Origami Tessellations Eric Gjerde,2008-12-18 Eric Gjerde demonstrates 25 of his favorite tessellations and turns them into projects for newcomers as well as experienced origamists. With step-by-step instructions, illustrated crease patterns, and how-to photos, you'll learn to create these wonderful designs yourself. Eric's first book covers the fundamentals of origami tessellations, provides history, and describes simple beginning techniques with detailed illustrations and photographs. An extensive gallery showcases tessellations folded by the world's leading origami fine artists---inspiring you to experiment, innovate, and eventually create your own unique designs.

The Legend of Parshu-Raam Dr Vineet Aggarwal,2015-12-16 He was the guru of Bhishma Pitamah... He was the avatar of Vishnu but a disciple of Shiva... And He shall be the martial guru of Kalki, the last Avatar in this Yuga! When the Chandravanshi emperor Arjun began expanding his empire to the entire world, the Asuras hit back with an insidious plan. Caught in the crossfire is Raam, who comes back from his penance to find 21 arrows piercing his father's body. Raam vows to avenge his death by killing the evil Kshatriyas 21 times starting with Arjun. Thus begins The Legend of Parshuram.

The Chromosomal Imbalance Theory of Cancer David Rasnick,2016-04-19 Exploring the chromosomal imbalance (aneuploidy) theory of cancer, this volume describes how cancer is initiated and why progression takes years to decades. It clarifies why cancer cells often become drug resistant, provides objective, quantitative measures for detecting cancer and monitoring its progression, and suggests non-toxic strategies of cancer therapy and prevention. The book posits that the autocatalyzed progression of aneuploidy is carcinogenesis. The clarity and unifying simplicity of the theory of chromosomal imbalance has the potential to fundamentally alter the course of cancer research, prevention, diagnosis and treatment.

[The Meaning of Maggie \(Sneak Preview\)](#) Megan Jean Sovern,2014-03-18 A free sneak preview of The Meaning of Maggie by Megan Jean Sovern. Download now and enjoy this extended excerpt before the book goes on sale on May 6, 2014. As befits a future President of the United States of

America, Maggie Mayfield has decided to write a memoir of the past year of her life. And what a banner year it's been! During this period she's Student of the Month on a regular basis, an official shareholder of Coca-Cola stock, and defending Science Fair champion. Most importantly, though, this is the year Maggie has to pull up her bootstraps (the family motto) and finally learn why her cool-dude dad is in a wheelchair, no matter how scary that is. Author Megan Jean Sovern, herself the daughter of a dad with multiple sclerosis, writes with the funny grace and assured prose of a new literary star. A portion of the proceeds of the sale of this book will be donated to the National Multiple Sclerosis Society.

Abe & Fido Matthew Algeo,2015-04-01 In early 1861, as he prepared to leave his home in Springfield, Illinois, to move into the White House, Abraham Lincoln faced many momentous tasks, but none he dreaded more than telling his two youngest sons, Willie and Tad, that the family's beloved pet dog, Fido, would not be accompanying them to Washington. Lincoln, who had adopted Fido about five years earlier, was afraid the skittish dog wouldn't survive the long rail journey, so he decided to leave the mutt behind with friends in Springfield. Fido had been by Lincoln's side as the prairie lawyer rose from obscurity to the presidency, sometimes carrying bundles of letters from the post office as Lincoln walked the streets of the state capital. *Abe & Fido: Lincoln's Love of Animals and the Touching Story of His Favorite Canine Companion* tells the story of two friends, an unlikely tandem who each became famous and died prematurely. The book also explores the everyday life of Springfield in the years leading up to the Civil War, as well as Lincoln's sometimes radical views on animal welfare, and how they shaped his life and his presidency. It's the story of a master and his dog, living through historic, tumultuous times. Matthew Algeo is the author of *Harry Truman's Excellent Adventure*, *The President Is a Sick Man*, *Pedestrianism*, and *Last Team Standing*. An award-winning journalist, Algeo has reported from four continents, and his stories have appeared on public radio's *All Things Considered*, *Marketplace*, and *Morning Edition*.

Dictionary of Untranslatables Barbara Cassin,Emily Apter,Jacques Lezra,Michael Wood,2014-02-09 Characters in some languages, particularly Hebrew and Arabic, may not display properly due to device limitations. Transliterations of terms appear before the representations in foreign characters. This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as Dasein (German), pravda (Russian), saudade

(Portuguese), and stato (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages--English, French, German, Greek, Italian, Portuguese, Russian, and Spanish. Originally published in French, this one-of-a-kind reference work is now available in English for the first time, with new contributions from Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. C. Young, and many more. The result is an invaluable reference for students, scholars, and general readers interested in the multilingual lives of some of our most influential words and ideas. Covers close to 400 important philosophical, literary, and political terms that defy easy translation between languages and cultures Includes terms from more than a dozen languages Entries written by more than 150 distinguished thinkers Available in English for the first time, with new contributions by Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. Joe DiMaggio Richard Ben Cramer, 2001-09-04 This is the life story of Joe DiMaggio, including his first game with the New York Yankees in the 1930s, his marriage to Marilyn Monroe & his rise to hero status. Richard Ben Cramer tells of the ways in which fame can both build & destroy.

