**Calculator Mathematics for the Real Estate Professional** Lawrence R. Rosen,1978 Calculator Mathematics for the Real Estate Professional has two objectives: 1) to show you how to correctly answer the mathematics questions on a real estate licensing examination for salespersons or brokers; 2) to be a time-saving reference for real estate professionals, investors, tenants, accountants, lenders, and attorneys. Even those who are capable of performing complex mathematical computations will welcome the practicality of having the formulas and methods contained in one easy-to-use reference and will benefit from the short-cut, time-saving techniques described, including—how to determine in seconds (without handbooks or tables) the monthly payment on a mortgage loan, the outstanding loan balance at any particular point in time, or the interest portion of mortgage payments for a given year. The first ten chapters explain the various computations one will encounter in licensing examinations and everyday practice. The last three chapters describe how to use a pocket calculator to quickly solve these computations, and provide the method of solving more complex and advanced problems such as: computation of the area of unusually shaped land areas and the various calculations related to ‘balloon mortgages. Examples are given for an algebraic language calculator and a reverse Polish calculator as well as for a basic four function model. Real estate practitioners who master the time-saving skills explained will increase their productivity, listings, commissions, and professionalism.

*One Step Financial Success!* Mark A. Schlossberg CLU,2020-03-25 Why are most people not financially secure? It is because the government, banks, and big corporations are working extremely hard to take away as much of your money as possible. In addition, we let friends, family, and current events dictate how we should handle our monetary affairs. This causes us to make our own mistakes financially. In other words, we give up control. With One-Step Financial Success, you will learn how to • accumulate a large tax-free education fund for your children and possibly still qualify for needs-based financial aid, including scholarships to private universities, • enjoy a corporate-style pension during retirement without working for a corporation, • turn your monthly mortgage payment into a monthly income payment to you, • pay for long-term care and critical illness expenses with someone else's money (no, this is not Medicaid), • and much, much more! The best part is that this plan only requires one step to execute. One-Step Financial Success will inspire people of all ages and present financial status to regain control of their monetary affairs and to execute a simple plan of action designed to achieve lifetime financial security. Never have money worries again!
