Alexis Soyer

Time and Space in Ancient Myth, Religion and Culture Anton Bierl, Menelaos Christopoulos, Athina Papachrysostomou, 2017-10-10 From Homer to Sophocles and Greek Middle Comedy, and from Plato and Protagoras to Ovid, this volume features a panoramic and cross-generic overview of the diverse handling and ad hoc elaboration of the overarching literary notions of time and space. The twenty-one contributions of this volume written by an international group of esteemed scholars provide an equal number of hermeneutic approaches to individual, distinct aspects of Greek and Latin literature. The volume is purposely designed not as a linear display of knowledge, but rather as an anthology of select paradigms that aim to demonstrate the multidimensional function and multifaceted role of the twin notions of time and space throughout ancient Greek and Latin literary texts. The volume opens with analyses of conspicuous cases from epic poetry, proceeds with examples from drama (tragedy and comedy), and concludes with diverse instances of chronotopes (empirical, imaginary, and even shifting ones), in various literary genres. The volume is of greatest relevance since it meets the cultural and theoretical trends of today's Classics. It therefore will attract not only the interest of specialised Classicists but it is also intended for a wider general readership.

Classica Et Mediaevalia Tonnes Bekker-Nielsen,2002-12-31 *Classica et Mediaevalia* is an international periodical, published annually, with articles written by Danish and International scholars. The articles are mainly written in English, but also in French and German. The periodical deals from a philological point of view with Classical Antiquity in general and topics such as history of law and philosophy and the medieval ecclesiastic history. It covers the period from the Greco-Roman Antiquity until the Late Middle Ages.

From Unseen Fire Cass Morris,2019-04-02 *From Unseen Fire* is the first novel in the Aven Cycle, a historical fantasy set in an alternate Rome, by debut author Cass Morris The Dictator is dead; long live the Republic. But whose Republic will it be? Senators, generals, and elemental mages vie for the power to shape the future of the city of Aven. Latona of the Vitelliae, a mage of Spirit and Fire, has suppressed her phenomenal talents for fear they

would draw unwanted attention from unscrupulous men. Now that the Dictator who threatened her family is gone, she may have an opportunity to seize a greater destiny as a protector of the people--if only she can find the courage to try. Her siblings--a widow who conceals a canny political mind in the guise of a frivolous socialite, a young prophetess learning to navigate a treacherous world, and a military tribune leading a dangerous expedition in the province of Iberia--will be her allies as she builds a place for herself in this new world, against the objections of their father, her husband, and the strictures of Aventan society. Latona's path intersects with that of Sempronius Tarren, an ambitious senator harboring a dangerous secret. Sacred law dictates that no mage may hold high office, but Sempronius, a Shadow mage who has kept his abilities a life-long secret, intends to do just that. As rebellion brews in the provinces, Sempronius must outwit the ruthless leader of the opposing Senate faction to claim the political and military power he needs to secure a glorious future for Aven and his own place in history. As politics draw them together and romance blossoms between them, Latona and Sempronius will use wit, charm, and magic to shape Aven's fate. But when their foes resort to brutal violence and foul sorcery, will their efforts be enough to save the Republic they love?

Food, Cookery, and Dining in Ancient Times Alexis Soyer,2013-04-10 Tell me what thou eatest, Alexis Soyer declared in a familiar refrain, and I will tell thee who thou art. In his book Pantropheon, originally published in 1853, the flamboyant Frenchman (and world's first celebrity chef) ventures to answer that question as he presents a wealth of entertaining and enlightening information on what food the people of ancient civilizations ate and how they prepared it. Describing the culinary achievements of the Greeks, Romans, Assyrians, Egyptians, and Jews, Soyer covers such topics as the mythological origin of specific foods (pomegranates and eels, for example); agricultural, milling, and marketing practices; descriptions of seasonings, pastries, and exotic dishes; the treatment of dinner guests; as well as suggestions for serving pigeon, peacock, wild boar, camel, elephant, flamingo, and other wildlife. Enhanced by 38 illustrations depicting food-related objects and antiquity's gastronomic wonders, this witty and literal study of epicurean delights will charm history buffs and food enthusiasts alike.

Alexis: The Fragments W. Geoffrey Arnott,1996-09-12 This 1996 text was the first detailed commentary on the fragments remaining from the plays of the Greek comic poet Alexis (c. 375-270 BC).

Brill's Companion to the Study of Greek Comedy Gregory Dobrov,2010-02-01 The Companion to the Study of Greek Comedy sets forth the main resources for the advancing student in three sections: Contexts,History, and Elements." The volume is a guide for understanding and interpreting the classic comedies as well as for navigating the principal corpora of texts, fragments and scholia.
