*From Hollywood to Disneyland* Robert Neuman,2022-10-28 From its beginnings, Disneyland was destined to be something entirely different from the standard mid-century amusement park. To sell his dream park to investors and the public, Walt Disney recruited Hollywood art directors and sketch artists to design the grounds around the mythic settings and high-minded ideals commonly expressed on the silver screen. This book focuses on the initial planning of Disneyland and its first year of operation, a time when Walt personally oversaw every detail of the park's development. Divided into chapters by park zone, it reveals how the five sectors were constructed using illusionistic tricks of stage design. Reaching beyond structure and design, chapters also explore how the sectors--Main Street, U.S.A., Frontierland, Tomorrowland, Adventureland and Fantasyland--represented themes found in Disney stories, familiar movie genres and American culture at large.

**Reel Time** Robert Morris Seiler,Tamara Palmer Seiler,2013 In this authoritative work, Seiler and Seiler argues that the establishment and development of moviegoing and movie exhibition in Prairie Canada is best understood in the context of changing late-nineteenth-century and early-twentieth-century social, economic, and technological developments. From the first entrepreneurs who attempted to lure customers in to movie exhibition halls, to the digital revolution and its impact on moviegoing, Reel Time highlights the pivotal role of amusement venues in shaping the leisure activities of working- and middle-class people across North America. As marketing efforts, the lavish interiors of the movie palace and the romantic view of the local movie theatre concealed a competitive environment in which producers, exhibitors, and distributors tried to monopolize the industry and drive their rivals out of business. The pitched battles and power struggles between national movie theatre chains took place at the same time that movie exhibitors launched campaigns to reassure moviegoers that theatres were no longer the unclean and immoral places of amusement of yesteryear. Under the leadership of impresarios, the movie theatre rose up from these attacks to become an important social and cultural centre - one deemed suitable for women and children. An innovative examination of moviegoing as a social practice and movie exhibition as a commercial enterprise, Reel Time depicts how the industry shaped the development of the Canadian Prairie West and propelled the region into the modern era. Robert M. Seiler is associate professor emeritus in communication and culture at the University of Calgary. Tamara P. Seiler is professor emeritus of Canadian studies at the University of Calgary. Reel Time is their second joint publication.

**Neither Wolf nor Dog** Kent Nerburn,2010-09-07 1996 Minnesota Book Award winner — A Native American book The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. Neither Wolf nor Dog takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author, Kent Nerburn. "This is a sobering, humbling, cleansing, loving book, one that every American should read." — Yoga Journal If you enjoyed Empire of the Summer Moon, Heart Berries, or You Don't Have to Say You Love Me, you'll love owning and reading Neither Wolf nor Dog by Kent Nerburn.

**Truth** Mary Mapes,2015-10-13 Mary Mapes's Truth (previously published as Truth & Duty) was made into the 2015 film Truth, starring Cate Blanchett, Robert Redford, Topher Grace and Elizabeth Moss. A riveting play-by-play of a reporter getting and defending a story that recalls All the President's Men, Truth puts readers in the center of the 60 Minutes II story on George W. Bush's shirking of his National Guard duty. The firestorm that followed that broadcast--a conflagration that was carefully sparked by the right and fanned by bloggers--trashed Mapes' well-respected twenty-five year producing career, caused newsman Dan Rather to resign from his anchor chair early and led to an unprecedented internal inquiry into the story...chaired by former Reagan attorney general Richard Thornburgh. Truth examines Bush's political roots as governor of Texas, delves into what is known about his National Guard duty-or lack of service-and sheds light on the solidity of the documents that backed up the National Guard story, even including images of the actual documents in an appendix to the book. It is peopled with a colorful cast of characters-from Karl Rove to Sumner Redstone-and moves from small-town Texas to Black Rock-CBS corporate headquarters-in New York City. Truth connects the dots between a corporation under fire from the federal government and the decision about what kinds of stories a news network may cover. It draws a line from reporting in the trenches to the gutting of the great American tradition of a independent media and asks whether it's possible to break important stories on a powerful sitting president.

**CUCKOO'S EGG** Clifford Stoll,2012-05-23 Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is a computer-age detective story, instantly fascinating [and] astonishingly gripping (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was Hunter—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.
