The Global Environment and World Politics Elizabeth R. DeSombre,2007-06-01 Environmental issues are increasingly important factors in world politics - just think of the intense speculation over the climate change discussions at the forthcoming G8 summit. The study of global environmental politics draws on a variety of academic traditions. It uses international relations theory to look at the concerns and actions of states, but has also had to find a variety of new concepts and perspectives in order to explain issues unique to the study of the environment. Here, DeSombre examines four important aspects of the field: international environmental cooperation; the relationship between the environment and security; the issues of science, uncertainty and risk; and the role of non-state actors. In the second half of the book she examines these issues through the use of case studies on specific problems facing the global environment, including global change, the politics of whaling, the protection of Amazonian biodiversity and acid rain in Europe and North America.

Ten Days Without Daniel Ryan Day,Joni Eareckson Tada,2013 A Rebellion against Apathy. A Strategy for Action. Life is full of good intentions, but for too many, our good intentions never become good actions--they don't move us forward, draw us closer to God, or make a difference in the world. Good intentions are cans of paint that could have become amazing works of art...but never did. --Daniel Day, in *Ten Days Without* Daniel Day could tell you all about his love for God and his desire to live as a follower of Jesus. But it took a simple but radical experiment to move from simply talking about it to actually living like it. For ten days at a time, Daniel chose to abandon a certain necessity--a coat, a voice, shoes, media, furniture, legs, touch--and to blog about it to raise funds and awareness for organizations that are doing amazing things to make a difference in the world. And

then he invited others to join him in the experiments and spread the vision. Together they served God and others--and experienced significant personal change in the process. Ten Days Without is the story of their life-altering adventure. Ten Days Without is a compelling story and practical guide that will equip you and your friends to break through walls of convenience and indifference, and join a movement that is confronting apathy and ignorance around the world to make an impact on people's lives in a God-honoring way. Ten Days Without is where our good intentions end and making a difference in the world begins.

Ten Thousand Hours in Paradise Andrew M. Crusoe,2019-11-29 The Reckoning started with the lava flow, threatening to trap Andrew in Puna. Then the hurricane hit. From seeing the hidden fractals within the trees, to meditating in silence for 10 days, to falling in love and seeing that love crumble, the Big Island gives Andrew unparalleled opportunities to grow. Buoyed by a new project, Andrew starts off the new year with a fresh energy and is guided to the biweekly talks of a Hawaiian elder. The elder reminds him of truths that he'd forgotten, and he leads the group through the healing techniques of laulima and ho'oponopono, giving Andrew a new energy to release the last shred of attachment to a person who simply doesn't want to be with him. Now that he has created more space and clarity, his social circle expands, and Andrew meets someone who becomes one of the strongest catalysts for joy and growth in his life. But she is leaving the island in just six months. Andrew faces a forking path. All the while, lava is heading toward Pahoehoe, threatening to isolate all of Puna. The elder taught him that love prevails all trauma, but will that be enough? Ten Thousand Hours in Paradise is a 3-volume true story about the consciousness shift that happens when you embrace Hawaii. Volume 3: Reckoning takes flight with earthshaking changes, powerful healing, a new lava flow, and a hurricane, resulting in a reckoning that changes Andrew forever.