The Courage of Truth Michel Foucault, 2012-05-08 The Courage of the Truth is the last course that Michel Foucault delivered in a series of lectures from 1970 to 1984 at the Collège de France. Here, Foucault continues the theme of the previous year's lectures in exploring the notion of truth-telling in politics to establish a number of ethically irreducible conditions based on courage and conviction. His death, on June 25th, 1984, tempts us to detect the

philosophical testament in these lectures, especially in view of the prominence they give to the themes of life and death.

What Lies Behind J.T. Ellison, 2018-11-12 The fourth riveting novel featuring the incomparable Dr. Samantha Owens, by critically acclaimed New York Times bestselling author J.T. Ellison “WHAT LIES BEHIND grabs you by the throat and doesn’t let go. Ellison is a great talent—enjoy.” —Catherine Coulter, # 1 New York Times bestselling author Waking to sirens in the night is hardly unusual for Sam Owens. No longer a medical examiner, she doesn’t lose sleep over them, but a routine police investigation in her neighborhood has her curious. When her homicide detective friend, Darren Fletcher, invites her to look over the evidence, she immediately realizes the crime scene has been staged. What would seem to be a clear case of murder/suicide is anything but. The discovery of toxic substances in hidden vials indicates that something much more sinister is at play... As Fletch and Sam try to understand what and who they are dealing with, they are summoned to a meeting at the State Department. High-level officials are interested in what they know and, as the threat of bioterrorism is exposed, seem to be keeping secrets of their own. Unsure who to trust, Sam and Fletch find themselves up against very powerful people at every stage in the investigation. It’s Sam’s most complex case yet, and the terrifying reality is beyond anything she could have imagined. Originally published in 2015

From Puritanism to Postmodernism Richard Ruland, Malcolm Bradbury, 2016-04-14 Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

On the Natural Faculties Claudius Galen, 2019-12-07 Galen of Pergamon, was a prominent Roman physician, surgeon and philosopher. The most

accomplished of all medical researchers of antiquity, Galen contributed greatly to the understanding of numerous scientific disciplines, including anatomy, physiology, pathology, pharmacology, and neurology, as well as philosophy and logic. Galen's understanding of anatomy and medicine was principally influenced by the then current theory of humorism, as advanced by many ancient Greek physicians such as Hippocrates. His theories dominated and influenced Western medical science for more than 1,300 years. Medical students continued to study Galen's writings until well into the 19th century. Galen conducted many nerve ligation experiments that supported the theory, which is still accepted today that the brain controls all the motions of the muscles by means of the cranial and peripheral nervous systems.

Public Health Implications of Raising the Minimum Age of Legal Access to Tobacco Products Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Public Health Implications of Raising the Minimum Age for Purchasing Tobacco Products, 2015-07-23 Tobacco use by adolescents and young adults poses serious concerns. Nearly all adults who have ever smoked daily first tried a cigarette before 26 years of age. Current cigarette use among adults is highest among persons aged 21 to 25 years. The parts of the brain most responsible for cognitive and psychosocial maturity continue to develop and change through young adulthood, and adolescent brains are uniquely vulnerable to the effects of nicotine. At the request of the U.S. Food and Drug Administration, Public Health Implications of Raising the Minimum Age of Legal Access to Tobacco Products considers the likely public health impact of raising the minimum age for purchasing tobacco products. The report reviews the existing literature on tobacco use patterns, developmental biology and psychology, health effects of tobacco use, and the current landscape regarding youth access laws, including minimum age laws and their enforcement. Based on this literature, the report makes conclusions about the likely effect of raising the minimum age to 19, 21, and 25 years on tobacco use initiation. The report also quantifies the accompanying public health outcomes based on findings from two tobacco use simulation models. According to the report, raising the minimum age of legal access to tobacco products, particularly to ages 21 and 25, will lead to substantial reductions in tobacco use, improve the health of Americans across the lifespan, and save lives. Public Health Implications of Raising the Minimum Age of Legal Access to Tobacco Products will be a valuable reference for federal policy makers and state and local health departments and legislators.

Transference Jacques Lacan, 2017-10-23 Alcibiades attempted to seduce Socrates, he wanted to make him, and in the most openly avowed way

possible, into someone instrumental and subordinate to what? To the object of Alcibiades's desire – ágalma, the good object. I would go even further. How can we analysts fail to recognize what is involved? He says quite clearly: Socrates has the good object in his stomach. Here Socrates is nothing but the envelope in which the object of desire is found. It is in order to clearly emphasize that he is nothing but this envelope that Alcibiades tries to show that Socrates is desire's serf in his relations with Alcibiades, that Socrates is enslaved to Alcibiades by his desire. Although Alcibiades was aware that Socrates desired him, he wanted to see Socrates's desire manifest itself in a sign, in order to know that the other – the object, ágalma – was at his mercy. Now, it is precisely because he failed in this undertaking that Alcibiades disgraces himself, and makes of his confession something that is so affectively laden. The daemon of αἰδώς (Aidós), Shame, about which I spoke to you before in this context, is what intervenes here. This is what is violated here. The most shocking secret is unveiled before everyone; the ultimate mainspring of desire, which in love relations must always be more or less dissimulated, is revealed – its aim is the fall of the Other, A, into the other, a.
