021-04-27 Across all industries and levels of organizations, one key leadership trait inspires and motivates more than any other: hospitality. We have all encountered inspirational leaders who've helped us, taught us, encouraged us, pushed us to get outside our comfort zones, or motivated us to become the best version of ourselves. What is it about their leadership styles that inspires us to do more for our team and our personal and professional growth? Turns out, we admire these leaders for the same reasons we love our favorite hotels, resorts, restaurants, or bars: How they make us feel is essential. Members of today's workforce--especially millennials and Gen Z--are looking for inspiring environments and work that truly fulfills them. Before anyone is compelled to do anything they first must feel. Speaker, consultant, and hospitality industry veteran Taylor Scott knows that the most effective leaders approach their roles with heart, emotionally connecting with their team members before attempting to manage them. Scott draws from his two decades in leadership roles at respected hotels, resorts, and restaurants. He distills the principles of gracious hospitality, translating them into actionable leadership lessons which apply in any industry, such as:

- How making people feel welcome fosters loyalty and keeps workers engaged with an organization's purpose
- How serving people with empathy and compassion sparks workers' highest productivity
- How making people feel comfortable encourages exploration, curiosity, and discovery while inviting everyone to lean into their creativity
- How making people feel significant drives them to deliver their best work

He also shares specific, practical steps you can take to put these principles into action. Scott shows how to connect, serve, engage, coach, and inspire your peers, teams, and even your own leaders. *Lead with Hospitality* is a call to action to connect with people on a human level which ultimately inspires teams, organizations, and companies to go to the next level.

*Island Fantasia* Wei-Ping Lin,2021-10-07 The Matsu archipelago between China and Taiwan, for long an isolated outpost off southeast China, was suddenly transformed into a military frontline in 1949 by the Cold War and the Communist-Nationalist conflict. The army occupied the islands, commencing more than 40 long years of military rule. With the lifting of martial law in 1992, the people were confronted with the question of how to move forward. This in-depth ethnography and social history of the islands focuses on how individual citizens redefined themselves and reimagined their society. Drawing on long-term fieldwork, Wei-Ping Lin shows how islanders used both traditional and new media to cope with the conflicts and trauma of harsh military rule. She discusses the formation of new social imaginaries through the appearance of 'imagining subjects', interrogating their subjectification processes and varied uses of mediating technologies as they seek to answer existential questions. **Priceless** William Poundstone,2010-01-05 Prada stores carry a few obscenely expensive items in order to boost sales for everything else (which look like bargains in comparison). People used to download music for free, then Steve Jobs convinced them to pay. How? By charging 99 cents. That price has a hypnotic effect: the profit margin of the 99 Cents Only store is twice that of Wal-Mart. Why do text messages cost money, while e-mails are free? Why do jars of peanut butter keep getting smaller in order to keep the price the same? The answer is simple: prices are a collective hallucination. In *Priceless*, the bestselling author William Poundstone reveals the hidden psychology of value. In psychological experiments, people are unable to estimate fair prices accurately and are strongly influenced by the unconscious, irrational, and politically incorrect. It hasn't taken long for marketers to apply these findings. Price consultants advise retailers on how to convince consumers to pay more for less, and negotiation coaches offer similar advice for businesspeople cutting deals. The new psychology of price dictates the design of price tags, menus, rebates, sale ads, cell phone plans, supermarket aisles, real estate offers, wage packages, tort demands, and corporate buyouts. Prices are the most pervasive hidden persuaders of all. Rooted in the emerging field of behavioral decision theory, *Priceless* should prove indispensable to anyone who negotiates.

**License to Pawn** Rick Harrison,2011 NON-FICTION -- Full of colorful characters and the fascinating wheeling and dealings of the pawn shop Rick Harrison owns and runs with his father and his son, UNTITLED is a tie-in to *Pawn Stars*, one of the most popular shows on all of cable. It will take readers behind the scenes of Harrison's family-run pawn shop and bring its lovable cast to vivid life on the page. But it will also present Harrison's amazing personal story. While he registered a near-200 IQ at an early age, Rick developed a similarly uncanny ability to find ever-deepening trouble that nearly ruined his life. Yet the birth of his son and a reconnection with his father would bring Harrison peace at a time of desperation and, together, they would build the booming business where *The Antiques Road Show* meets *American Chopper* and millions of viewers--and potential readers--find they cannot get enough--

**Dino** Nick Tosches,1999-04-13 From dealing blackjack in the small-time gangster town of Steubenville, Ohio, to carousing with the famous Rat Pack in a Hollywood he called home, Dean Martin lived in a grandstand, guttering life of booze, broads, and big money. He rubbed shoulders with the mob, the Kennedys, and Hollywood's biggest stars. He was one of America's favorite entertainers. But no one really knew him. Now Nick Tosches reveals the man behind the image--the dark side of the American dream. It's a wild, illuminating, sometimes shocking tale of sex, ambition, heartaches--and a life lived hard, fast, and without apologies.

**The Quants** Scott Patterson, 2011-01-25 With the immediacy of today's NASDAQ close and the timeless power of a Greek tragedy, *The Quants* is at once a masterpiece of explanatory journalism, a gripping tale of ambition and hubris, and an ominous warning about Wall Street's future. In March of 2006, four of the world's richest men sipped champagne in an opulent New York hotel. They were preparing to compete in a poker tournament with million-dollar stakes, but those numbers meant nothing to them. They were accustomed to risking billions. On that night, these four men and their cohorts were the new kings of Wall Street. Muller, Griffin, Asness, and Weinstein were among the best and brightest of a new breed, the quants. Over the prior twenty years, this species of math whiz--technocrats who make billions not with gut calls or fundamental analysis but with formulas and high-speed computers--had usurped the testosterone-fueled, kill-or-be-killed risk-takers who'd long been the alpha males of the world's largest casino. The quants helped create a digitized money-trading machine that could shift billions around the globe with the click of a mouse. Few realized, though, that in creating this unprecedented machine, men like Muller, Griffin, Asness and Weinstein had sowed the seeds for history's greatest financial disaster. Drawing on unprecedented access to these four number-crunching titans, *The Quants* tells the inside story of what they thought and felt in the days and weeks when they helplessly watched much of their net worth vaporize--and wondered just how their mind-bending formulas and genius-level IQ's had led them so wrong, so fast.

**Corrupt Illinois** Thomas J. Gradel, Dick Simpson, 2015-02-15 Public funds spent on jets and horses. Shoeboxes stuffed with embezzled cash. Ghost payrolls and incarcerated ex-governors. Illinois' culture of Where's mine? and the public apathy it engenders has made our state and local politics a disgrace. In *Corrupt Illinois*, veteran political observers Thomas J. Gradel and Dick Simpson take aim at business-as-usual. Naming names, the authors lead readers through a gallery of rogues and rotten apples to illustrate how generations of chicanery have undermined faith in, and hope for, honest government. From there, they lay out how to implement institutional reforms that provide accountability and eradicate the favoritism, sweetheart deals, and conflicts of interest corroding our civic life. *Corrupt Illinois* lays out a blueprint to transform our politics from a pay-to-play-driven marketplace into what it should be: an instrument of public good.

**The Fire Next Door** Ted Galen Carpenter, 2012-10-09 Since the Mexican government initiated a military offensive against its country's powerful drug cartels in December 2006, some 50,000 people have perished and the drugs continue to flow. In *The Fire Next Door*, Ted Galen Carpenter boldly conveys the growing horror overtaking Mexico and makes the case that the only effective strategy for the United States is to abandon its failed drug prohibition policy, thus depriving drug cartels of financial resources.

*Staying with the Trouble* Donna J. Haraway, 2016-08-19 In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the

kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—Staying with the Trouble further cements Haraway's reputation as one of the most daring and original thinkers of our time.
